6. MAINTENANCE

To maintain the appearance and longevity of your AODK desk, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the desk surface with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, as the high-strength melamine laminate is easy to clean and resistant to most stains.
- **Protection:** While the surface is resistant to scratches, heat, and moisture, using coasters for drinks and pads for hot items is recommended to further protect the desk.
- **Hardware:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten if necessary to maintain stability.

7. TROUBLESHOOTING

If you encounter any issues with your desk, please refer to the following common solutions:

- **Wobbly Desk:** Ensure all assembly screws are fully tightened. Adjust the leveling feet at the bottom of the desk legs to compensate for uneven floor surfaces.
- **Power Outlets Not Working:** Check if the desk's power cord is securely plugged into a functional wall outlet. Ensure the power strip itself is switched on, if applicable. If only the USB ports are not working, try a different USB cable or device.
- **Drawers Not Sliding Smoothly:** Ensure the fabric drawers are correctly inserted into their slots and are not overloaded. Check for any obstructions.

If problems persist, please contact customer support for assistance.
