6. MAINTENANCE

The K Knowbody HDPE Outdoor Dining Set is designed for low maintenance and durability. Follow these simple steps to keep your furniture in excellent condition:

- **Cleaning:** Simply wipe down the surfaces with mild soap and water to remove spills and dirt. Rinse thoroughly with

clean water.

- **Protection:** While the HDPE material is all-weather resistant, protecting the furniture from harsh weather conditions (extreme sun, heavy rain, snow) when not in use with a cover can further extend its lifespan.
- **Storage:** During off-seasons or prolonged periods of non-use, store the furniture in a dry, protected area.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your dining set.

7.1. Stability Issues

- **Wobbling Chairs/Table:** Ensure all assembly bolts are tightened securely. Check that the furniture is placed on a level surface.

7.2. Fading or Discoloration

- While HDPE is fade-resistant, prolonged exposure to intense direct sunlight over many years can cause slight changes. Regular cleaning and using a cover when not in use can help preserve the color.

7.3. Difficulty with Assembly

- Refer to the detailed assembly instructions provided in Section 4 and the 3D Assembly Guide video. Ensure you are using the correct hardware for each step. If issues persist, contact customer support.
