Sakugi 5-Tier Metal Shelf Organizer Instruction Manual

Model: US6025

1. PRODUCT OVERVIEW

The Sakugi 5-Tier Metal Shelf Organizer is a versatile and space-saving storage solution designed for various environments such as kitchens, laundry rooms, pantries, garages, and offices. This set includes two 5-tier units, each measuring 18.4" x 12.6" x 57.4", crafted from high-quality alloy steel with a powder-coated finish for durability and rust resistance. Each shelf is engineered to support up to 100 lbs, providing robust storage for a wide range of items. The units feature adjustable leveling feet to ensure stability on uneven surfaces and can be combined for expanded storage.

2. SAFETY INFORMATION

To ensure safe and proper use of your Sakugi 5-Tier Metal Shelf Organizer, please adhere to the following guidelines:

- **Weight Limit:** Do not exceed the maximum weight limit of **100 lbs per shelf**. Overloading shelves can compromise stability and lead to damage or injury.

- **Assembly:** Always follow the assembly and installation instructions carefully. Ensure all components are securely fastened before placing items on the shelves.
- **Placement:** Place the shelving unit on a flat, stable surface. Utilize the adjustable leveling feet to correct any wobbling or instability.
- **Children and Pets:** Keep children and pets away from the unit during assembly. Do not allow children to climb on the shelves.
- **Maintenance:** Regularly check all screws and connections to ensure they remain tight.

3. SETUP AND ASSEMBLY

The Sakugi 5-Tier Metal Shelf Organizer is designed for quick and easy assembly, requiring no special tools beyond the included hex key. Follow these steps for a smooth installation:

3.1. Unpacking and Parts Identification

Carefully unpack all components and verify against the parts list provided in the packaging. Ensure all pieces are present and undamaged. The packaging labels will help identify each part.

3.2. Step-by-Step Assembly

1. **Install Leveling Feet:** Attach the four leveling feet (F) to the bottom tubes (A). These feet are crucial for stability and adjusting to uneven floors.
2. **Attach First Shelf:** Secure one mesh shelf (E) to the four bottom tubes (A) using the provided M6 screws (G). Ensure the screws are finger-tightened initially.
3. **Add Side Bars:** Fasten two side bars (D) to the bottom tubes (A) using M6 screws (G). These provide additional structural support.
4. **Extend Vertical Posts:** Connect the metal tubes (B) to the bottom tubes (A) to extend the vertical posts.
5. **Continue Adding Shelves and Posts:** Repeat steps 2 and 3, adding the remaining mesh shelves (E) and metal tubes (B) in sequence. For the top section, use the top tubes (C).
6. **Final Tightening:** Once all parts are assembled, use the hex key (H) to securely tighten all M6 screws (G). Do not overtighten.
7. **Adjust Leveling Feet:** Adjust the leveling feet (F) at the bottom of the unit to ensure the shelf is stable and does not wobble on your floor.

5. MAINTENANCE

Maintaining your Sakugi 5-Tier Metal Shelf Organizer is simple and helps prolong its lifespan and appearance:

- **Cleaning:** Wipe the shelves with a damp cloth to remove dust and spills. For tougher grime, a mild soap solution can be used, followed by wiping with a dry cloth to prevent water spots and rust.
- **Regular Checks:** Periodically inspect all screws and connections to ensure they are tight. Re-tighten if necessary to maintain the unit's stability.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals, as these can damage the powder-coated finish.

6. TROUBLESHOOTING

While the Sakugi 5-Tier Metal Shelf Organizer is designed for durability and ease of use, here are some common issues and their solutions:

- **Wobbling Unit:**
 - Ensure the unit is placed on a flat, even surface.
 - Adjust the leveling feet at the bottom of each leg until the unit is stable. Turn clockwise to shorten, counter-clockwise to lengthen.
 - Verify all screws are securely tightened.
- **Difficulty Assembling:**
 - Refer to the step-by-step instructions and the installation video provided in Section 3.
 - Ensure you are using the correct parts for each step as indicated by the labels.
 - Do not force parts together; if a part doesn't fit, recheck the instructions.
- **Shelf Sagging:**
 - Check if the weight on the shelf exceeds the 100 lbs per shelf limit. Redistribute items or remove excess weight.
 - Ensure the shelf is properly seated and all connecting screws are tight.
