LifeSmart PD15R

LifeSmart Outdoor Infrared Tower Heater (Model PD15R)

Instruction Manual

1. PRODUCT OVERVIEW

The LifeSmart Outdoor Infrared Tower Heater, Model PD15R, is designed to provide supplemental warmth for outdoor and indoor spaces such as decks, patios, garages, and living rooms. This portable electric heater features infrared heating technology, multiple heat settings, a programmable timer, and essential safety features for reliable operation.

Figure 1: LifeSmart Outdoor Infrared Tower Heater, Model PD15R.

Figure 2: The heater features a durable anodized extruded aluminum alloy housing, suitable for outdoor use.

2. SETUP

The LifeSmart Outdoor Infrared Tower Heater requires minimal setup. No assembly is required.

1. **Unpack the Heater:** Carefully remove the heater from its packaging. Retain packaging for future storage or transport.
2. **Placement:** Place the heater on a stable, level surface. Ensure there is adequate clearance from walls, furniture, and other objects to allow for proper airflow and prevent fire hazards. Do not cover the heater.
3. **Power Connection:** Plug the heater into a standard 120V electrical outlet. Ensure the outlet is properly grounded and can support the heater's power requirements (up to 1500W).

Figure 3: Proper placement of the heater on an outdoor deck.

3. OPERATING INSTRUCTIONS

The heater can be operated using the control panel on the unit or the included remote control.

3.1 Powering On/Off

- To turn the heater ON, press the power button on the control panel or remote. The power indicator light will illuminate.
- To turn the heater OFF, press the power button again.

3.2 Adjusting Heat Settings

The heater offers three heat settings (P1, P2, P3) ranging from 500W to 1500W.

- Press the 'Mode' or 'Heat Setting' button on the control panel or remote to cycle through the available heat levels.

- P1: Low heat (500W)
- P2: Medium heat
- P3: High heat (1500W)

Figure 4: The heater provides three distinct heat settings for customizable warmth.

3.3 Using the Programmable Timer

The 24-hour programmable timer allows you to set the heater to turn on or off at specific times.

- Press the 'Timer' button on the control panel or remote.
- Use the '+' and '-' buttons to adjust the desired operating time in hours.
- The timer will automatically activate once set.

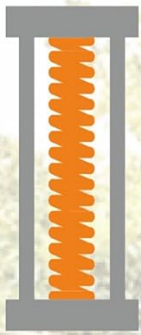

3.4 Remote Control

A convenient remote control is included for adjusting settings from a distance.

- The remote allows you to power the unit on/off, change heat settings, and set the timer.

- Ensure the remote has working batteries.

4. SAFETY FEATURES

The LifeSmart Outdoor Infrared Tower Heater is equipped with several safety mechanisms:

- **Tip-Over Protection:** The unit will automatically shut off if it is accidentally knocked over, preventing potential hazards.
- **Overheat Safety Switch:** The heater will automatically shut off in case of overheating, providing added protection.
- **Power Indicator Light:** An illuminated light indicates when the unit is powered on.

Figure 7: Key safety features include overheat protection and a power indicator light.

5. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your heater.

- **Cleaning:** Ensure the heater is unplugged and completely cool before cleaning. Use a soft, damp cloth to wipe down the exterior surfaces. Do not use abrasive cleaners or allow water to drip into the interior.
- **Storage:** When not in use, store the heater in a cool, dry place, away from direct sunlight and moisture. It is recommended to store it in its original packaging to protect it from dust and damage.
- **Inspection:** Periodically inspect the power cord and plug for any signs of damage. If any damage is found, discontinue use and contact customer support.

6. TROUBLESHOOTING

If you encounter issues with your LifeSmart Outdoor Infrared Tower Heater, refer to the following common

troubleshooting steps:

- **Heater does not turn on:**
 - Ensure the power cord is securely plugged into a working 120V outlet.
 - Check if the circuit breaker has tripped.
 - Verify that the power button on the unit or remote is pressed.
- **Heater turns off unexpectedly:**
 - The tip-over protection may have activated. Ensure the heater is on a stable, level surface.
 - The overheat safety switch may have activated. Unplug the heater, allow it to cool down for 10-15 minutes, and ensure no obstructions are blocking the air intake or exhaust.
 - Check if the timer function is active and has reached its set duration.
- **Insufficient heat output:**
 - Ensure the heater is set to the desired heat level (P1, P2, or P3).
 - Confirm that the heater is appropriate for the size of the space being heated.

If the issue persists after attempting these steps, please contact LifeSmart customer support.

7. SPECIFICATIONS

Brand	LifeSmart
Model Number	PD15R
Special Features	Adjustable Temperature, On Off Timer, Overheat Protection, Remote Control, Tip-Over Protection
Color	Black
Form Factor	Tower
Indoor/Outdoor Usage	Indoor, Outdoor
Product Dimensions	11.08"D x 11.08"W x 31.7"H
Item Weight	10.58 pounds
Recommended Uses	Deck, Garage, Garden, Patio
Mounting Type	Freestanding
Fuel Type	Electric
Voltage	120 Volts
UPC	810078863922
Manufacture Year	2024
Assembly Required	No

Batteries Required	No (for unit, remote may require batteries)
Included Components	Heater, Specification Sheet
