PACOVY ADJ-01

PACOVY ADJ-01 Floor Lamp Instruction Manual

Model: ADJ-01

Introduction

Thank you for choosing the PACOVY ADJ-01 Floor Lamp. This manual provides essential information for the safe and efficient operation of your new lamp. Please read it thoroughly before use and retain it for future reference.
The PACOVY ADJ-01 Floor Lamp features 120 super bright LEDs, adjustable height, a flexible gooseneck, and convenient remote and touch controls. It offers dimmable lighting with adjustable color temperature and includes preset modes, a timer, and a memory function, making it suitable for various activities such as reading, working, crafting, and general room illumination.

What's in the Box

- Lamp head x1
- Detachable lamp poles x2
- Lamp base x1
- Remote control x1
- Power adapter with cord x1
- User manual x1

Setup Guide

Follow these steps to assemble your PACOVY ADJ-01 Floor Lamp:

1. **Prepare All Parts:** Unpack all components and ensure you have everything listed in the 'What's in the Box' section.
2. **Connect Lamp Poles:** Carefully align and connect the detachable lamp poles. Ensure the silver fastener is not unlocked until the assembly is complete. Tighten the connections securely.
3. **Attach to Base:** Screw the assembled lamp pole into the heavy-duty metal base. Ensure it is firmly attached for stability.
4. **Connect Power Cable:** Plug the power adapter into the lamp's power port, then plug the adapter into a suitable power outlet.

Operating Instructions

Power On/Off and Brightness Adjustment

The lamp can be controlled via the included remote control or the touch buttons located on the lamp pole. Press the power button to turn the lamp on or off. Use the '+' and '-' buttons to adjust the brightness from 10% to 100%.

Color Temperature Adjustment

Adjust the color temperature from 2700K (warm white) to 6500K (cool white) using the 'CCT' button on the lamp pole or the corresponding button on the remote control. This allows you to customize the lighting to suit your preference or activity.

Preset Lighting Modes

The remote control includes 5 preset modes for different scenarios: Work, Reading, Leisure, Care, and Night Light. Select the desired mode for optimized lighting with a single press.

Timer Function

Activate the 1-hour timer function via the remote control or the touch button on the lamp pole. The lamp will automatically turn off after one hour, ideal for bedtime reading.

Memory Function

The lamp features a memory function that restores the last used lighting settings (brightness and color temperature) when turned back on.

Flexible Gooseneck and Adjustable Height

The 360° flexible gooseneck allows you to rotate the lamp head to any desired angle, directing light precisely where needed. The lamp pole is extendable, allowing height adjustment between 56.7 and 67.5 inches to suit various tasks and environments.

Maintenance

To ensure the longevity and optimal performance of your PACOVY ADJ-01 Floor Lamp, follow these maintenance guidelines:

- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth to wipe the lamp head, pole, and base. Avoid abrasive cleaners or solvents that may damage the finish.
- **LED Lifespan:** The built-in LED offers a lifespan of up to 50,000 hours. No bulb replacement is necessary.
- **Storage:** If storing the lamp for an extended period, disassemble it and store it in its original packaging in a dry, cool place.

Troubleshooting

If you encounter any issues with your PACOVY ADJ-01 Floor Lamp, please refer to the following common troubleshooting tips:

- **Lamp does not turn on:** Ensure the power adapter is securely plugged into both the lamp and a working wall outlet. Check if the outlet is receiving power.

- **Remote control not working:** Check the batteries in the remote control and replace them if necessary. Ensure there are no obstructions between the remote and the lamp.
- **Light flickers:** Ensure all pole connections are tight. If flickering persists, try plugging the lamp into a different outlet.
- **Unstable lamp:** Verify that the lamp base is placed on a flat, stable surface and that all pole connections are securely tightened. The weighted metal base and anti-slip pads are designed for enhanced stability.
