Pebblebee Smart Tracker Instruction Manual

Model: Clip Type (B0DP9KTCPZ)

1. INTRODUCTION

The Pebblebee Smart Tracker is a versatile device designed to help you locate your valuable belongings using your smartphone. It is the world's first smart tag compatible with both Apple's 'Find My' network and Google's 'Find My Device' network, offering broad compatibility for iPhone and Android users. This manual provides detailed instructions for setting up, operating, maintaining, and troubleshooting your Pebblebee Clip Type tracker.

Image 1.1: Pebblebee Clip Type Smart Tracker. This image shows the compact, circular design of the Pebblebee Clip Type tracker with its integrated loop for attachment.

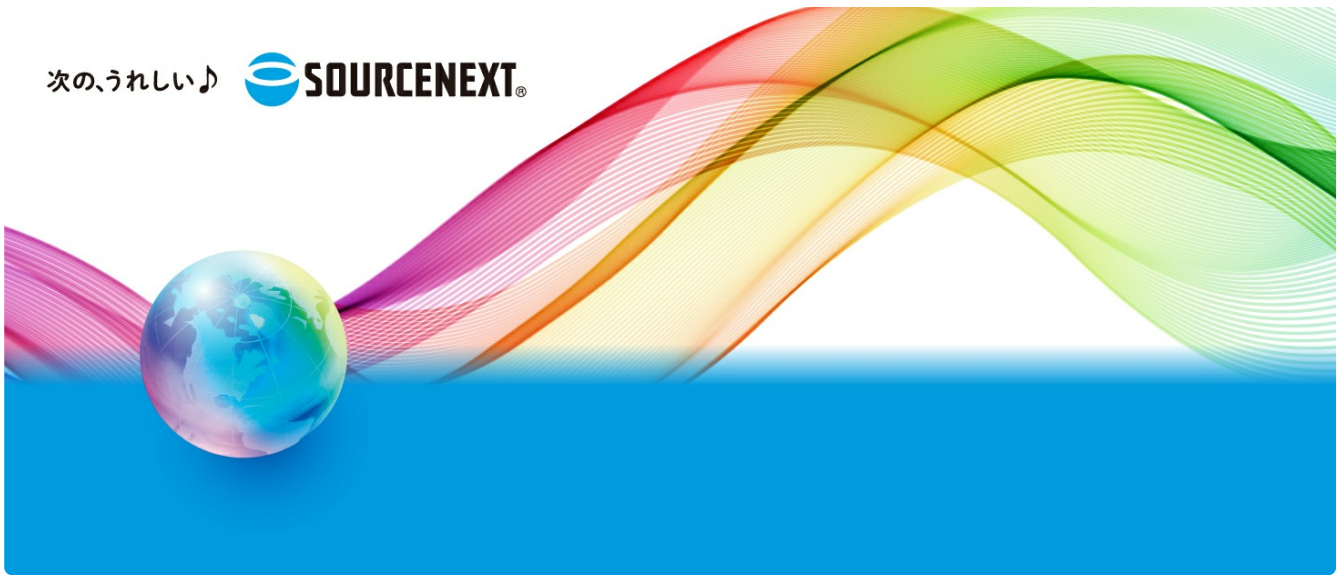

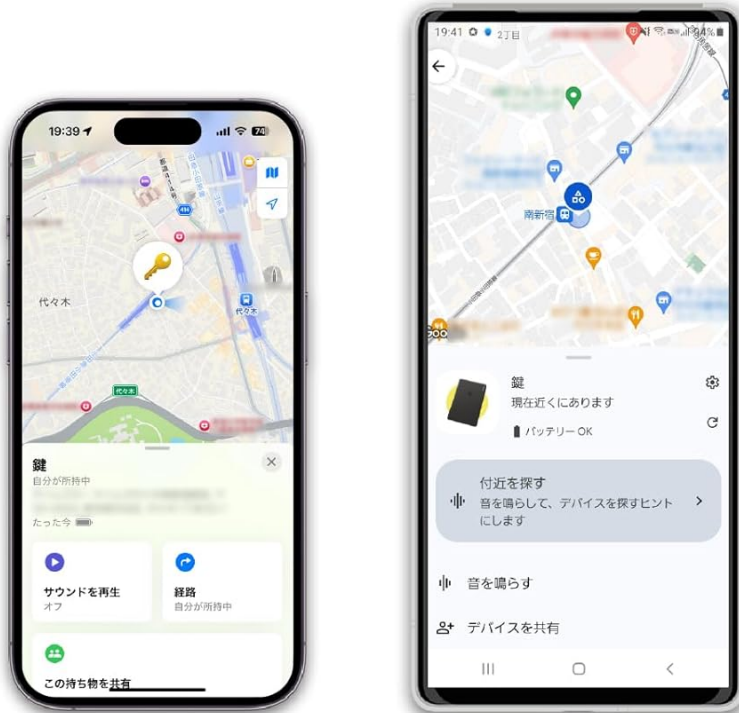

Image 1.2: Pebblebee's dual network compatibility. This image highlights the Pebblebee tracker's unique ability to work with both Apple's 'Find My' and Google's 'Find My Device' networks, shown alongside a smartphone, keys, and a wallet.

