Screen Size	6.9 Inches
Display Type	HD Touch Screen
Connectivity Technology	Bluetooth, USB, WiFi, Airplay, FM
Special Features	Wireless Android Auto, Wireless Apple CarPlay, Built-in Bluetooth, Touch Screen, RDS, Built-in Wi-Fi
Compatible Devices	Smartphones
Audio Output Mode	Stereo, Surround
Output Wattage	180 Watts
Control Method	Touch
Connector Type	3.5mm Jack, USB Type A, RCA, Microphone, Rear View Camera
Dimensions	27.6 x 21.8 x 10.7 cm; 810 g
Country of Origin	China

SETUP AND INSTALLATION

Proper installation is crucial for the optimal performance of your car radio. If you are unsure about any steps, it is recommended to seek professional assistance.

1. Wiring Connections

Connect the power cable, speaker cable, and other accessories according to the wiring diagram. Ensure all connections are secure to prevent malfunctions.

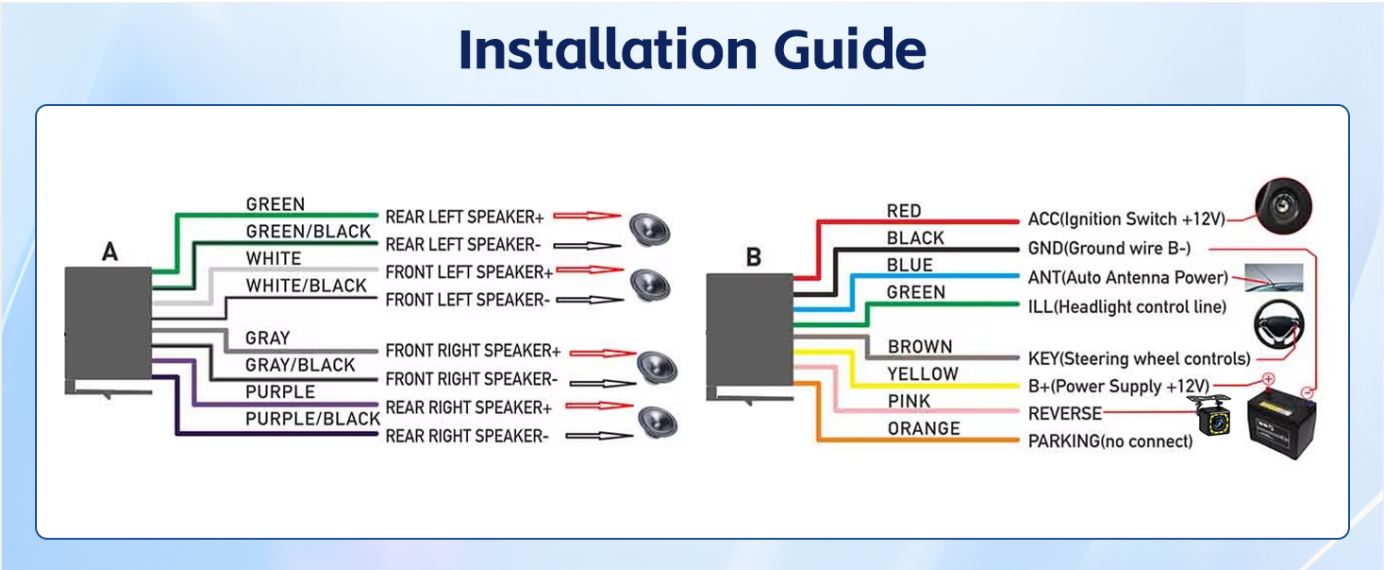

Image: Installation Guide Wiring Diagram.

- **Power Cable (A):** Connect to your vehicle's power supply. Ensure correct polarity (Red: ACC/Ignition Switch +12V, Black: GND/Ground Wire B-, Blue: ANT/Auto Antenna Power, Green: ILL/Headlight control line).
- **Speaker Cable (B):** Connect to your vehicle's speakers. Ensure correct positive (+) and negative (-) connections for each speaker (Rear Left, Front Left, Front Right, Rear Right).

- **Steering Wheel Controls (SWC):** Connect the KEY wire (Yellow) for steering wheel controls.
- **Reverse Camera:** Connect the REVERSE wire (Pink) to the vehicle's reverse light signal.
- **Parking Brake:** The ORANGE wire for PARKING should typically not be connected for safety reasons, or connected to the parking brake signal as per local regulations.

