4. OPERATING INSTRUCTIONS

Converting from Chair to Chaise Lounge

To transform the chair into a chaise lounge, gently pull the hidden trundle section from underneath the main seat. The trundle will slide out on its rollers, extending the seating area to support your legs.

This image shows the sofa extended into a chaise lounge, providing a comfortable reclining position for relaxation.

Converting from Chaise Lounge to Bed

From the chaise lounge position, the backrest can be adjusted to a fully flat position. Simply push the backrest backward until it clicks into the desired angle. The trundle section, combined with the flattened backrest, creates a full sleeping surface.

3 BACK POSITIONS

This diagram visually explains how the backrest can be set to three different angles: 105 degrees for sitting, 140 degrees for lounging, and 180 degrees for napping or use as a bed.

Using USB Charging Ports

Your sofa bed is equipped with two built-in USB charging ports located on the side armrest. Simply plug your USB charging cable into the appropriate port (5V 1.0A or 5V 2.1A) to charge your compatible electronic devices.

- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, bleach, or strong detergents, as these can damage the fabric and finish.
- **Removable Seat Cushion Cover:** The product features a removable seat cushion cover for easier cleaning. Follow care instructions on the fabric label if available.

General Maintenance

- **Tighten Fasteners:** Periodically check all bolts and screws and re-tighten them to ensure stability and prevent wobbling.
- **Protect from Sunlight:** Avoid prolonged exposure to direct sunlight, which can cause fabric fading.
- **Even Use:** Rotate cushions and vary seating positions to ensure even wear and prolong the life of the upholstery.
