PRODUCT OVERVIEW

The Mocagen Wireless Mobile Gaming Controller features a retractable design to accommodate various smartphone sizes. It integrates advanced components for a superior gaming experience:

- **Hall Effect Joysticks:** These joysticks utilize magnetic sensors for ultra-precise control, eliminating common issues like drift and wear, ensuring a long lifespan.
- **Colorful LED Lighting:** The controller features multi-color changing LED lights around the joysticks and buttons, allowing for customization of your gaming setup's aesthetic.
- **Ergonomic Big Grip:** Designed with larger, more comfortable grips compared to standard controllers, reducing hand fatigue during extended play.
- **Adjustable Stretch:** The controller's adjustable mechanism can securely hold smartphones ranging from 4 to 7 inches, including those with protective cases, and is designed to avoid obstructing the phone's camera.
- **Turbo Function:** Provides a rapid-fire capability with three adjustable speeds for enhanced performance in action.

games.

- **Dual Vibration:** Equipped with dual motors to deliver realistic and immersive haptic feedback during gameplay.
- **Long Play Time:** A built-in 600mAh rechargeable battery offers approximately 15 hours of continuous gameplay on a single 2-hour charge.

SETUP GUIDE

1. Charging the Controller

Before initial use, ensure your controller is fully charged. Connect the provided USB charging cable to the controller's charging port and a suitable power source. The 600mAh battery typically charges completely within 2 hours, offering up to 15 hours of gameplay.

3. Bluetooth Connection

Follow these steps to connect your controller to your smartphone via Bluetooth:

1. Ensure the controller is not connected to a charging cable.
2. Press and hold the **HOME** button (or designated wake-up button) until the LED lights on the controller begin flashing. This indicates it is in pairing mode.
3. On your smartphone, navigate to your Bluetooth settings.
4. Search for available devices and select
