Dioche Garden Hose Support Stakes (3-Pack) User Manual

Model: Diochepmovc0sbhi

1. INTRODUCTION

This manual provides comprehensive instructions for the proper installation, operation, and maintenance of your Dioche Garden Hose Support Stakes. These stakes are designed to securely hold your garden hose, preventing it from damaging plants and lawns, and facilitating easier hose management.

2. PRODUCT OVERVIEW

2.1 Features

- **Easy Installation:** Designed for quick setup without assembly.
- **Top Roller Design:** Equipped with flexible swivel pulleys for smooth hose movement.
- **Versatile Application:** Suitable for various garden environments including lawns, backyards, and greenhouses.
- **Effective Hose Support:** Keeps hoses off delicate plants and grass.
- **Durable Construction:** Made from ABS and sturdy iron for weather resistance and longevity.

2.2 Components

The package includes:

- 3 x Dioche Garden Hose Support Stakes (each consisting of an ABS body, flexible swivel rollers, and an iron ground stake).

This image displays three Dioche Garden Hose Support Stakes, showcasing their white ABS body, grey swivel rollers, and metal ground stakes. These units are designed to keep garden hoses organized and off delicate plants.

3. SETUP AND INSTALLATION

1. **Unpack Components:** Carefully remove the three garden hose support stakes from their packaging.
2. **Select Location:** Choose the desired locations in your garden, lawn, or flower beds where you want to guide and support your hose. Consider areas where the hose might otherwise rest on or damage plants.
3. **Insert Stake:** Hold the top of the hose holder and firmly insert the iron ground stake into the soil. Push down until the white ABS body is stable and the stake is fully embedded, ensuring the holder stands upright.
4. **Secure Placement:** Verify that each installed holder is stable and does not wobble. Repeat for all three stakes, spacing them appropriately along the hose's path.

A side view of a single Dioche Garden Hose Support Stake, highlighting the robust metal ground stake and the flexible grey swivel rollers at the top, which facilitate smooth hose movement.

4. OPERATING INSTRUCTIONS

1. **Position Hose:** Once the support stakes are installed, gently place your garden hose into the top roller mechanism of each holder. The hose should rest comfortably within the grey swivel rollers.
2. **Guide Hose:** As you move around your garden, the flexible swivel pulleys will guide the hose, allowing it to roll smoothly without snagging on obstacles or dragging across plants.
3. **Prevent Damage:** The elevated position of the hose, supported by the stakes, prevents it from crushing or damaging delicate flowers, shrubs, and lawn areas.
4. **Hose Management:** Use the stakes to define a clear path for your hose, making watering tasks more efficient and organized.

5. MAINTENANCE

- **Cleaning:** Periodically clean the hose holders with water to remove any accumulated dirt, mud, or debris, especially from the roller mechanisms to ensure smooth operation.
- **Inspection:** Regularly inspect the ABS body and iron stake for any signs of wear, cracks, or damage. Replace any damaged units to maintain optimal performance.
- **Storage:** While designed for outdoor use, storing the hose holders indoors during harsh winter conditions or prolonged periods of non-use can extend their lifespan.

6. TROUBLESHOOTING

- **Hose not moving smoothly through rollers:**
 - Check the roller mechanism for any trapped debris (e.g., leaves, small stones) and clear it.
 - Ensure the hose is properly seated within the rollers and not twisted.
- **Hose support stake feels loose in the ground:**
 - Re-insert the stake into firmer ground.
 - Ensure the stake is pushed fully into the soil until the base of the holder is stable.
- **Hose is still damaging plants despite using stakes:**
 - Adjust the placement of the stakes to create a wider or more direct path for the hose, ensuring it clears all delicate vegetation.
 - Consider adding more stakes if the hose path is particularly long or winding.

7. SPECIFICATIONS

Attribute	Value
Item Type	Garden Hose Holder
Material	ABS, Iron
Overall Size (per unit)	Approx. 27 x 12 cm (10.6 x 4.7 in)
Nail Length	Approx. 15 cm (5.9 in)
Weight (per unit, approx.)	Approx. 133 g (4.7 oz)
Model Number	Diochepmovc0sbhi
Manufacturer	Dioche

8. WARRANTY AND SUPPORT

Specific warranty information for this product is not provided in the available documentation. For any questions, technical support, or warranty inquiries, please contact Dioche customer service directly through their official channels or the retailer from whom the product was purchased.
