## Telbum PL-31Z

# Telbum DJ Lights with Stand User Manual

Model: PL-31Z

## 1. INTRODUCTION

This user manual provides essential information for the safe and effective operation of your Telbum DJ Lights with Stand. Please read this manual thoroughly before using the product and retain it for future reference.

The Telbum DJ Lights with Stand is a versatile 5-in-1 party lighting system designed for various events, including discos, stages, gigs, and weddings. It integrates a rotating disco ball light, colorful par light, red & green pattern light, black light, and white LED strobe light, offering a dynamic lighting experience.

## 2. SAFETY INSTRUCTIONS

**WARNING: To prevent fire or shock hazard, do not expose this appliance to rain or moisture.**

- Always ensure the product is placed on a stable, level surface to prevent tipping.
- Do not expose the device to dripping or splashing liquids.
- Keep the product away from direct sunlight, heat sources, and excessive dust.
- Ensure proper ventilation around the unit to prevent overheating.
- Do not look directly into the light source when the product is operating, as it may cause eye damage.
- Disconnect power before cleaning or performing any maintenance.
- Only use the power adapter supplied with the product.
- Keep out of reach of children.

## 3. SETUP GUIDE

### 3.1 Package Contents

Before beginning assembly, verify that all components are present:

- 1 x DJ Lights Set
- 1 x Tripod Lighting Stand
- 1 x Remote Control (1 x button cell battery included)

- 1 x User Manual
- 1 x Carry Bag

Figure 3.1: Complete package contents including the DJ light bar, tripod stand, remote control, and carry bag.

### 3.2 Assembling the Tripod Stand

1. Unfold the tripod legs to create a stable base. Ensure the legs are fully extended and locked into position.
2. Tighten the knob at the base of the tripod to secure the legs.
3. Extend each section of the stand's vertical bracket. The bracket is divided into three sections. Secure each section by tightening its respective knob.

Video 3.2: Step-by-step guide on how to install the Telbum PartyBar, demonstrating the assembly of the tripod stand and mounting the light unit.

Figure 3.2: Product dimensions, showing the light bar and stand at various heights. The stand can extend up to 61 inches (155 cm).

### 3.3 Mounting the DJ Light Bar

1. Carefully align the mounting bracket of the DJ light bar with the top of the extended tripod stand.
2. Insert the light bar onto the bracket and tighten the securing knob to ensure it is firmly attached.
3. Adjust the angle of the light bar as needed and tighten the side knobs on the bracket to fix its position.

### 3.4 Power Connection

Once the light bar is securely mounted, connect the power cable to the "POWER IN" port on the back of the unit and then plug it into a standard electrical outlet.

## 4. OPERATING INSTRUCTIONS

### 4.1 Remote Control Overview

The Telbum DJ Lights are primarily controlled using the included remote. Familiarize yourself with the buttons and their functions:

Figure 4.1: Manual of Remote Controller, detailing buttons for Auto Mode, Sound Mode, Black Light Mode, White Strobe Mode, and controls for rotation speed, strobe speed, and microphone sensitivity.

- **Auto Mode:** Activates all effects automatically.
- **Sound Mode:** Lights react to music and sound.
- **Par:** Controls Colorful Par Lights (Wash effect, Jump Mode, Fade Mode, Strobe Mode, Static Colors Mode: Red/Green/Blue/Cyan/Amber/Purple/White).
- **LED:** Controls Rotating Ball Lights (Rotating ball effect, Color Red, Green, Blue, G&B, R&G, R&B, RGB).
- **LS:** Controls Laser Lights (Red&Green Laser Light, Red Laser Light, Green Laser Light).
- **UV:** Activates Black Light Mode.
- **Flash:** Activates White Strobe Mode.
- **MOTOR +/-:** Adjusts rotation speed (valid in LED mode).
- **SPEED +/-:** Adjusts strobe speed (valid in Flash mode).
- **SEN +/-:** Adjusts microphone sensitivity (valid in Sound mode).

## 4.2 Light Effects and Modes

The Telbum DJ Lights offer a variety of effects that can be combined or used independently:

- **5-in-1 Party Bar:** Combines rotating disco ball, colorful par, red & green pattern, black light, and white LED strobe.
- **Rotating Ball Effect:** Projects a wide spread of single or multi-colored beams.
- **Red & Green Pattern Light:** Produces various patterns.
- **Colorful LED Par Lights:** Offers jump, fade, strobe, and static color modes (red, green, blue, purple, amber, cyan, white).
- **White Strobe Light:** Adjustable flashing speed.
- **Black Light (UV):** Creates a unique atmospheric effect.

## 5. MAINTENANCE

### 5.1 Cleaning

To maintain optimal performance and appearance, regularly clean the light unit:

- Use a soft, dry cloth to wipe down the exterior of the light bar and stand.
- For lenses and light output areas, use a lint-free cloth lightly dampened with a non-abrasive cleaner specifically designed for optics.
- Ensure the unit is unplugged and completely dry before reconnecting power.

### 5.2 Storage

When not in use, store the DJ lights in the provided carry bag in a cool, dry place, away from direct sunlight and extreme temperatures. This will protect the unit from dust and physical damage.

Figure 5.1: The lightweight and easy-to-carry bag, designed for portable lighting package, making transport and storage convenient.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
No power to the unit.	Power cable not connected properly or no power from outlet.	Check power cable connection. Test outlet with another device.
Lights not responding to remote.	Remote battery low or IR sensor blocked.	Replace remote battery. Ensure no obstructions between remote and light unit's IR sensor.
Sound activated mode not working or too sensitive/insensitive.	Microphone sensitivity setting incorrect.	Press the SOUND MIX button on the remote control, then use SEN+ to increase sensitivity or SEN- to decrease sensitivity.
Light effects appear dim or inconsistent.	Lenses are dirty or unit is overheating.	Clean lenses as per maintenance section. Ensure adequate ventilation around the unit.

## 7. SPECIFICATIONS

Feature	Detail
Model Number	PL-31Z
Brand	Telbum
Color	RGB+W/UV
Shape	Rectangular
Material	Plastic
Light Source Type	Light Emitting Diode
Power Source	Corded Electric
Bulb Features	Sound Activated, Rotating Ball Effect, RGBW Color-Changing
