ILIFE A12 Pro

ILIFE A12 Pro Robot Vacuum and Mop Combo

User Manual

1. Setup and Initial Use

1.1 Unboxing Your ILIFE A12 Pro

Carefully remove all components from the packaging. Ensure all items listed in the 'What's in the Box' section are present.

1.2 Charging the Robot Vacuum

Place the self-emptying station against a wall with adequate clear space around it. Connect the power cord to the station and plug it into a 110V outlet. Place the ILIFE A12 Pro robot vacuum onto the charging pins of the station. Ensure the charging indicator light illuminates.

1.3 App and Wi-Fi Connection

Download the ILIFEClean App from your mobile app store. Follow the in-app instructions to connect your robot vacuum to your 2.4GHz Wi-Fi network. Ensure Bluetooth is enabled on your phone during the pairing process.

2. Operating Instructions

2.1 Cleaning Modes and Navigation

The A12 Pro utilizes LiDAR Navigation for precise home mapping and efficient cleaning routes. It supports multiple cleaning modes including Sweep, Vacuum, and Mop (3-in-1). You can select specific rooms or zones for cleaning, set no-go zones, and establish virtual walls through the ILIFEClean App.

2.2 Suction Power and Water Level Adjustment

The A12 Pro offers four suction modes (Quiet, Standard, Strong, Max) with up to 3000Pa suction power for deep cleaning. For mopping, three water levels can be adjusted via the app to suit different floor types.

2.3 Voice and Remote Control

In addition to the app, the robot can be controlled using voice commands via Alexa or Google Assistant, or with the included remote control.

3. Maintenance

3.1 Self-Emptying Station and Dust Bags

The self-emptying station automatically transfers collected dust and debris into a 2.5L disposable dust bag, providing up to 8 weeks of hands-free cleaning per bag. The product includes five such dust bags, offering up to 40 weeks of maintenance-free operation.

3.2 Cleaning the 2-in-1 Dustbin and Water Tank

The A12 Pro features a combined 200ml dustbin and 200ml water tank. Regularly empty the dustbin and clean the water tank to maintain optimal performance. The mop cloth is washable and reusable.

3.3 Filter and Brush Maintenance

Periodically check and clean the Hepa filter and side brushes. Replace them as needed to ensure efficient debris collection and prevent tangles, especially with pet hair.

4. Troubleshooting

4.1 Common Issues and Solutions

- **Robot not connecting to Wi-Fi:** Ensure your Wi-Fi network is 2.4GHz. Verify correct password entry and that the robot is within range of the router.

- **Robot getting stuck:** Clear obstacles like loose cables, small toys, or thick rugs from the cleaning path. Use no-go zones in the app for persistent problem areas.
- **Poor suction/cleaning:** Check if the dustbin is full and empty it. Clean or replace the Hepa filter and ensure side brushes are free of debris. Verify the correct suction mode is selected in the app.
- **Mopping not effective:** Ensure the water tank is filled and the mop cloth is properly attached and clean. Adjust the water level setting in the app.
- **Robot not returning to charging station:** Ensure the charging station is plugged in and has clear space around it. Clean the charging contacts on both the robot and the station.

5. Specifications

Feature	Detail
Brand	ILIFE
Model Name	A12 Pro
Special Feature	Vacuums
Color	White
Product Dimensions	12.4"L x 12.4"W x 3.66"H
Included Components	Battery, Dirt Disposal Bag, Charging Adapter, Remote Control, Mopping Bracket, Mop Cloth, Side Brushes, User Manual, AAA Batteries
Filter Type	Hepa
Battery Life	140 minutes
Cleaning Path Width	12.4 Inches
Voltage	110 Volts
Capacity	2.5 Liters (Dust Bag)
Power Source	Battery Powered
Control Method	Voice, App, Remote
Compatible Devices	Smartphones, Amazon Echo, Google Home
Form Factor	Robotic

Item Weight	12.8 pounds
