# TehanId 2-Person Portable Steam Sauna Instruction Manual

Model: sauna 2025 pro

## 1. INTRODUCTION

This manual provides instructions for the safe and effective use of your TehanId 2-Person Portable Steam Sauna. Please read all instructions carefully before assembly and operation. Retain this manual for future reference.

## 2. IMPORTANT SAFETY INFORMATION

**WARNING: Failure to follow these safety instructions may result in electric shock, fire, serious injury, or death.**

- Always use separate electrical outlets for each 1200W steam generator to prevent circuit overload.
- Ensure the steam generators are placed on a stable, level surface.
- Do not operate the steam generator without water. The anti-dry burning design will automatically power off the unit if water levels are too low.
- Keep the remote control battery compartment securely closed to prevent accidental swallowing of batteries, especially by children.
- Avoid direct contact with hot steam and hot surfaces of the steam generator.
- Do not use the sauna if you are pregnant, have a heart condition, high blood pressure, or any other medical condition without consulting a physician.
- Discontinue use immediately if you feel dizzy, nauseous, or unwell.
- Keep children and pets away from the sauna during operation.
- Ensure adequate ventilation in the room where the sauna is used.

# Safer Design

Triple safety features you can trust

## Material safety

High-quality satin cotton 5-layer design, **no odor**

## Boiler safety

Anti-dry burning design, no water will **automatically power off**

Durable button battery

## Remote control safety

Battery switch designed to **prevent accidental swallowing.**

### 3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly.

Image: Components of the Tehanld 2-Person Portable Steam Sauna, including pipes, steam generators, aroma boxes, steam hoses, carpet, tee fittings, and foldable chairs.

- Sauna Tent (1)
- Steam Generators (2)
- Foldable Chairs (2)
- Pipes (various sizes: A, B, C, D)
- Tee Fittings (8)
- Steam Hoses (4)
- Thickened Absorbent Carpets (2)
- Aroma Boxes (2)
- Remote Controls (2)

## 4. SETUP AND ASSEMBLY

---

The TehanId Portable Steam Sauna is designed for easy and quick assembly. Follow these steps:

1. **Assemble the Frame:** Connect the pipes using the provided tee fittings to form the base and vertical structure of the sauna tent. Refer to the diagram for correct pipe placement (Pipe A, B, C, D).
2. **Attach the Tent Fabric:** Drape the sauna tent fabric over the assembled frame. Ensure the zippers and openings align correctly.
3. **Install Floor Mats:** Place the thickened absorbent carpets on the floor inside the sauna tent.
4. **Connect Steam Generators:**
  - Connect one end of a steam hose to the outlet of each steam generator.
  - Feed the other end of each steam hose through the designated openings in the sauna tent and secure them.
  - Place the aroma boxes on top of the steam generator outlets if desired, adding essential oils as per preference.
5. **Position Chairs:** Place the two foldable chairs inside the sauna tent.

Video: This video provides a detailed guide on the assembly and initial usage of the TehanId portable steam sauna.

## 5. OPERATING INSTRUCTIONS

---

1. **Fill Steam Generators:** Open the lid of each steam generator and fill with clean water up to the maximum fill line. You may add essential oils to the aroma box if using.
2. **Power On:** Plug each steam generator into a separate electrical outlet. Press the "On/Off" button on each unit or use the remote control to power them on.
3. **Set Time and Temperature:** Use the "Time" and "Temp" buttons on the unit or remote control to set your desired session duration (up to 99 minutes) and steam intensity (up to level 15). The sauna features two 1200W steamers for efficient heating.
4. **Preheat:** Allow the sauna to preheat for approximately 8-10 minutes. The sauna is designed for faster heating compared to conventional models.
5. **Enter the Sauna:** Once preheated, enter the sauna tent and zip it closed.
6. **During Use:** You can adjust the time and temperature settings during your session using the remote control.
7. **After Use:** When your session is complete, power off the steam generators and exit the sauna. Allow the tent to cool and dry before folding or storing.

# Faster Heating

2 steamer provide higher temperature

Heat up quickly to **130 °F**  
in **10** minutes

## 6. MAINTENANCE

- **Cleaning the Tent:** After each use, wipe down the interior of the sauna tent with a clean, damp cloth. Allow it to air dry completely before folding and storing to prevent mold or mildew.

- **Cleaning Steam Generators:** Regularly descale the steam generators according to the manufacturer's instructions for descaling small appliances. This helps maintain efficiency and prolong the lifespan of the units.
- **Storage:** When not in use, fold the sauna tent and store it in a cool, dry place away from direct sunlight.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No steam or insufficient steam.	Low water level in steam generator. Steam hose kinked or blocked. Steam generator not powered on or faulty.	Fill water to the maximum line. Check and straighten steam hoses. Ensure power is connected and unit is turned on. Contact support if faulty.
Circuit breaker trips when both steamers are used.	Overload on a single electrical circuit.	Plug each 1200W steam generator into a separate electrical outlet on different circuits.
Sauna not reaching desired temperature.	Insufficient preheating time. Temperature setting too low. One or both steam generators not functioning optimally.	Allow more time for preheating (10-15 minutes). Increase the temperature setting on the steam generators. Ensure both steam generators are working correctly.
Plastic smell during initial use.	New product odor.	This is normal for the first few uses. Ensure good ventilation. The smell should dissipate over time.

## 8. SPECIFICATIONS

- **Product Dimensions:** 49 x 36 x 71 inches (Width x Depth x Height)
- **Item Weight:** 27.8 pounds
- **Model Number:** sauna 2025 pro
- **Manufacturer:** TehanId
- **Steam Generator Power:** 1200W per unit (2 units included)
- **Steam Generator Capacity:** 3L
- **Material:** High-quality, heat-resistant 5-layer satin cotton design
- **Features:** Dual zipper, odor-free materials, smooth zipper, remote control, foldable design.
