Podofo Radio 4G+64G

Podofo Android Car Stereo Instruction Manual

For Honda Accord 7th Generation (2003-2007)

Model: Radio 4G+64G

1. Introduction

This instruction manual provides detailed guidance for the installation, setup, operation, and maintenance of your new Podofo Android Car Stereo. Please read this manual thoroughly before installation and use to ensure proper function and safety. This unit is specifically designed for Honda Accord 7th Generation models from 2003 to 2007. **Important: Before purchasing and installing, verify the year, dimensions, and shape of your car's central control unit to ensure compatibility.**

2. Safety Information

- **Professional Installation Recommended:** Due to the complexity of car electrical systems, professional installation is highly recommended to prevent damage to the unit or your vehicle.
- **Power Supply:** Ensure the unit is connected to a 12V DC power supply with a negative ground.
- **Wiring:** Do not short-circuit any wires. Insulate all unused wires.
- **Operation While Driving:** Avoid operating the unit's complex functions while driving. Distraction can lead to accidents.
- **Temperature:** Do not expose the unit to extreme temperatures or direct sunlight for prolonged periods.
- **Moisture:** Keep the unit away from water and excessive moisture.

3. Package Contents

The following items are included in your product package:

- Android Car Stereo Unit
- Dedicated Frame for Honda Accord 7th Gen
- Power Cables (x2)
- RCA Cable
- AHD Backup Camera

- External Microphone (MIC)
- Input Cable
- GPS Antenna (x2)
- USB Cables (x2)
- Rear Camera Input Cable
- User Manual

5. Installation

Installing the Android Car Stereo involves replacing the factory head unit. This process typically requires disassembling parts of the dashboard. It is strongly recommended to have this unit installed by a qualified professional to avoid damage to the vehicle's electrical system or the stereo unit itself.

General Installation Steps (Consult a professional for detailed instructions):

1. **Disconnect Battery:** Always disconnect the car's negative battery terminal before starting any electrical work.
2. **Remove Factory Unit:** Carefully remove the existing car stereo and dashboard trim panels.

3. **Connect Wiring Harness:** Connect the provided wiring harness to the car's factory harness. Ensure all connections are secure.
4. **Connect Peripherals:** Connect the GPS antenna, USB cables, external microphone, and AHD backup camera (if applicable) to the corresponding ports on the new stereo unit.
5. **Mount New Unit:** Secure the new Android car stereo unit into the dashboard using the provided frame and mounting brackets.
6. **Test Functionality:** Reconnect the car battery and test all functions of the stereo unit (power, audio, touch screen, radio, Bluetooth, camera, etc.) before fully reassembling the dashboard.
7. **Reassemble Dashboard:** Once all functions are verified, carefully reassemble the dashboard trim panels.

6. Setup

6.1 Initial Power-On

After successful installation and reconnecting the battery, turn on your car's ignition. The stereo unit should power on automatically. Follow any on-screen prompts for initial setup, such as language selection and time zone.

6.2 Wi-Fi Connection

To access online features, connect the unit to a Wi-Fi network (e.g., your phone's hotspot).

1. Go to **Settings** > **Network & Internet** > **Wi-Fi**.
2. Turn on Wi-Fi and select your desired network from the list.
3. Enter the password if prompted and connect.

6.3 GPS Setup

The unit comes with a GPS antenna for navigation. For offline maps, you may need to download map data via Wi-Fi. Online navigation apps (e.g., Google Maps, Waze) require an active internet connection.

7. Operating Instructions

7.1 Display and User Interface

The unit features a 10.1-inch IPS touch screen with a resolution of 1280x720P, providing clear visuals and responsive touch control. It supports multiple customizable UI themes and a split-screen function, allowing you to run two applications simultaneously.

7.2 Smart Connectivity (CarPlay, Android Auto, Mirror Link)

The stereo supports both wireless and wired CarPlay and Android Auto, allowing seamless integration with your smartphone. You can access navigation, music, calls, and messages directly from the stereo's touch screen. Mirror Link functionality also allows you to cast your phone's screen to the stereo display.

- **CarPlay/Android Auto:** Connect via USB cable for wired connection or Bluetooth for wireless. Follow on-screen prompts to enable.
- **Mirror Link:** Connect your smartphone via Wi-Fi or USB. Refer to the unit's specific Mirror Link application for detailed instructions.

Figure 7.3: CarPlay, Android Auto, and Mirror Link Connectivity

7.3 Bluetooth 5.0

Connect your smartphone via Bluetooth 5.0 for hands-free calling and audio streaming. The external microphone ensures clear call quality.

1. Go to **Settings** > **Bluetooth**.
2. Enable Bluetooth on the stereo and your phone.
3. Search for available devices on your phone and select the stereo unit (e.g., "Podofo Car Stereo").
4. Confirm the pairing code on both devices.
5. Once paired, you can make/receive calls and play music from your phone.

Figure 7.4: Bluetooth 5.0 Interface

7.4 Radio (RDS/FM)

Access FM/AM radio stations with RDS support for displaying station information.

1. Open the **Radio** application from the main menu.
2. Use the scan function to automatically find and save available stations.
3. Manually tune to frequencies or select from saved presets.

7.5 DSP Audio Processing

The built-in Digital Signal Processor (DSP) with a 36-band equalizer allows for precise audio customization. Adjust

sound settings to match your preferences and vehicle acoustics.

1. Open the **DSP** or **Equalizer** application.
2. Adjust the frequency bands to fine-tune the audio output.
3. Select from various preset sound modes or create your own custom profile.

Figure 7.5: DSP and Equalizer Interface

7.6 Navigation (GPS)

Utilize the integrated GPS module for accurate navigation. The unit supports both offline maps (which require prior download) and online navigation applications.

1. Open the **Navigation** or **Maps** application.
2. Enter your destination.
3. Follow the on-screen directions and voice prompts.

7.7 AHD Backup Camera

The included AHD backup camera provides a clear, wide-angle view when reversing. The display automatically switches to the camera feed when the vehicle is put into reverse gear.

- The camera features a 170-degree wide angle, IP67 waterproof rating, and night vision capabilities.
- Dynamic guidelines may appear on the screen to assist with parking.

Figure 7.6: Rear Camera Input Features

8. Maintenance

- **Screen Cleaning:** Use a soft, lint-free cloth to clean the touch screen. Do not use abrasive cleaners or solvents.
- **Software Updates:** Periodically check for system software updates via Wi-Fi to ensure optimal performance and access to new features.
- **General Care:** Avoid placing heavy objects on the unit or exposing it to direct impacts.

9. Troubleshooting

Problem	Possible Cause	Solution
Unit does not power on.	Loose power connection, blown fuse, incorrect wiring.	Check power cables and fuse. Verify wiring connections. Consult a professional installer.
No sound.	Volume too low, mute activated, speaker wiring issue.	Increase volume. Check if mute is on. Verify speaker connections.
GPS signal lost or inaccurate.	GPS antenna obstructed or improperly installed.	Ensure GPS antenna has a clear view of the sky. Check antenna connection.
Bluetooth connection issues.	Device not paired, Bluetooth off, interference.	Ensure Bluetooth is enabled on both devices. Re-pair the devices. Move closer to the unit.
Backup camera not displaying.	Camera not connected, reverse trigger wire not connected.	Check camera and reverse trigger wire connections.

10. Warranty and Support

For warranty information and technical support, please refer to the documentation provided with your purchase or contact the seller directly. Additional protection plans may be available for purchase, offering extended warranty or accidental damage coverage.
For specific issues not covered in this manual, please contact customer service for assistance.
