### 3. SETUP AND ASSEMBLY

The FACBOTALL Kitchen Pantry Cabinet requires assembly. Detailed installation instructions and numbered parts are included in the product packaging to facilitate quick and accurate setup. Please follow the provided step-by-step guide carefully.

#### 3.1 Dimensions

Image 3.1: Product Dimensions

The overall dimensions of the assembled cabinet are approximately 15"D x 47.22"W x 71.9"H.

### 3.2 Anti-Tipping Device Installation

For safety, ensure the anti-tipping device is securely installed according to the assembly instructions. This device helps prevent the cabinet from tipping over, especially in households with children or pets.

## 4. OPERATING INSTRUCTIONS

### 4.1 Using the Integrated Power Outlets

The cabinet features a countertop with two built-in 3-hole power sockets. These are designed for convenient use of small kitchen appliances. To use, simply plug your appliance into one of the sockets. Ensure the power switch on the outlet strip is in the 'ON' position.

## 4.2 Adjusting Shelves

The internal shelves within the cabinets are adjustable. To change the height of a shelf, carefully remove the shelf and reposition the shelf pins into the desired holes. Ensure all four pins are securely inserted before placing items on the shelf.

## 5. MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Spills:** Clean up spills immediately to prevent staining or damage to the PB material.
- **Hardware:** Periodically check all screws and fittings to ensure they remain tight. Retighten as necessary.

## 6. TROUBLESHOOTING

### 6.1 Door Hinge Adjustments

If the cabinet doors are misaligned, crooked, leaning, or have uneven gaps, they can be adjusted using the hinges. The following video demonstrates how to adjust the door hinges to correct common issues.

Your browser does not support the video tag.

Video 6.1: Door Hinge Adjustment Steps

**Precautions for Hinge Adjustment:**

1. Before adjusting the hinge, please check whether the cabinet itself is skewed.
2. If the skew cannot be repaired, remove the anti-tipping device first, then adjust the cabinet to a vertical position.
3. Adjust the hinge with the door open.
4. It is recommended to operate with more than 2 people: one person holds the door, and the other adjusts the screw.
