Enjoy freedom of movement with a range of up to 300 meters outdoors and 50 meters indoors. Practical features include a 200-contact directory, caller ID, hands-free mode, and automatic redial function.

## 2. WHAT'S IN THE BOX

Please ensure all the following components are present in your package:

- Gigaset AS690 DECT Phone Handset
- Cleyver ODHW10 Headset
- Base Station for DECT Phone
- Charging Cradle for Headset
- Power Adapters for Phone Base and Headset Cradle
- Telephone Connection Cable
- AAA Batteries (for DECT Phone Handset)

## 3. SETUP

### 3.1. DECT Phone Setup

1. **Connect the Base Station:** Plug the power adapter into the DECT phone base station and then into a power

outlet. Connect the telephone cable from the base station to your telephone wall socket.

- 2. Install Batteries:** Open the battery compartment on the back of the DECT phone handset. Insert the provided AAA batteries, ensuring correct polarity. Close the compartment.
- 3. Charge the Handset:** Place the handset on the base station or charging cradle. The display will indicate charging. Allow the handset to charge for at least 6-8 hours before first use to ensure optimal battery life.

### 3.2. Headset Setup

- 1. Charge the Headset:** Place the Cleyver ODHW10 headset on its charging cradle. Connect the cradle's power adapter to a power outlet. The indicator light on the headset or cradle will show charging status.
- 2. Pairing the Headset with the DECT Phone:** The product is designed for compatibility. For detailed pairing instructions, please refer to the official pairing guide available at: [Cleyver Pairing Guide \(PDF\)](#). Follow the steps carefully to ensure proper connection between your phone and headset.

## 4. OPERATING INSTRUCTIONS

### 4.1. Making and Receiving Calls

- **Making a Call:** Dial the number using the keypad and press the green call button.
- **Receiving a Call:** When the phone rings, press the green call button to answer.
- **Ending a Call:** Press the red end call button or place the handset back on the base/cradle.

### 4.2. Using the Headset

Once paired, you can use the headset for hands-free communication:

- **Answering/Ending Calls with Headset:** Depending on the headset model and phone settings, you may be able to answer/end calls directly from the headset button. Refer to the headset's specific instructions for details.
- **Switching to Headset:** During a call on the handset, you can typically switch to the headset by pressing a dedicated button on the phone or headset.
- **Adjusting Headset Volume:** Use the volume controls on the headset or the phone handset to adjust call volume.

#### 4.3. Key Features

- **Phonebook:** Store up to 200 contacts in the phone's directory.
- **Caller ID:** View incoming caller information (requires network service).
- **Hands-free Mode:** Activate speakerphone function on the handset for group listening.
- **Automatic Redial:** Quickly redial the last number called.
- **Call Blocking:** Block up to 32 unwanted numbers.
- **Volume Control:** Adjust handset volume with 5 levels.
- **Range:** Up to 300 meters outdoors and 50 meters indoors, providing significant mobility.

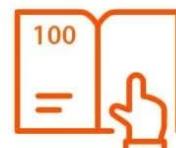

# Des fonctions pratiques pour la vie de tous les jours

Contrôle du volume à 5 niveaux

Répertoire téléphonique pouvant contenir jusqu'à 100 contacts

Blocage d'appels jusqu'à 32 numéros

## 5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the phone and headset. Do not use liquid cleaners or aerosols.
- **Battery Care:** For optimal battery life, fully charge the handset and headset regularly. Avoid extreme temperatures. If the phone will not be used for an extended period, remove the batteries.
- **Storage:** Store the devices in a cool, dry place away from direct sunlight and moisture.

## 6. TROUBLESHOOTING

| Problem                                  | Possible Cause   | Solution  |
|--|--|---|
| No dial tone on phone.                   | Phone not connected to line; power issue; batteries low. | Check telephone line connection. Ensure base station is powered. Recharge handset batteries.  |
| Poor audio quality (static, low volume). | Out of range; interference; low battery.                 | Move closer to the base station. Avoid placing near other electronic devices. Recharge batteries. Adjust volume.                      |
| Headset not connecting to phone.         | Not paired correctly; headset battery low.               | Ensure headset is charged. Re-attempt the pairing process as described in Section 3.2 and the <a href="#">Cleyver Pairing Guide</a> . |
| Phone display is blank.                  | Handset battery is completely drained.                   | Place the handset on the charging base and allow it to charge for several minutes before attempting to power on.                      |

## 7. SPECIFICATIONS
