4. SETUP

4.1. Charging the Headset

Before first use, fully charge the headset and its charging case.

- Place the headset into the charging case. Ensure the charging contacts align.
- Connect the USB-C charging cable to the charging case and a power source.
- The LED display on the charging case will show the battery percentage.
- A full charge takes approximately 1.5 to 2 hours.
- The headset can also be charged directly via its USB-C port without the case.

Image: 430mAh Charging Case & LED Display. This image displays the headset inside its charging case, which has an LED screen indicating 100% battery. It highlights the battery life: 120 hours with the charging case, 20 hours for a single headset, and a 1.5-hour charging time.

4.2. Pairing with a Device

The Atheewon S72 supports one-step pairing with iOS, Android, and Windows devices.

1. Ensure the headset is charged and powered off.
2. Press and hold the Power button until the indicator light flashes, indicating pairing mode.
3. On your device (smartphone, tablet, computer), go to Bluetooth settings and turn Bluetooth on.
4. Search for available devices and select "S72" from the list.
5. Once connected, the indicator light on the headset will stop flashing.

Image: One-Step Pairing. This image shows the headset positioned near a laptop and a smartphone. The smartphone screen displays Bluetooth settings with 'S72' listed under 'PAIRED DEVICES', illustrating the ease of connection across various operating systems like iOS, Android, and Windows.

5. OPERATING INSTRUCTIONS

5.1. Wearing the Headset

The Atheewon S72 is designed for comfort and can be worn on either the left or right ear. Adjust the ear hook and earbud for a secure and comfortable fit.

Image: Suitable For Both Ears. This image demonstrates the headset's flexibility, showing how it can be adjusted with 360-degree rotation, 180-degree flip, and a 45-degree earbud angle to fit comfortably on either ear. It also displays the included small, medium, and large ear tips for personalized fit.

5.2. Call Management

- **Answering a Call:** Press the Answer/Hang Up button once.
- **Ending a Call:** Press the Answer/Hang Up button once during a call.
- **Rejecting a Call:** Press and hold the Reject button for 2 seconds.
- **Redialing Last Number:** Double-press the Answer/Hang Up button.

5.3. Music Playback

- **Play/Pause:** Press the Play/Pause button once.
- **Next Track:** Press the Track Forward button once.
- **Previous Track:** Press the Track Reverse button once.

5.4. Voice Assistant

To activate your device's voice assistant (e.g., Siri, Google Assistant), press and hold the Voice Assistant button for 2 seconds.

6. MAINTENANCE

6.1. Cleaning

- Regularly clean the ear tips and charging contacts with a soft, dry cloth.
- Do not use harsh chemicals or abrasive materials.
- Ensure the charging contacts are free from sweat and dirt to prevent charging issues.

6.2. Storage

- Store the headset in its charging case when not in use to protect it and keep it charged.
- Avoid exposing the headset to extreme temperatures, humidity, or direct sunlight.

7. TROUBLESHOOTING

If you encounter issues with your Atheewon S72 headset, refer to the following common solutions:

Problem	Possible Solution
Headset does not power on.	Ensure the headset is charged. Connect it to a power source using the USB-C cable.
Cannot pair with device.	Make sure the headset is in pairing mode (indicator light flashing). Turn off and on your device's Bluetooth. Forget previous connections and try pairing again. Ensure the headset is within range.
No sound or low volume.	Check headset and device volume levels. Ensure the headset is properly connected. Try different ear tips for a better seal.
Call quality is poor.	Ensure the headset is fully charged. Move closer to your paired device. Avoid environments with strong electromagnetic interference.
Headset not charging in case.	Clean the charging contacts on both the headset and the case. Ensure the headset is correctly seated in the case. Check if the charging case itself is charged.