2. Rear Panel Connections

The rear panel of the unit provides various ports for external devices.

Image: Multimedia Player Connection Reference.

1. **USB Interface:** For USB devices.
2. **ANT:** Antenna input.
3. **R-OUT:** Right audio output.
4. **SW:** Subwoofer output.
5. **CVBSIN:** Composite video input.
6. **L-OUT:** Left audio output.
7. **AV1:** Audio/Video input 1.
8. **CAMIN:** Camera input.
9. **Power Cable:** Main power connector.

3. Backup Camera Installation

The included backup camera provides a wide-angle view for safer reversing. Connect the camera as shown:

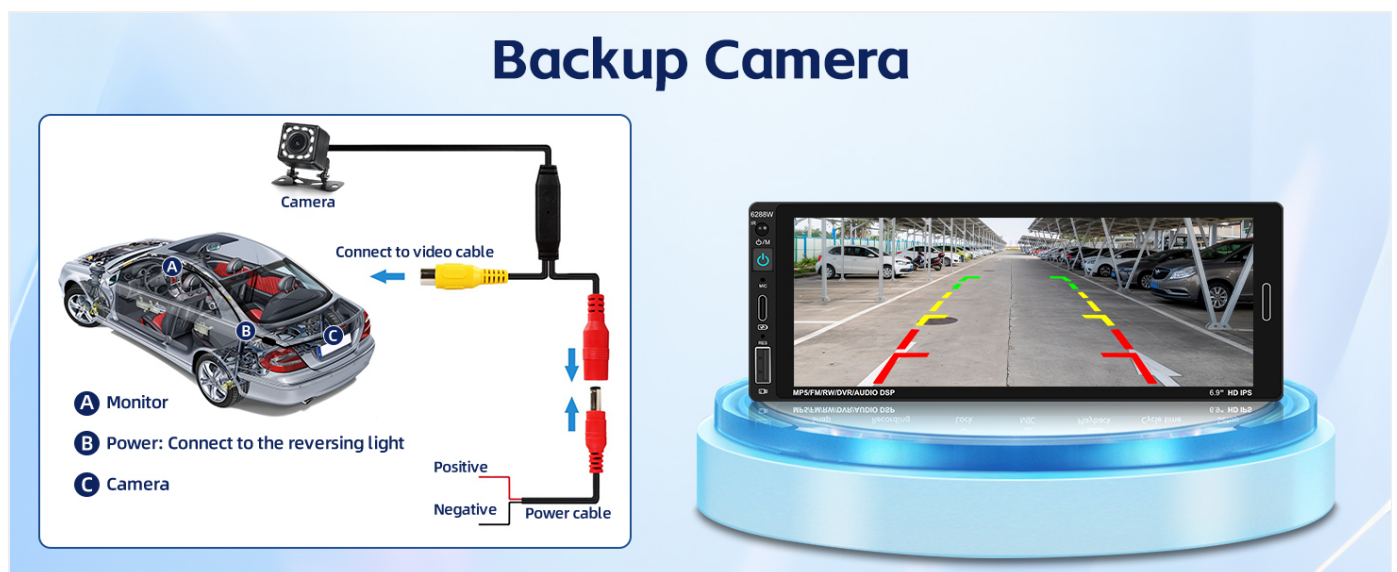

Image: Backup Camera Connection Diagram.

- Connect the camera's video cable to the CAMIN port on the car radio.
- Connect the camera's power cable (red and black wires) to the vehicle's reversing light (positive and negative)

terminals). This ensures the camera activates automatically when reversing.

OPERATING INSTRUCTIONS

1. Wireless CarPlay & Android Auto

Connect your smartphone wirelessly to access navigation, make calls, send messages, and play music through voice commands (Siri or Google Assistant) or the touch screen.

Image: Wireless CarPlay & Android Auto interface.

- **For Apple CarPlay:** Ensure Wi-Fi and Bluetooth are enabled on your iPhone. Select the CarPlay icon on the car radio and follow the on-screen prompts to pair.
- **For Android Auto:** Ensure Wi-Fi and Bluetooth are enabled on your Android phone. Select the Android Auto icon on the car radio and follow the on-screen prompts to pair.
- Once connected, you can use voice commands for hands-free operation.

