7. Please download the APP and check the help in the APP..

The diffuser features an intelligent LCD display and intuitive button controls for easy operation. The display shows current day, time, work information, power display, and connection status.

Button Functions:

- **Power ON/OFF:** Long press the power button.
- **Adjusting Mist Intensity:** Use the frequency button (left) to cycle through mist levels (min, low, med, high, max).
- **Setting Timer:** Use the timer button (right) to set operating duration (e.g., 1h, 3h, 6h, 12h, 24h).

This video demonstrates the various button operations, including power, mist frequency, and timer settings, providing a visual guide for ease of use.

2.2 Smart APP Control

Control your diffuser conveniently using the mobile APP. You can easily start, stop, adjust intensity, and frequency according to your preferences. The app allows for personalized scheduling and remote management.

This video illustrates how to connect your diffuser to the mobile app and control its functions remotely, showcasing the user interface and available settings.

3. MAINTENANCE

3.1 Cleaning the Diffuser

Regular cleaning is essential for optimal performance and to prevent clogging. This video demonstrates the recommended cleaning procedure for your waterless aroma diffuser using alcohol. If you notice no mist during operation, try cleaning the device with alcohol for 30 minutes before checking for normal function. This helps clear any essential oil residue.

3.2 Replacing Essential Oil

200ml capacity

**Intelligent
LCD display**

**Adopt adhesive
backed wall plate**

To replace the essential oil, carefully remove the empty bottle from the diffuser unit. Fill a new bottle with your preferred pure essential oil and insert it securely into the diffuser. Ensure the bottle is properly seated to avoid leaks and ensure consistent diffusion.

4. TROUBLESHOOTING

- **No Mist Production:**

- Check if the essential oil bottle is correctly installed and contains sufficient oil.
- Ensure the diffuser is powered on and not in pause mode.
- Clean the diffuser as described in the Maintenance section, especially if using different types of oils, as residue can cause blockages.
- If the issue persists, contact customer support.

- **Device Not Responding:**

- Verify the power connection and ensure the device is receiving power.
- Try resetting the device by turning it off and on.
- If using APP control, ensure the device is properly connected via Bluetooth and the app is updated.

- **Weak Scent:**

- Adjust the mist intensity setting to a higher level using the control buttons or the mobile app.
- Ensure the room size is within the recommended applicable space (200-300m³).
- Consider using a different essential oil or checking the oil's expiration date, as older oils may have reduced potency.

This video provides additional guidance on inspecting the diffuser for potential issues and performing cleaning to resolve common problems like mist production failure.

5. SPECIFICATIONS

Feature	Detail
Item Type	Smart Home Aromatherapy Machine
Material	PP + SUS
Battery	3 x D Batteries (Sold Separately)
Voltage	5V _e
