## Yard Force YF60VRX600-BL

# Yard Force 60V Cordless Leaf Blower

Model: YF60VRX600-BL

Brand: Yard Force

## PRODUCT OVERVIEW

The Yard Force 60V Cordless Leaf Blower is designed for efficient and comfortable yard maintenance. Featuring advanced brushless motor technology, it delivers powerful air speeds and volume for effective debris management. The intelligent battery system ensures flexible operational times, while versatile speed control features, including cruise control, provide consistent performance.

## Key Features:

- Advanced Brushless Motor Technology:** Powered by a DC60V brushless motor system with a 1x2.5Ah battery pack, delivering exceptional performance with three-speed settings and a boost function, capable of generating maximum air speeds up to 150 MPH and air volume reaching 600 cubic feet per minute (CFM).
- Intelligent Battery and Runtime Management:** Includes a 2.5A charger and 2.5Ah battery pack, providing flexible operational time with up to 16 minutes of runtime at highest speed and extended usage of 35 minutes at the lowest speed setting, ensuring comprehensive yard maintenance capabilities.
- Versatile Speed Control Features:** Engineered with three distinct speed modes plus a boost function, accompanied by a convenient cruise control feature for consistent and comfortable operation during extended yard cleaning and leaf management tasks.
- Ergonomic Design and Performance:** Lightweight and balanced construction designed for user comfort, offering precise air control and efficient debris management across various outdoor cleaning scenarios, from light leaf removal to more intensive yard maintenance.
- Energy-Efficient Power Delivery:** Utilizes cutting-edge DC60V brushless motor technology to maximize battery efficiency, providing consistent power output with reduced energy consumption and enhanced motor longevity compared to traditional leaf blower designs.

The Yard Force 60V Cordless Leaf Blower, including the main unit, battery, charger, and two nozzle attachments.

## SAFETY INFORMATION

Always read and understand all safety warnings and instructions before operating the leaf blower. Failure to follow the warnings and instructions may result in electric shock, fire, and/or serious injury.

- Wear appropriate personal protective equipment (PPE) such as safety glasses, gloves, and hearing protection during operation.
- Keep bystanders, children, and pets at a safe distance (at least 50 feet/15 meters) from the operating area.
- Do not operate the blower in wet conditions or rain.
- Ensure the battery is fully charged before use and remove it when not in use or during maintenance.
- Inspect the blower for any damage or loose parts before each use.

## PACKAGE CONTENTS

Verify that all items are present upon unboxing:

- Yard Force 60V Cordless Leaf Blower Unit
- 60V 2.5Ah Lithium-Ion Battery Pack
- 2.5A Battery Charger
- Round Nozzle
- Flat Nozzle
- Instruction Manual

The leaf blower comes with both a round nozzle for general blowing and a flat nozzle for concentrated airflow.

## SETUP

---

### 1. Battery Charging:

1. Connect the charger to a standard power outlet.
2. Insert the 60V Lithium-Ion battery pack into the charger. The indicator lights on the battery will show the charging status.
3. Allow the battery to fully charge before first use. A full charge typically takes approximately 75 minutes.

### 2. Battery Installation:

1. Ensure the leaf blower is turned off.
2. Align the battery pack with the battery compartment on the blower.
3. Slide the battery into the compartment until it clicks securely into place.

The 60V Lithium-Ion battery pack securely inserted into the blower, showing the illuminated charge indicator lights.

### 3. Nozzle Attachment:

1. Select the desired nozzle (round for general use, flat for concentrated airflow).
2. Align the nozzle with the blower's air outlet.
3. Twist or push the nozzle firmly until it locks into position.

## OPERATING INSTRUCTIONS

### 1. Starting the Blower:

1. Ensure the battery is fully charged and securely installed.
2. Press and hold the power button or trigger to start the blower.

A hand gripping the ergonomic handle of the leaf blower, ready to engage the trigger for operation.

### 2. Adjusting Speed:

- The blower features three distinct speed modes. Use the speed control buttons on the handle to cycle through low, medium, and high settings.
- For maximum power, activate the boost function.

Close-up of the control panel on the blower's handle, showing the speed adjustment buttons and the cruise control lever.

### 3. Using Cruise Control:

- To maintain a consistent airflow without holding the trigger, engage the cruise control feature.
- Adjust the cruise control lever to the desired speed setting.

### 4. Effective Blowing Techniques:

- For optimal results, blow debris into piles rather than scattering it.
- Use the flat nozzle for stubborn, wet leaves or concentrated areas.
- Work with the wind direction whenever possible.

## MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your leaf blower.

- **Cleaning:** After each use, wipe down the exterior of the blower with a damp cloth. Ensure air vents are clear of debris to prevent overheating.
- **Battery Care:** Store the battery in a cool, dry place away from direct sunlight and extreme temperatures. Do not store the battery fully discharged for extended periods.
- **Nozzle Inspection:** Check nozzles for cracks or damage. Replace if necessary to maintain effective airflow.
- **Storage:** Store the leaf blower in a dry, secure location, out of reach of children. Remove the battery before long-term storage.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Blower does not start.	Battery not installed correctly or discharged.	Ensure battery is fully seated. Charge battery.
Reduced airflow.	Nozzle clogged or air vents blocked.	Clear any obstructions from the nozzle and air vents.
Short runtime.	Battery not fully charged or aging battery.	Ensure battery is fully charged. Consider replacing battery if it's old.
Blower stops during operation.	Overheating or battery protection activated.	Allow blower to cool down. Ensure vents are clear.

## SPECIFICATIONS

Feature	Detail
Brand	Yard Force
Model Name	Yard Force Leaf Blower
Item Model Number	YF60VRX600-BL
Power Source	DC (Battery)
Voltage	60 Volts
Max Air Speed	150 Miles per Hour

Feature	Detail
Max Air Volume	600 Cubic Feet per Minute (CFM)
Item Weight	13.3 Pounds
Product Dimensions	10.5" L x 11" W x 28" H
Special Features	Adjustable Speed, Turbo, Interchangeable Nozzle Connection, Compact Design, Battery Charge Indicator
UPC	846325004107

## WARRANTY AND SUPPORT

Yard Force products are built to last and are backed by a comprehensive warranty. For specific warranty details, registration, or technical support, please refer to the official Yard Force website or contact their customer service directly.