2. Bluetooth Hands-free Calling & Music

Pair your phone via Bluetooth for hands-free calls and wireless music streaming.

Bluetooth Hands-free Call/Music

Supports hands-free calling, music playback and automatic loading of the phone book.

FM Radio & EQ

Built-in FM radio with multiple stations allows you to listen to new broadcasts, real-time traffic and weather forecasts anytime, anywhere.

Image: Bluetooth Hands-free Call/Music interface.

- Go to the Bluetooth menu on the car radio.
- Enable Bluetooth on your smartphone and search for available devices.
- Select the car radio's Bluetooth name (e.g., "Fuluku Car Radio") and pair. A PIN may be required (usually 0000 or 1234).
- Once paired, you can make/receive calls and play music wirelessly. The unit supports automatic loading of your phone book.

3. FM Radio

Tune into your favorite FM radio stations for news, traffic, and weather updates.

Bluetooth Hands-free Call/Music

Supports hands-free calling, music playback and automatic loading of the phone book.

FM Radio & EQ

Built-in FM radio with multiple stations allows you to listen to new broadcasts, real-time traffic and weather forecasts anytime, anywhere.

Image: FM Radio interface.

- Select the "Radio" icon from the main menu.
- Use the touch screen controls to scan for stations, save presets, or manually tune to a frequency.

4. Steering Wheel Control (SWC)

Program your vehicle's steering wheel buttons to control the car radio for convenience and safety.

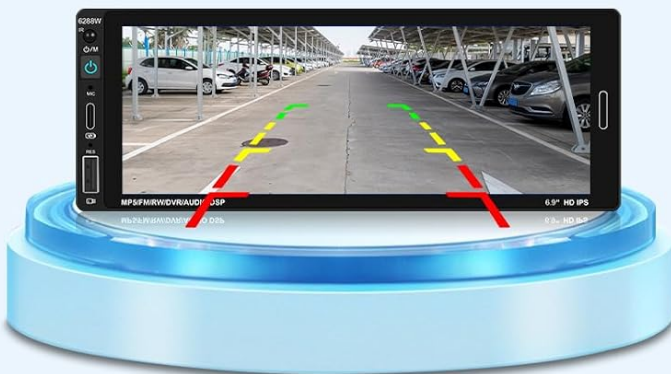

Steering Wheel Control

Completing the steering wheel button learning, you can control the car radio through the steering wheel

Backup Camera

Included AHD image, 170-degree ultra-wide angle, waterproof backup camera

(Included)

Image: Steering Wheel Control setup.

- Navigate to the "Settings" menu and find "Steering Wheel Control" or "SWC".
- Follow the on-screen instructions to learn and assign functions (e.g., volume up/down, track skip, mode change) to your steering wheel buttons.

5. Equalizer (EQ)

Adjust audio settings to personalize your music experience with the multi-band equalizer.

Image: Multi-band EQ Mode interface.

- Access the "EQ Setup" from the main menu or settings.
- Choose from preset modes (Jazz, Classic, Rock, Pop, Soft) or customize your own sound profile by adjusting frequency bands.

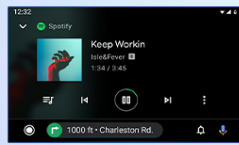

6. Mirror Link

Synchronize your smartphone screen content directly to the car radio display.

- The display will automatically switch to the camera view when reversing.

8. Seven Color Backlight

Customize the button backlight color to match your car's interior or your personal preference.

Seven Color Backlight

Support seven color backlight, you can select your favorite color in the setup menu decorate your car

