MABĒ Monarch

MABĒ Monarch Ergonomic Baby Carrier Instruction Manual

Model: Monarch

1. INTRODUCTION

The MABĒ Monarch Ergonomic Baby Carrier is designed to provide comfort and support for both parent and child. Crafted from a premium cotton blend, this soft structured carrier offers three versatile carrying positions suitable for newborns to toddlers, ranging from 7 to 35 lbs. This manual provides essential information for safe and proper use, maintenance, and care of your MABĒ Monarch carrier.

2. SAFETY INFORMATION

Always prioritize your child's safety. Read and understand all instructions before using the carrier. Failure to follow these instructions could result in serious injury or death.

2.1 Fall Hazard

- Ensure all buckles, snaps, straps, and adjustments are secure before each use.
- Check for wear and tear. Discontinue use if any part is damaged.
- Be aware of your child's movements. Adjust the carrier to keep your child secure against your body.

2.2 Suffocation Hazard

- Infants under 4 months can suffocate in this product if their face is pressed too tightly against your body.
- Always keep your child's face clear of obstructions and visible.
- Ensure your child's chin is not resting on their chest.
- Frequently check on your child.
- Never use the carrier during activities that may impair your balance or judgment.

3. PRODUCT FEATURES

- **Premium Cotton Blend:** Made from 90% Cotton and 10% Linen for comfort and breathability.
- **Versatile Carry Positions:** Supports Front Facing In (3+ months), Front Facing Out (6+ months), and Back Carry (6+ months).
- **Hip-Healthy Design:** Deep seat 'M' position promotes proper hip development.
- **Adjustable Sizing:** Accommodates various body types, including plus size, with a waistband extending up to 55 inches.
- **Weight Range:** Suitable for children weighing 7-35 lbs.
- **Easy Maintenance:** Machine washable on a cold, gentle cycle.

4. SETUP

Before placing your child in the carrier, familiarize yourself with its components and adjustments.

1. **Adjust Waistband:** Secure the main waist belt around your natural waist. The waistband extends up to 55 inches. Ensure it is snug but comfortable.
2. **Shoulder Straps:** The shoulder straps are designed to cross in the back for optimal weight distribution.

3. **Seat Adjustment:** The carrier features an adjustable seat to ensure a hip-healthy 'M' position for your child. Adjust the width of the seat panel using the Velcro tabs at the base of the carrier to fit your child's size. For smaller infants, narrow the seat; for larger children, widen it.

5. OPERATING INSTRUCTIONS: CARRY POSITIONS

The MABÉ Monarch offers three ergonomic carry positions. Always ensure your child is securely positioned and comfortable.

5.1 Front Carry, Facing In (3+ months)

This position is ideal for newborns and younger infants who need to be close to you.

1. Fasten the waist belt securely around your natural waist.
2. Hold your child against your chest, ensuring their legs are in the 'M' position (knees higher than bottom).
3. Bring one shoulder strap over your shoulder and across your back, securing it to the buckle on the opposite side of the waist belt. Repeat for the other shoulder strap. The straps should form an 'X' across your back.