2. GETTING STARTED: SETUP

Follow these steps to set up your Pebblebee Smart Tracker:

1. **Charge the Device:** Ensure your Pebblebee tracker is fully charged before first use. The device features a rechargeable battery.
2. **Choose Your Network:** The Pebblebee tracker can be configured for either Apple's 'Find My' network (for iOS devices) or Google's 'Find My Device' network (for Android devices). You cannot use both simultaneously.
3. **Pairing Process:**
 - **For Apple Find My:** Open the 'Find My' app on your iPhone. Tap the '+' icon, then 'Add Other Item'. Follow the on-screen instructions. You may need to press the button on your Pebblebee tracker to initiate pairing.
 - **For Google Find My Device:** Open the 'Find My Device' app on your Android phone. Ensure Bluetooth is enabled. The app should detect the Pebblebee. Follow the on-screen instructions to add the device. You may need to press the button on your Pebblebee tracker to initiate pairing.
4. **Initial Placement:** Once paired, attach your Pebblebee to the item you wish to track, such as keys, a bag, or luggage.

3. OPERATING YOUR PEBBLEBEE TRACKER

Utilize your Pebblebee tracker to locate your items effectively:

- **Locating Nearby Items:** If your item is within Bluetooth range, open the respective 'Find My' or 'Find My Device' app. Select your Pebblebee tracker and choose the option to play a sound or flash a light. The loud alarm and visual indicator will help you quickly pinpoint the item's location.
- **Locating Far Away Items:** If your item is out of Bluetooth range, the app will display its last known location on a map. The strength of the Apple and Google networks means that if another device on the same network passes by your Pebblebee, its location will be anonymously updated, allowing you to see its current whereabouts.
- **Phone Finder Feature:** Some Pebblebee models may include a feature to find your phone. If available, pressing the button on your Pebblebee tracker can make your paired smartphone ring, even if it's on silent mode. Refer to your app for specific instructions on enabling this feature.

カギ・財布

スーツケース

自転車

遠くでも 自転車やお子様のランドセルなどに「ペブルビー」を付けておくと、あり場所や居場所をタイムリーに把握できます。

近くでも 出かける時にカギや財布が見つからない時も「ペブルビー」を使っていれば、音を鳴らしたり、光らせたりしてすぐに見つかります。

スマホで、 場所がすぐわかる

Image 3.3: Finding a lost tracker indoors. This image depicts the Pebblebee tracker hidden under a couch cushion, with visual cues indicating it is emitting sound and light to help locate it.

4. MAINTENANCE

Proper care ensures the longevity of your Pebblebee tracker:

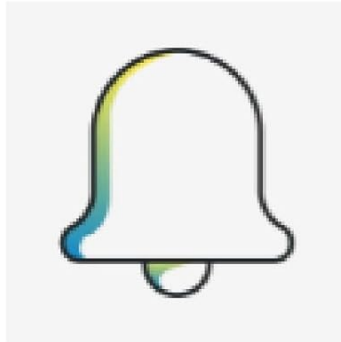

- **Charging:** The Pebblebee tracker is equipped with a rechargeable battery. Use the provided charging cable to recharge the device when the battery level is low. Avoid using damaged cables or chargers.
- **Water Resistance:** The Pebblebee Clip Type tracker has an IPX6 water resistance rating. This means it is protected against powerful water jets. While it can withstand splashes and rain, it is not designed for submersion in water. Avoid exposing it to extreme water pressure or prolonged submersion.
- **Cleaning:** Wipe the tracker with a soft, dry cloth. Do not use abrasive cleaners or solvents.

5. TROUBLESHOOTING

If you encounter issues with your Pebblebee tracker, try the following solutions:

- **Difficulty Pairing:**

- Ensure your smartphone's Bluetooth is enabled.
- Make sure the Pebblebee tracker is charged.
- Try restarting your smartphone and the Pebblebee tracker (by pressing its button for a few seconds until it resets, if applicable).
- Force close and reopen the 'Find My' or 'Find My Device' app.
- Ensure you are attempting to pair with only one network (Apple or Google) at a time.

- **Inaccurate Location:**

- Location accuracy relies on the density of the Apple or Google network. In areas with fewer network devices, updates may be less frequent or precise.

- The tracker does not provide real-time GPS tracking; it updates its location when detected by other devices on the network.
- **Sound is Too Low:**
 - Ensure there are no obstructions covering the tracker's speaker.
 - The sound volume is fixed. If you are in a noisy environment, it may be harder to hear.
- **Firmware Updates:** Periodically check the official SOURCENEXT or Pebblebee website for any available firmware updates for your device. Updates can improve performance and address known issues.

6. SPECIFICATIONS

Feature	Description
Model	Clip Type
Dimensions	13.2 x 9.6 x 1.7 cm
Weight	40 g
Battery	1 Lithium Ion Battery (included), Rechargeable
Water Resistance	IPX6
Wireless Range	Up to 30 meters (Bluetooth)
Compatibility	Apple Find My network, Google Find My Device network

7. WARRANTY AND SUPPORT