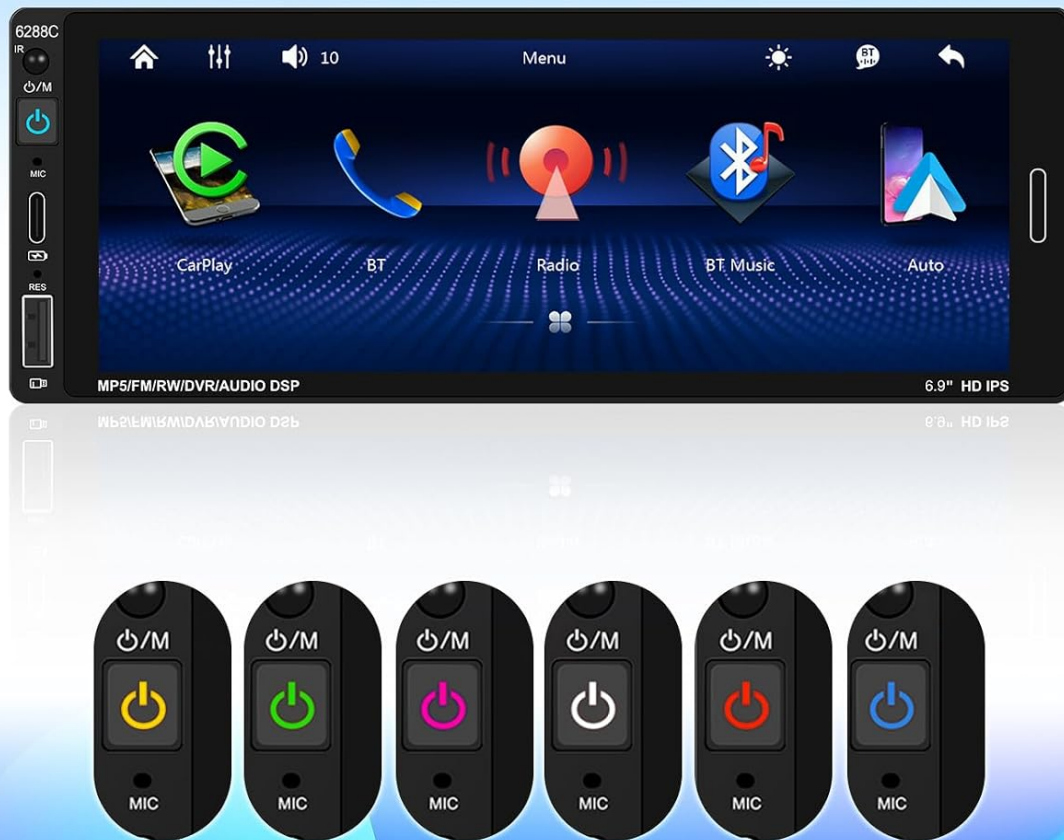

Image: Seven Color Backlight options.

- Access the "Settings" menu and look for "Backlight Color" or "LED Color".
- Select your desired color from the available options.

MAINTENANCE

To ensure the longevity and optimal performance of your Fuluku car radio, follow these maintenance guidelines:

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the touch screen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals or abrasive materials.
- **General Cleaning:** Keep the unit free from dust and debris. Use a soft brush or compressed air to clean vents and buttons.
- **Avoid Extreme Temperatures:** Do not expose the unit to extreme heat or cold, as this can affect its electronic components and screen.
- **Power Off Properly:** Always turn off your vehicle's ignition before disconnecting power to the unit or performing any

electrical work.

- **Software Updates:** Check the manufacturer's website periodically for any available software updates to ensure the best performance and compatibility.

TROUBLESHOOTING

If you encounter issues with your car radio, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not power on.	Incorrect wiring, blown fuse, vehicle battery issue.	Check power cable connections (ACC, B+, GND). Verify vehicle fuses. Ensure battery is charged.
No sound.	Speaker wires disconnected, volume too low, incorrect audio source.	Check speaker cable connections. Increase volume. Select correct audio source (FM, Bluetooth, CarPlay/Android Auto).
Bluetooth connection issues.	Phone not discoverable, incorrect pairing, interference.	Ensure phone's Bluetooth is on and discoverable. Delete previous pairings and re-pair. Move phone closer to the unit.
CarPlay/Android Auto not connecting.	Wi-Fi/Bluetooth off, app not installed, phone compatibility.	Ensure Wi-Fi and Bluetooth are active on your phone. Check if CarPlay/Android Auto app is updated. Verify phone compatibility. Try restarting both phone and car radio.
Screen is unresponsive or slow.	Temporary software glitch, excessive background processes.	Restart the unit by turning off the vehicle's ignition and restarting. If persistent, a factory reset might be necessary (refer to settings menu).
Backup camera not displaying.	Camera not powered, video cable disconnected, reverse signal issue.	Check camera power connection to reverse light. Ensure video cable is securely connected to CAMIN port. Verify reverse gear signal.
Cannot use GPS and Radio simultaneously.	This unit may not support simultaneous audio output from different sources for certain functions.	This is a known limitation for some car radios. You may need to switch between applications. Consider using navigation through CarPlay/Android Auto which integrates audio.