4. Adjust all straps to ensure a snug fit, keeping your child close enough to kiss.

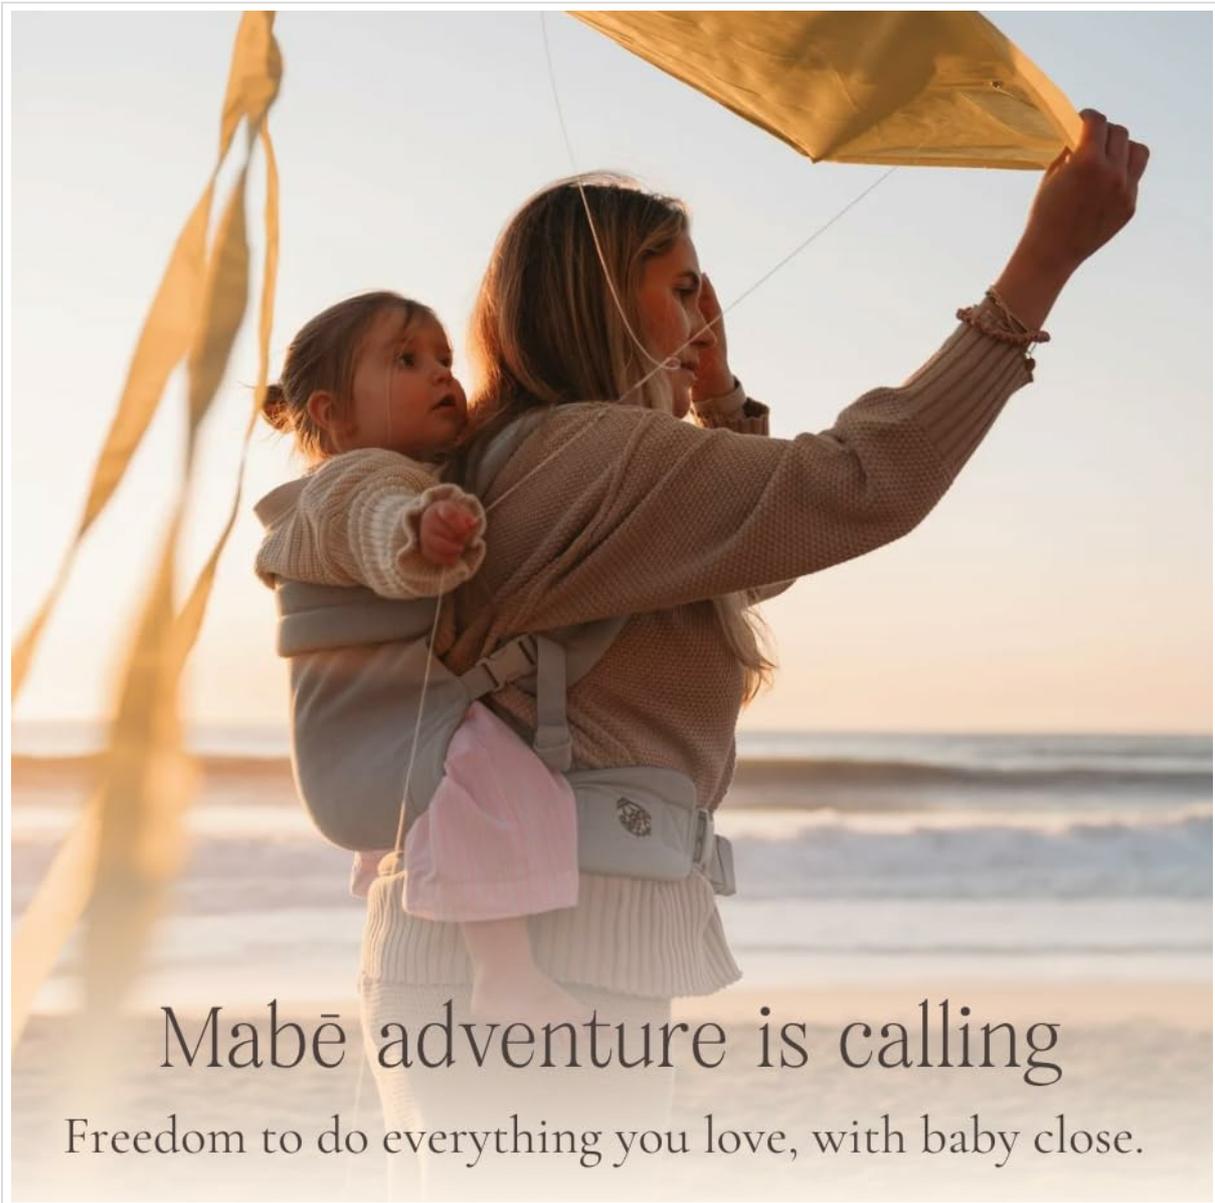

Image 5.1: Front Carry, Facing In

5.2 Front Carry, Facing Out (6+ months)

For children with strong head and neck control who are curious about their surroundings.

1. Fasten the waist belt securely around your natural waist.
2. Position your child facing outwards, ensuring their legs are in the 'M' position.
3. Bring one shoulder strap over your shoulder and across your back, securing it to the buckle on the opposite side of the waist belt. Repeat for the other shoulder strap.
4. Adjust all straps for a snug and secure fit.

5.3 Back Carry (6+ months)

Suitable for older infants and toddlers with excellent head and neck control.

1. Fasten the waist belt securely around your natural waist.
2. Carefully transfer your child to your back, ensuring they are centered and their legs are in the 'M' position.
3. Bring one shoulder strap over your shoulder and across your chest, securing it to the buckle on the

opposite side of the waist belt. Repeat for the other shoulder strap.

4. Adjust all straps to ensure your child is high enough to see over your shoulder and securely against your back.

6. MAINTENANCE

Proper care will extend the life of your MABÉ Monarch carrier.

- **Washing:** Machine wash separately on a cold, gentle cycle. It is recommended to place the carrier in a garment bag to protect buckles and fabric.
- **Drying:** Air dry or tumble dry on low heat. Do not bleach or iron.
- **Spot Cleaning:** For minor spills or stains, spot clean with a mild detergent and damp cloth.

7. TROUBLESHOOTING

If you encounter any issues with your MABÉ Monarch carrier, consider the following:

- **Discomfort:** Ensure all straps are properly adjusted and tightened. The waist belt should sit firmly on your natural waist, and shoulder straps should be snug without digging in. Verify your child's position,

ensuring the 'M' shape for their legs.

- **Child's Position:** Always check that your child's airway is clear and their head is supported, especially for younger infants. Adjust the head flap as needed.
- **Loose Straps:** Re-thread any loose straps through their buckles and tighten them securely.

8. SPECIFICATIONS

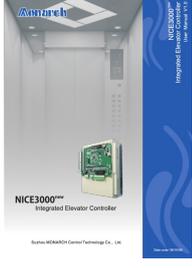

Feature	Detail
