Safety Information

Before using the Casavok Mini Travel Curling Iron, please observe the following safety precautions:

- **Burn Hazard:** Surfaces of the curling iron become extremely hot during operation. Avoid direct contact with skin, especially the scalp, face, and neck. Use the anti-scald top handle.
- **Electric Shock Risk:** Keep the appliance away from water. Do not use it near bathtubs, sinks, or other water sources. Never immerse the curling iron in water or any other liquid.
- **Fire Risk:** Unplug the curling iron when not in use. Do not leave it unattended when plugged into an electrical outlet. Ensure the appliance is placed on a heat-resistant surface when hot.
- **Children:** Keep this appliance out of reach of children.
- **Damage:** Do not operate the curling iron if the cord or plug is damaged, or if the appliance malfunctions or has been dropped. Contact customer support for assistance.
- **Storage:** Allow the curling iron to cool completely before storing. Store in a dry place.

Package Contents

The Casavok Mini Travel Curling Iron package includes:

- 1 x Casavok Mini Travel Curling Iron (Model HC001)
- 1 x Travel Pouch
- 1 x UK Plug Adapter
- 1 x EU Plug Adapter
- 1 x User Manual

Product Features

The Casavok Mini Travel Curling Iron HC001 is designed with several features for convenient and effective hair styling:

- **Rapid Heating:** Heats up in approximately 30 seconds for quick styling.

- **Dual Voltage (100-240V):** Automatically adjusts for worldwide use, ideal for international travel.
- **Automatic Shut-off:** The device automatically turns off after 60 minutes of inactivity for safety.
- **5 Temperature Settings:** Digital temperature control from 250°F to 410°F (120°C to 210°C) to suit various hair types.
- **Advanced Protective Coating:** Features a tourmaline, ceramic, argan oil, and keratin layer to minimize heat damage and enhance hair health.
- **Anti-Scald Top Handle:** Designed for safe handling during use.
- **360° Swivel Cord:** Prevents tangling and allows for flexible styling.
- **Safety Stand:** Integrated stand for safe placement on surfaces while hot.

Setup

Follow these steps to set up your Casavok Mini Travel Curling Iron:

1. **Unpack:** Carefully remove the curling iron and all accessories from the packaging.
2. **Inspect:** Check the curling iron and power cord for any signs of damage. Do not use if damaged.

3. **Power Connection:** Plug the curling iron into a suitable electrical outlet. For international travel, use the appropriate UK or EU plug adapter provided. The curling iron automatically adjusts to the local voltage (100-240V).
4. **Placement:** Place the curling iron on a heat-resistant surface, utilizing the integrated safety stand.

Operating Instructions

To achieve desired curls with your Casavok Mini Travel Curling Iron:

1. **Power On:** Press and hold the power button for approximately 3 seconds to turn on the curling iron. The digital display will illuminate.
2. **Select Temperature:** Short press the power button to cycle through the 5 available temperature settings (250°F, 284°F, 320°F, 385°F, 410°F). Choose a temperature appropriate for your hair type (refer to the 'Temperature Settings' section).
3. **Heat Up:** Allow the curling iron to heat up. The digital display will show the temperature increasing until it reaches the selected setting. This typically takes about 30 seconds.
4. **Prepare Hair:** Ensure your hair is clean, dry, and detangled. For best results, apply a heat protectant spray.
5. **Section Hair:** Divide your hair into manageable sections, typically 1-2 inches wide, depending on the desired curl size.
6. **Curl Hair:**
    - Open the clamp and place the ends of a hair section over the barrel.
    - Close the clamp and gently roll the curling iron upwards towards the roots, ensuring the hair is wrapped around the barrel.
    - Hold for 5-10 seconds, depending on your hair type and desired curl intensity.
    - Release the clamp and gently slide the curling iron out, allowing the curl to fall naturally.
7. **Repeat:** Continue curling sections of hair until your desired style is achieved.
8. **Cool Down:** Allow curls to cool completely before styling further with fingers or a comb to set the style.
9. **Power Off:** Press and hold the power button for approximately 3 seconds to turn off the curling iron. The display will turn off.
10. **Automatic Shut-off:** The curling iron will automatically power off after 60 minutes of inactivity.

Temperature Settings

The Casavok Mini Travel Curling Iron offers 5 temperature settings to cater to different hair types:

- **250°F (120°C):** Ideal for damaged or fragile hair.
- **284°F (140°C):** Suitable for soft or thin hair.
- **320°F (160°C):** Recommended for fine or bleached hair.
- **385°F (195°C):** Best for dyed or dark colored hair.
- **410°F (210°C):** Optimal for thick, curly, or wavy hair.

Travel Features

This curling iron is designed for global travel convenience:

- **Dual Voltage (100-240V):** The curling iron automatically adapts to the voltage of the country you are in, eliminating the need for a voltage converter.

- **Included Plug Adapters:** The package includes both UK and EU plug adapters, ensuring compatibility with most international outlets.
- **Compact Size:** With dimensions of 9.84 x 0.98 inches and a weight of 0.62 lbs, it is designed to fit easily into your luggage or handbag.

Maintenance

Proper maintenance ensures the longevity and performance of your curling iron:

1. **Cleaning:** Ensure the curling iron is unplugged and completely cool before cleaning. Wipe the barrel and handle with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals.
2. **Storage:** Once cool and clean, store the curling iron in its travel pouch in a dry, safe place, away from moisture and direct sunlight. Do not wrap the power cord tightly around the appliance.

Troubleshooting

If you encounter issues with your Casavok Mini Travel Curling Iron, refer to the following:

- **Appliance Not Turning On:**
  - Ensure the power cord is securely plugged into a functional electrical outlet.
  - Check if the power button is pressed and held for 3 seconds to activate.
- **Not Heating Up:**
  - Verify that the curling iron is powered on and a temperature setting is selected.
  - Allow sufficient time (approx. 30 seconds) for the iron to reach the set temperature.
- **Poor Curling Results:**
  - Ensure your hair is clean, dry, and free of styling products that might inhibit curling.
  - Adjust the temperature setting to a higher level if your hair is thick or resistant to curling.
  - Hold the hair around the barrel for a longer duration (e.g., 10 seconds).

- Ensure hair sections are not too large.

- **Automatic Shut-off Activating Too Soon:**
  - The device has a 60-minute auto-off feature. If it turns off during use, simply power it back on.

- **Plug Adapter Not Working:**
  - Ensure the correct adapter (UK or EU) is being used for the specific country's outlet type.
  - Verify the adapter is securely connected to the curling iron's plug and the wall outlet.
