LIKIMIO HK-TBF-022

LIKIMIO Twin Bed Frame Instruction Manual

Model: HK-TBF-022

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your LIKIMIO Twin Bed Frame (Model HK-TBF-022). Please read all instructions carefully before assembly and use to ensure safe and proper operation of the product. Keep this manual for future reference.

SAFETY INFORMATION

Always follow the assembly instructions carefully to prevent instability. Be cautious around the LED lights to avoid electrical hazards. Be mindful of the floating design to prevent toe stubs. Do not exceed the weight capacity of 800 pounds to maintain structural integrity. Ensure all connections are secure before use.

COMPONENTS LIST

Before beginning assembly, verify that all parts are present and undamaged. All parts are numbered for easy identification during the assembly process.

- Upholstered Headboard (Cloud-shaped)
- Bed Frame Side Rails (Left and Right)
- Bed Frame Footboard
- Metal Support Frame
- 12 Solid Wooden Slats
- LED Light Strip
- Remote Control for LED Lights
- Assembly Hardware (screws, bolts, tools)

ASSEMBLY INSTRUCTIONS

This bed frame is designed for quick and easy assembly. Detailed illustrated instructions and a full set of tools are included with your purchase. Follow the numbered steps provided in the included manual for optimal results.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided numbering.

- 2. Assemble the Frame:** Connect the side rails and footboard to the headboard using the provided hardware. Ensure all connections are tightened securely.
- 3. Install Metal Support:** Attach the metal support frame and legs to the assembled bed frame. These hidden support legs contribute to the floating design.
- 4. Place Wooden Slats:** Lay the 12 solid wooden slats across the bed frame. Secure them in place as indicated in the detailed instructions. The slats are designed to provide robust support without the need for a box spring.
- 5. Attach LED Light Strip:** Adhere the LED light strip to the designated area under the bed frame. Ensure it is securely attached and the wiring is neatly tucked away.
- 6. Final Checks:** Double-check all screws and connections to ensure they are tight and the frame is stable.

OPERATING INSTRUCTIONS (LED LIGHTS)

Your LIKIMIO Twin Bed Frame features an integrated LED light strip to enhance your room's ambiance. The lights are controlled via a remote control.

- **Power On/Off:** Use the designated button on the remote to turn the LED lights on or off.
- **Color Selection:** Choose from over 16 million colors to match your mood or decor.
- **Mode Selection:** Explore various lighting modes, including static colors, dynamic transitions, and flashing patterns.
- **Brightness Adjustment:** Adjust the intensity of the light to your preference.
- **Speed Adjustment:** For dynamic modes, control the speed of color changes or effects.
- **Music Synchronization:** Some modes allow the lights to synchronize with music, creating an immersive experience.
- **Timing Mode:** Set a timer for the lights to automatically turn off.

MAINTENANCE

Proper maintenance will extend the life and appearance of your bed frame.

- **Cleaning the Frame:** The floating design provides ample underbed space, making it easy to clean beneath the bed. Use a vacuum cleaner or a damp cloth to remove dust and debris from the frame and floor.
- **Fabric Care:** The bouclé fabric headboard can be spot cleaned with a mild detergent and a damp cloth. Avoid harsh chemicals that may damage the fabric.
- **Slats and Supports:** Periodically check the wooden slats and metal supports for any signs of wear or loosening. Tighten any loose connections as needed.

TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Instability or Wobbling:** Ensure all bolts and screws are securely tightened. Re-check the assembly steps to confirm all components are correctly installed. The bed frame is designed to be sturdy when fully assembled and placed on a level surface.
- **LED Lights Not Working:** Check the power connection to the LED strip. Ensure the remote control has working batteries and is pointed directly at the receiver.
- **Noise:** If the bed makes noise, re-tighten all connections, especially those for the wooden slats and metal support frame. Ensure the mattress is properly seated on the slats.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 800 pounds to prevent damage to the frame and ensure safety.

SPECIFICATIONS

Feature	Detail
Model Number	HK-TBF-022
Size	Twin
Product Dimensions	78.6"L x 43.3"W x 43.3"H
Material	Boucle Fabric, Metal, Wood
Color	White
Special Features	Hideaway, Lighted, No Box Spring Needed, Remote Control, Slatted
Weight Capacity	Up to 800 pounds
Ground to Item Distance	4.7 Inches
Recommended Mattress Thickness	10-12 inches (No Box Spring Needed)
