DEVAISE ASJZ023

DEVAISE ASJZ023 Electric Standing Desk User Manual

Model: ASJZ023

INTRODUCTION

Welcome to your new DEVAISE Electric Standing Desk. This manual provides essential information for the assembly, operation, and maintenance of your adjustable height desk. Please read these instructions carefully before use to ensure safe and efficient operation.

IMPORTANT SAFETY INFORMATION

To prevent injury or damage, please observe the following safety guidelines:

- Always keep children and pets away from the desk when it is in motion.
- Utilize the child lock feature on the control panel to prevent unintended height adjustments.
- The desk is equipped with an anti-collision feature. Do not force the desk to move if it encounters an obstacle. Remove the obstruction and then resume operation.
- Ensure all cables are properly managed to avoid entanglement during height adjustments.
- Do not overload the desk. The maximum weight capacity is 180 lbs.

SETUP AND ASSEMBLY

Assembly of the DEVAISE Electric Standing Desk is designed to be straightforward. All holes are pre-drilled, and accessories are clearly labeled. For optimal ease, it is recommended to have two people for assembly. A Phillips head screwdriver is required (not included).

1. Unpack all components and verify against the package contents list.
2. Attach the desk legs to the crossbar and frame components using the provided hardware. Ensure all connections are secure.
3. Carefully place the desktop upside down on a soft, clean surface.
4. Mount the assembled frame to the pre-drilled holes on the underside of the desktop. Tighten all screws firmly.

5. Install the control panel on the designated location on the desktop edge.
6. Attach the headphone hook to the desired side of the desk.
7. Connect the power adapter to the control box and plug it into a power outlet.
8. Carefully flip the desk upright. It is recommended to have two people for this step due to the desk's weight.

OPERATING INSTRUCTIONS

Height Adjustment

The DEVAISE Electric Standing Desk features a quiet tri-motor system for smooth height transitions. The desk can be adjusted between 28.35 inches and 46.45 inches.

- Use the **Up** and **Down** arrows on the control panel to manually adjust the desk to your desired height.
- The LED display will show the current height in real-time.

HEIGHT ADJUSTABLE

Memory Presets

The control panel allows you to save up to three personalized height settings for quick recall.

1. Adjust the desk to your desired height using the Up/Down arrows.
2. Press the **S** button (Set button).
3. Immediately press one of the numbered memory buttons (**1**, **2**, or **3**) to save the current height to that preset.
4. To recall a saved height, simply press the corresponding numbered memory button. The desk will automatically move to the saved position.

Child Lock Feature

To activate or deactivate the child lock, refer to the specific instructions provided with your control panel. This feature prevents accidental height adjustments.

Anti-Collision System

The desk is equipped with an anti-collision system that automatically stops movement if an obstruction is detected. If this occurs, remove the obstruction and then resume operation.

MAINTENANCE

Regular maintenance helps ensure the longevity and proper function of your DEVAISE Electric Standing Desk.

- **Cleaning:** Wipe the desktop and frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.

- **Inspections:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Cable Management:** Ensure power cables and other cords are neatly managed and do not interfere with the desk's movement.
- **Liquid Spills:** In case of liquid spills, immediately unplug the desk and wipe thoroughly. Avoid direct contact of liquids with electrical components.

TROUBLESHOOTING

If you encounter issues with your DEVAISE Electric Standing Desk, refer to the following common solutions:

Problem	Possible Cause	Solution
Desk does not move	Power cable disconnected; Control panel error; Overload	Check power connections; Unplug and replug the desk; Reduce weight on desktop; Refer to control panel manual for specific error codes.
Uneven movement or shaking	Loose connections; Uneven weight distribution; Obstruction	Check and tighten all assembly screws; Redistribute weight evenly on the desktop; Remove any obstructions.
Desk stops during adjustment	Anti-collision system activated; Overheating	Remove obstruction; Allow the desk to cool down for 20 minutes before resuming operation.
Control panel unresponsive	Child lock activated; Power issue	Deactivate child lock; Check power connection; Unplug and replug the desk.
