### Qaba 370-340V80GN

## Qaba 2 Seater Ride on UTV User Manual

Model: 370-340V80GN

### PRODUCT OVERVIEW

The Qaba 2 Seater Ride on UTV is an electric car designed for toddlers aged 3-8 years. It features dual 24V motors for robust power, four-wheel spring suspension for a smooth ride, and adjustable speed levels ranging from 2.5 to 3.7 mph. This UTV enhances playtime with built-in music, a horn, and bright LED lights. Its dimensions are 46.9" L x 31.1" W x 28" H, with a weight capacity of 110 lbs.

### SAFETY INFORMATION

Please read all instructions carefully before assembly and use. Adult supervision is required at all times when the vehicle is in use. Ensure children wear appropriate safety gear, such as a helmet, when operating the UTV. Do not operate the vehicle near roads, motor vehicles, steep inclines, swimming pools, or other bodies of water. Only use on flat, dry surfaces. Keep hands, hair, and clothing away from moving parts.

**Warning:** No Warning Applicable (as per product data).

## PACKAGE CONTENTS

---

Before beginning assembly, ensure all parts listed below are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

- Main UTV Body
- Wheels (4)
- Steering Wheel
- Seats (2)
- Shock Absorbers (4)
- Battery (24V 7AH)
- Charger
- Assembly Hardware (screws, nuts, washers)
- Instruction Manual

## SETUP AND ASSEMBLY

---

Assembly is required for this product. Please follow these steps carefully. It is recommended to have two adults for assembly.

1. **Unpacking:** Carefully remove all components from the packaging. Keep packaging materials until assembly is complete to ensure no parts are discarded.
2. **Wheel Installation:** Attach each wheel to its respective axle. Ensure the shock absorbers are correctly aligned and secured.

# SMOOTH DRIVING

All wheels are equipped with shock absorbed system

Image: A visual representation highlighting the four-wheel spring suspension system for a smooth ride.

3. **Steering Wheel Assembly:** Connect the steering wheel to the steering column. Ensure all electrical connections for the horn and music are properly seated.
4. **Seat Installation:** Securely fasten the two seats into the designated slots on the UTV body.

# 2 SEATER RIDE ON CAR

Image: The UTV designed with two seats, allowing two children to ride comfortably.

5. **Battery Connection:** Connect the battery terminals according to the instructions provided. Ensure a secure connection to prevent power interruptions. The 24V 7AH battery is included.
6. **Initial Charge:** Before first use, fully charge the battery for 8-12 hours. Do not overcharge.

## OPERATING INSTRUCTIONS

Familiarize yourself with the controls before allowing a child to operate the UTV.

### Controls:

- **Power Button:** Located on the dashboard, press to turn the UTV on/off.
- **Forward/Reverse Switch:** Select desired direction of travel.
- **Foot Pedal:** Press to accelerate. Release to brake.
- **Speed Selector:** Switch between "Fast" and "Slow" speeds (2.5-3.7 mph).

- **Music/Horn Buttons:** Activate built-in music and horn sounds.

Image: The steering wheel area, highlighting the integrated music and horn features for interactive play.

- **LED Lights:** Headlights and taillights illuminate when the UTV is powered on.

### Driving Tips:

- Always ensure the child is seated properly and wearing any recommended safety gear.
- Start in "Slow" speed mode until the child is comfortable with the controls.
- Supervise closely, especially when operating on uneven terrain. The UTV is equipped with shock absorbers for various terrains.
- Avoid sharp turns at high speeds to prevent tipping.

### MAINTENANCE

---

Regular maintenance will extend the life of your Qaba UTV.

- **Cleaning:** Wipe the UTV with a soft, damp cloth. Do not use abrasive cleaners or solvents. Do not hose down or immerse in water.
- **Battery Care:**

- Recharge the battery after each use.
  - If storing for extended periods, charge the battery once a month to maintain its life.
  - Do not allow the battery to fully discharge.
  - Only use the charger supplied with the product.
- **Storage:** Store the UTV in a dry, cool place away from direct sunlight and moisture.
  - **Inspections:** Periodically check all screws, nuts, and connections to ensure they are tight. Inspect wheels and tires for wear.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
UTV does not move	Battery is low or dead Loose battery connection Overload protection activated	Charge the battery Check and secure battery terminals Reduce weight, turn off and restart after a few minutes
Slow movement	Low battery Overloaded Operating on rough terrain	Recharge battery Reduce weight Move to a smoother surface
Lights/Music not working	Loose wire connection Component malfunction	Check all wire connections Contact customer support
