Brightever A0312

Brightever 2-Pack Outdoor Wall Light Fixture (Model A0312)

User Manual

INTRODUCTION

Welcome to your new Brightever Outdoor Wall Light Fixture. This manual provides detailed instructions for the safe and efficient installation, operation, and maintenance of your new lighting solution. Please read thoroughly before proceeding.

SAFETY INFORMATION

To ensure safe operation and prevent injury or damage, please observe the following safety precautions:

- Always turn off power at the circuit breaker before installation, servicing, or cleaning.
- Consult a qualified electrician if you are unfamiliar with electrical wiring.
- Ensure all connections are secure and properly insulated.
- Do not modify the fixture in any way not described in this manual.
- Keep packaging materials away from children.

WHAT'S IN THE BOX

Your package should contain the following items:

- 2 x Outdoor Wall Light Fixtures (Model A0312)
- Instruction Manual
- Mounting Hardware (including wire nuts and screws)

PRODUCT OVERVIEW

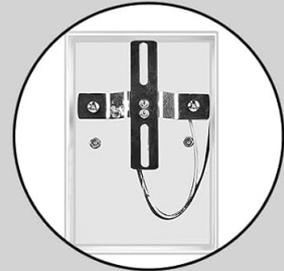

The Brightever Outdoor Wall Light Fixture (Model A0312) features a durable metal frame and a unique crystal bubble glass design. It is equipped with integrated 10W LED chips, providing 1000 lumens of 3000K warm white light. The fixture is designed for outdoor use, offering waterproof, rust-proof, and weather-resistant properties.

INSTALLATION INSTRUCTIONS

These modern outdoor wall sconces come pre-assembled, requiring only wall mounting. Follow these steps for a safe and effortless installation:

1. Turn off Power:

Before beginning installation, ensure the power supply to the light fixture location is turned off at the circuit breaker to prevent electrical shock.

2. Prepare Mounting Surface:

Remove any existing fixture and its mounting bracket. Ensure the electrical box is clean and accessible.

3. Attach Mounting Bracket:

Secure the provided mounting bracket to the electrical junction box using the screws included in the hardware kit. Ensure the bracket is level and firmly attached.

4. **Connect Wiring:**

Carefully connect the fixture's wires to your house's electrical wires. Connect the black wire (live) from the fixture to the black wire from the junction box, the white wire (neutral) from the fixture to the white wire from the junction box, and the ground wire (green or bare copper) from the fixture to the ground wire from the junction box. Use the provided wire nuts to secure connections. Ensure all connections are tight and properly insulated.

5. **Mount Fixture:**

Align the fixture with the mounting bracket and secure it using the decorative nuts or screws. Ensure the fixture is flush against the wall and stable.

6. Restore Power:

Once the fixture is securely installed, restore power at the circuit breaker and test the light.

OPERATING INSTRUCTIONS

The Brightever Outdoor Wall Light Fixture is designed for simple operation.

- **Power On/Off:** Control the light fixture using your existing wall switch.
- **Light Output:** The integrated 10W LED chips provide 1000 lumens of 3000K warm white light. No additional bulbs are required.

MAINTENANCE

This fixture is designed for low maintenance due to its durable construction and integrated LED technology.

- **Cleaning:** To clean the fixture, ensure power is off. Wipe gently with a soft, damp cloth. Avoid abrasive cleaners or solvents that may damage the finish or glass.
- **Integrated LED:** The LED chips are integrated and have a life expectancy of over 50,000 hours, requiring no bulb replacement.
- **Weather Resistance:** The fixture's anti-rust and waterproof design ensures durability in various outdoor conditions, minimizing the need for frequent maintenance.

TROUBLESHOOTING

If you encounter any issues with your Brightever Outdoor Wall Light Fixture, please refer to the following common solutions:

- **Light Does Not Turn On:**
 - Check the circuit breaker to ensure power is on.
 - Verify all wiring connections are secure and correct.
 - Ensure the wall switch is in the "ON" position.
- **Light Flickers:**
 - Turn off power at the circuit breaker and re-check all wiring connections for tightness.
 - Ensure the fixture is not connected to a dimmer switch unless explicitly rated for LED dimming.
- **Water Inside Fixture:**
 - While designed to be waterproof, inspect the installation for any gaps or improper sealing around the mounting plate that could allow water ingress. Re-seal if necessary.

For issues not listed here, please contact Brightever customer support.

SPECIFICATIONS

Property	Value
Brand	Brightever
Model Name	A0312
Color	White
Material	Iron
Style	Modern
