

JUBEST 42x96 Barn Door

JUBEST 42" x 96" Wave Shape Sliding Barn Door Kit Instruction Manual

1. PRODUCT OVERVIEW

This manual provides comprehensive instructions for the installation, operation, and maintenance of your JUBEST 42" x 96" Wave Shape Sliding Barn Door Kit. This kit includes a durable door panel and all necessary hardware for a smooth sliding mechanism. The door features a unique wave shape design, constructed from MDF board with a PVC covered surface for enhanced durability and ease of cleaning.

2. SAFETY INFORMATION

Please read all safety warnings and instructions carefully before beginning installation. Failure to follow these instructions may result in injury or property damage.

- **Wear Safety Gear:** Always wear safety glasses and gloves during installation.
- **Two-Person Installation:** The door panel is heavy. It is recommended that two people handle and install the door to prevent injury.
- **Wall Structure:** Ensure the wall where the track will be mounted is structurally sound and capable of supporting the weight of the door and hardware. Locate and mark wall studs accurately.
- **Proper Tools:** Use appropriate tools for drilling and fastening.
- **Children and Pets:** Keep children and pets away from the work area during installation.

3. PACKAGE CONTENTS

Verify that all components listed below are present and undamaged before starting installation. If any parts are missing or damaged, please contact customer support.

