1. INTRODUCTION

This manual provides comprehensive instructions for the DUMOS Arched Full Length Mirror, Model 2164GZ-B. This mirror features a durable aluminum frame and shatter-proof nano glass, designed for versatile placement in various home environments. Please read this manual thoroughly before using the product to ensure proper setup, safe operation, and effective maintenance.

2. SAFETY INFORMATION

To ensure safe use of your DUMOS mirror, please adhere to the following safety guidelines:

- **Secure Mounting:** Always secure the mirror to the wall using the provided screws kit when opting for wall mounting. This prevents accidental tipping.
- **Placement:** When standing on the floor, position the mirror away from high-traffic areas where it could be easily knocked over.
- **Child and Pet Safety:** Never leave children or pets unattended near the mirror to prevent injury from tip-over or broken glass, despite its shatter-proof design.
- **Handling:** Exercise caution when moving the mirror. Although lightweight, improper handling can lead to damage or injury.
- **Surface Stability:** Ensure the floor or wall surface where the mirror is placed or mounted is stable and capable of supporting its weight.

3. PRODUCT OVERVIEW

The DUMOS Arched Full Length Mirror is designed for both aesthetic appeal and practical functionality. Key features include:

- **Full Length Design:** Measuring 64"L x 21"W, the mirror provides a complete head-to-toe reflection.
- **High-Tech Materials:** Constructed with superior nano tempered glass and a one-piece aluminum alloy frame, ensuring durability, anti-fading properties, and shatter-proof safety.
- **High-Definition Reflection:** The mirror offers clear, undistorted imaging for an accurate reflection.
- **Versatile Placement:** Can be used freestanding on the floor, leaned against a wall, or securely hung on a wall.
- **No Assembly Required:** The mirror arrives ready for immediate use.

4. SETUP & INSTALLATION

The DUMOS mirror requires no assembly for standing or leaning use. For wall-mounted installation, follow these steps:

1. Step One: Measure Spacing

Measure the distance between the two hooks on the back of the mirror. Mark these points on your wall where you intend to hang the mirror.

2. Step Two: Drill Holes

Using an electric drill, carefully drill holes at the marked points on the wall. Ensure the drill bit size matches the provided expansion tubes.

3. Step Three: Install Expansion Tubes

Insert the plastic expansion tubes into the drilled holes. Tap them gently with a hammer if necessary until they are flush with the wall surface.

4. Step Four: Screw Metal Screws

Screw the metal screws into the installed expansion tubes, leaving a small portion of the screw head exposed to hang the mirror.

5. Step Five: Hang Mirror

Carefully lift the mirror and align the hooks on the back with the exposed screw heads. Lower the mirror until it is securely seated on the screws. Ensure it is level and stable.

5. USAGE

The DUMOS Arched Full Length Mirror offers flexible placement options to suit your space and needs:

- **Floor Standing:** Utilize the integrated stand to position the mirror freely on any flat surface. Ensure the stand is fully extended and stable.
- **Leaning Against Wall:** For a minimalist look, the mirror can be leaned securely against a wall. Ensure the wall surface is clean and stable to prevent slipping.
- **Wall Mounted:** Follow the installation instructions in Section 4 to securely hang the mirror on a wall, saving floor space.

This mirror is suitable for various rooms and purposes, including:

- Bedrooms: For daily dressing and outfit checks.
- Living Rooms: To enhance decor and create a sense of spaciousness.
- Dressing Rooms/Cloakrooms: Essential for full body viewing.
- Home Gyms: Useful for monitoring posture during workouts.
- Commercial Spaces: Such as barber shops or boutiques for customer use.

6. MAINTENANCE

Proper care will ensure the longevity and clarity of your DUMOS mirror:

- **Cleaning the Mirror Surface:**

- Use a soft, lint-free cloth (e.g., microfiber) to wipe the mirror surface.
- For stubborn marks, lightly dampen the cloth with water or a mild, ammonia-free glass cleaner.
- Avoid abrasive cleaners or harsh chemicals, as these can damage the glass or frame finish.
- Wipe dry immediately to prevent streaks.

- **Cleaning the Frame:**

- Wipe the aluminum frame with a soft, dry cloth to remove dust.
- For smudges, use a slightly damp cloth and dry thoroughly.
- Do not use abrasive cleaners or solvents on the frame.

- **Inspection:** Periodically check the stability of the stand or wall mounts to ensure they remain secure.

7. TROUBLESHOOTING

If you encounter any issues with your DUMOS mirror, refer to the following common solutions:

| Problem | Possible Cause | Solution |
|--|--|---|
| Mirror appears unstable when standing. | Stand not fully extended or placed on an uneven surface. | Ensure the stand is fully locked into position. Move the mirror to a flat, level surface. |
| Mirror appears unstable when wall-mounted. | Screws not fully engaged or wall anchors loose. | Re-check the wall mounting steps (Section 4). Ensure screws are tight and anchors are secure. If necessary, use stronger anchors suitable for your wall type. |

| Problem | Possible Cause | Solution |
|--|--|---|
| Streaks or smudges on mirror surface after cleaning. | Improper cleaning solution or cloth; not drying thoroughly. | Use a clean, lint-free microfiber cloth. Ensure glass cleaner is ammonia-free. Wipe dry immediately after cleaning. |
| Minor distortion in reflection. | Typically, DUMOS mirrors are designed for no distortion. This could be due to extreme viewing angles or environmental factors. | Adjust your viewing position. If distortion persists and is significant, contact customer service. |

If the problem persists or is not listed above, please contact DUMOS customer service for assistance.

8. SPECIFICATIONS

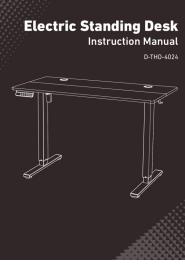

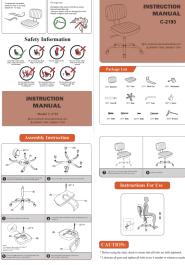

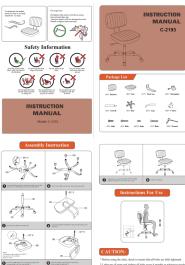

| Feature | Detail |
|--------------------|--|
| Brand | DUMOS |
| Model Number | 2164GZ-B |
| Product Dimensions | 64" L x 21" W |
