BoxWave AllCharge miniSync Retractable USB Cable

User Manual

1. PRODUCT OVERVIEW

The BoxWave AllCharge miniSync is a versatile, retractable USB cable designed for convenient charging and data synchronization across multiple devices. Its innovative design eliminates tangles, making it an ideal portable solution for your charging needs.

This image displays the BoxWave AllCharge miniSync Retractable USB Cable in its compact, retracted form, positioned alongside a smart watch to illustrate its intended use for charging and syncing various devices.

2. SETUP AND OPERATION

2.1 Extending the Cable

To extend the cable, gently pull both ends of the cable simultaneously away from the central reel. The cable will lock into one of five pre-set lengths. Do not pull only one side, as this may cause the retraction mechanism to jam.

2.2 Retracting the Cable

Once you are finished using the cable, give a quick, gentle tug on both ends of the cable. This action will release the locking mechanism, allowing the cable to fully retract back into its compact form.

3. USAGE

3.1 Connecting Devices

The AllCharge miniSync cable features three industry-standard connectors: Micro USB, USB Type-C, and an Apple-compatible connector. Select the appropriate connector for your device and plug it into the device's charging port. The standard USB-A end connects to any compatible USB power adapter or computer USB port.

3.2 Simultaneous Charging

The cable supports simultaneous charging of up to three devices. Simply connect each of the three output connectors to your desired devices, and ensure the USB-A input is connected to a sufficient power source. Charging speeds may vary depending on the power source and the number of devices connected.

4. CARE AND MAINTENANCE

- **Storage:** Always retract the cable fully when not in use to protect the wires and prevent tangling.
- **Cleaning:** Wipe the cable and connectors with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Handling:** Avoid excessive force when extending or retracting the cable. Do not bend the connectors at sharp angles.
- **Environment:** Keep the cable away from extreme temperatures, direct sunlight, and moisture.

No More Tangles or Knots

AllCharge miniSync makes it easy to stay organized

A visual comparison illustrating the benefit of the retractable design: the AllCharge miniSync cable is neatly organized, contrasting sharply with a messy pile of tangled standard cables.

Compact & Light

5. TROUBLESHOOTING

5.1 Cable Not Charging

- Ensure both ends of the cable are securely connected to the device and the power source.
- Verify that the power source (wall adapter, computer USB port) is functional.
- Check if the correct connector type is being used for your device.
- Test the cable with a different device or power source to isolate the issue.

5.2 Retraction Mechanism Jammed

- Ensure you are pulling both ends of the cable simultaneously and gently.
- If stuck, try gently wiggling both ends while pulling to free the mechanism. Avoid excessive force.

5.3 Slow Charging Speed

- Ensure your power adapter provides sufficient output for all connected devices, especially when

charging multiple devices simultaneously.

- Some devices may draw more power than others, affecting overall charging speed when multiple devices are connected.