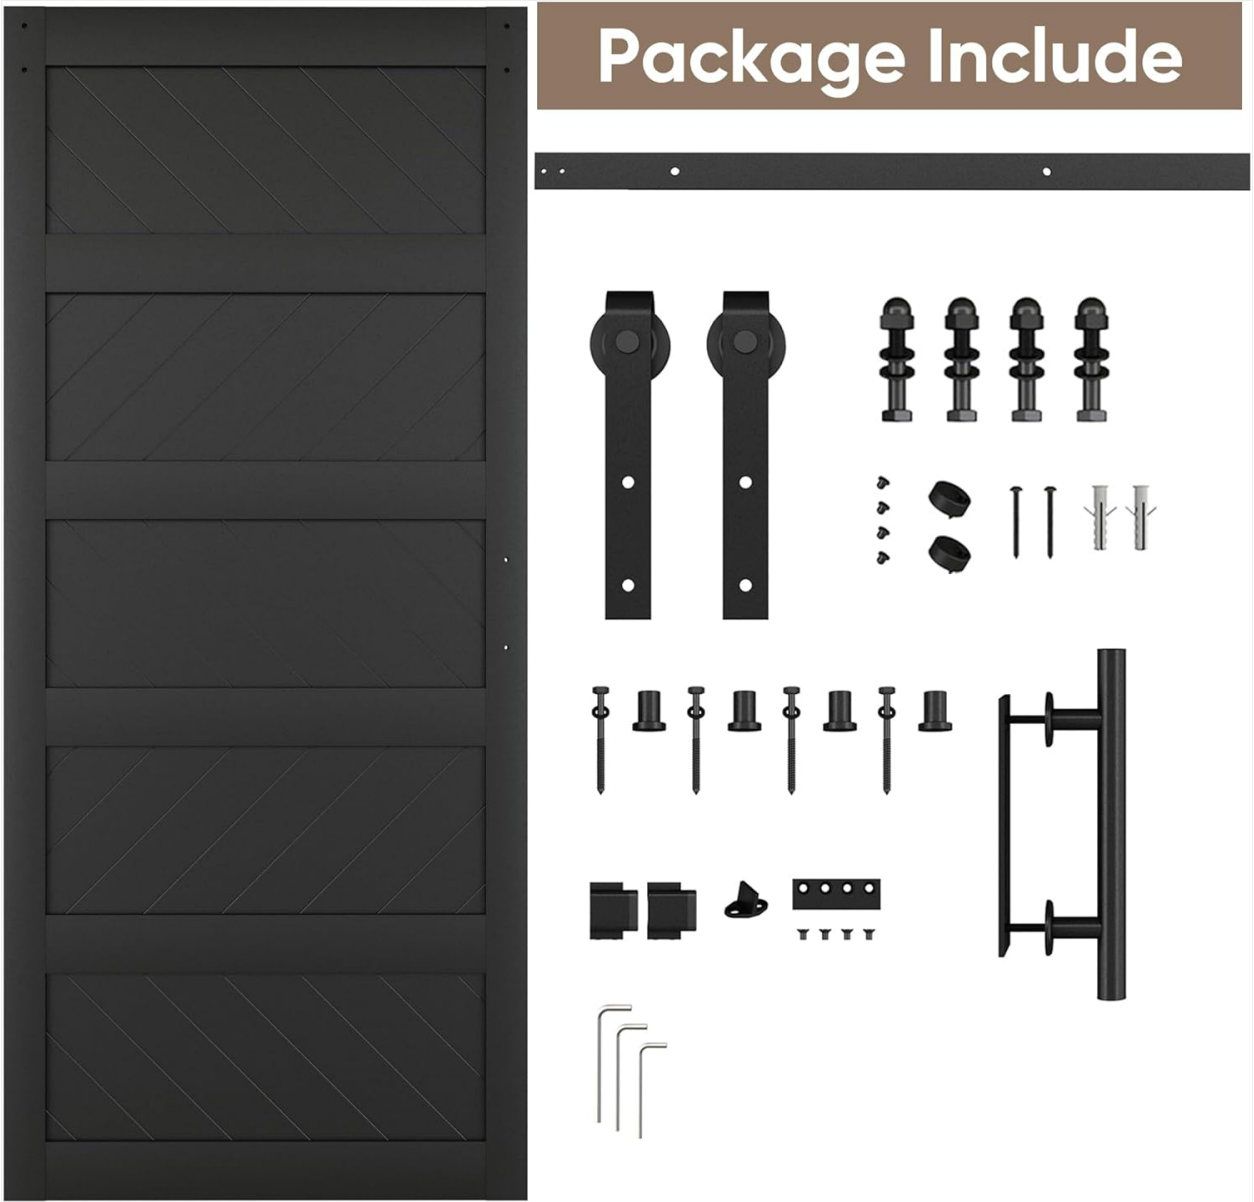

Image 3.1: All components included in the JUBEST barn door kit.

Table 3.1: List of Included Components

Item	Description	Quantity
Door Panel	42" x 96" Wave Shape Door Panel	1
Sliding Track	84" Carbon Steel Track	1
Rollers/Hangers	Barn Door Rollers	2 pairs
Door Handle	Black Door Handle	1
Floor Guides	Two types of floor guides	Set
Fasteners	Various screws, anchors, and bolts	Set
Tools	Hex wrenches	Set

Note: Wood blocking for wall mounting is not included in the package and may be required for certain wall types or to clear existing trim.

4. INSTALLATION GUIDE

Follow these steps carefully for a successful installation. It is recommended to have a second person assist with the installation due to the size and weight of the door panel.

Image 4.1: Overview of the easy installation process.

Step 1: Prepare the Wall and Mount the Track

1. Measure and mark the desired height for the track. Ensure the track is level.
2. Locate wall studs and mark drilling points. If studs do not align with desired track placement, consider installing a header board (wood blocking) for secure mounting.
3. Drill pilot holes at the marked locations.
4. Attach the sliding track to the wall using the provided fasteners. Ensure it is securely fastened and level.

Step 2: Assemble the Door Panel

1. Lay the door panel pieces on a clean, flat surface.
2. Follow the specific assembly instructions provided in the detailed manual (not included here, but typically with the product) to connect the individual sections of the wave shape door panel.
3. Ensure all connections are tight and the panel is stable.

Step 3: Attach Rollers and Handle to the Door

1. Attach the barn door rollers/hangers to the top edge of the assembled door panel using the designated screws. Ensure they are aligned and securely fastened.
2. Install the door handle on the desired side of the door panel.

Step 4: Hang the Door and Install Floor Guides

1. With assistance, carefully lift the door panel and hook the rollers onto the sliding track.
2. Slide the door back and forth to ensure smooth movement.
3. Install the chosen floor guide (two types are available) at the bottom of the door opening to prevent the door from swinging out. Adjust for proper clearance and smooth operation.
4. Install anti-jump pads on top of the door to prevent it from lifting off the track.

5. OPERATING INSTRUCTIONS

Your JUBEST sliding barn door is designed for smooth and quiet operation.

- To open or close the door, grasp the handle firmly and slide the door along the track.
- Avoid forcing the door if it encounters resistance. Check for obstructions or misalignments.
- The door is equipped with stoppers on the track to prevent it from sliding too far.

6. MAINTENANCE AND CARE

Regular maintenance will ensure the longevity and smooth operation of your barn door.

- **Cleaning:** The PVC covered surface is waterproof and easy to clean. Wipe the door panel with a soft, damp cloth and mild detergent. Avoid abrasive cleaners that could damage the finish.
- **Hardware Check:** Periodically inspect all screws and fasteners on the track, rollers, and handle to ensure they are tight. Tighten any loose components.
- **Track and Rollers:** Keep the sliding track free of dust and debris. If the door does not slide smoothly, clean the track and apply a silicone-based lubricant to the rollers if necessary.
- **Floor Guide:** Ensure the floor guide remains securely fastened and free of obstructions.

Image 6.1: Details on PVC surface for easy cleaning, MDF material, and floor guide options.

7. TROUBLESHOOTING

Refer to the following common issues and their potential solutions:

Table 7.1: Troubleshooting Guide

Problem	Possible Cause	Solution
Door does not slide smoothly	Track is dirty or obstructed; rollers are stiff; track is not level.	Clean the track and rollers. Apply silicone lubricant to rollers. Check track level and adjust if necessary.
Door is difficult to move	Floor guide is too tight; rollers are damaged; door is rubbing against the wall/trim.	Adjust the floor guide. Inspect rollers for damage and replace if needed. Check for proper clearance between door and wall.

Problem	Possible Cause	Solution
Door wobbles or swings out	Floor guide is loose or not installed; anti-jump pads are missing or incorrectly installed.	Ensure floor guide is securely installed and adjusted. Verify anti-jump pads are in place and properly positioned.
Hardware feels loose	Screws or bolts have loosened over time.	Inspect and tighten all fasteners on the track, rollers, and handle.

8. PRODUCT SPECIFICATIONS

Image 8.1: Key dimensions of the JUBEST barn door kit.

- **Door Panel Dimensions:** 42 inches (Width) x 96 inches (Height)
- **Door Thickness:** 1 3/8 inches
- **Track Length:** 84 inches
- **Material (Door Panel):** MDF Board with PVC Covered Surface
- **Material (Hardware):** Premium Carbon Steel

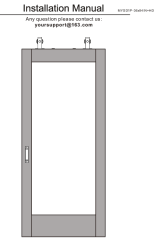

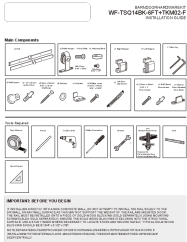

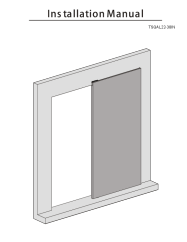

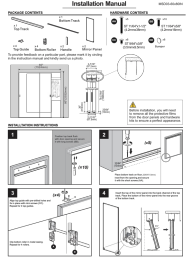

- **Color:** Black
- **Item Weight:** Approximately 50 pounds
- **Style:** Modern, Wave Shape Design

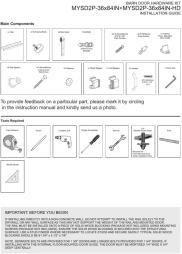

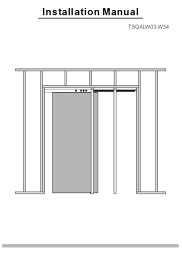

9. WARRANTY AND CUSTOMER SUPPORT

JUBEST is committed to providing quality products and excellent customer service. While specific warranty details are not provided in this manual, we stand behind our products.

For any quality problems, missing parts, or installation questions, please do not hesitate to contact our professional customer service team. They are available to assist you with any concerns you may have. Please refer to your purchase documentation or the JUBEST official website for the most current warranty information and contact details.
