**Built-in ESPN/Netflix/ YouTube/ Play store**  
Seamlessly access all your favorite apps

An in-car infotainment system screen showcasing various entertainment applications such as Netflix, YouTube, and ESPN, demonstrating the streaming capabilities of the AIBOX adapter.

### 3. COMPATIBILITY

The LINCNOVA AIBOX CARPLAY Adapter is designed for vehicles equipped with **built-in factory wired Apple CarPlay**. Please verify your vehicle's specifications before purchase.

**This device might NOT work if:**

- Your car already supports wireless CarPlay (e.g., some BMW models).
- Your car is configured with UConnect.
- Your car does not support a touch screen.
- Your car model is before 2016.

# For Buyers

## DO NOT BUY

If your car supports WIRELESS  
CarPlay connection.

OR

If your car is BMW

It will not work.

A crucial compatibility warning stating that the LINCNOVA AIBOX adapter may not function with vehicles that already support wireless CarPlay, such as BMW models.

## 4. SETUP

The LINCNOVA AIBOX CARPLAY Adapter features a simple plug-and-play installation process. No complex wiring or dismantling of your car's stereo is required.

### 4.1 Installation Steps

1. **Connect:** Plug the AIBOX adapter into your car's existing USB port that supports wired CarPlay.
2. **Pair via Bluetooth:** On your smartphone, search for and pair with the AIBOX adapter via Bluetooth. Follow any on-screen prompts on your car's display.
3. **Enjoy:** Once paired, the system will automatically launch the CarPlay or Android Auto interface, or allow access to streaming applications.

# Plug & Play Installation

In just three simple steps:

1. Connect
2. Pair via Bluetooth
3. Enjoy

A visual guide illustrating the straightforward three-step installation process for the AIBOX CARPLAY Adapter: 1. Connect the adapter to the car's USB port. 2. Pair your smartphone via Bluetooth. 3. Begin using the system.

## 5. OPERATING INSTRUCTIONS

### 5.1 Wireless CarPlay and Android Auto

After successful setup, your smartphone will automatically connect wirelessly to your car's infotainment system, enabling Apple CarPlay or Android Auto. You can access navigation, music, calls, and other compatible apps directly from your car's display without needing a physical cable connection.

## Embrace wireless freedom with CarPlay or Android Auto

A car's infotainment screen displaying the familiar Apple CarPlay interface, indicating wireless connectivity enabled by the AIBOX adapter.

### 5.2 Streaming Entertainment

To access streaming services like Netflix, ESPN, YouTube, or HULU, you will need to connect the AIBOX adapter to a mobile hotspot. Once connected, you can launch these applications directly from the car's display. The device also supports playing local video and music files from an inserted SD card.

## 6. MAINTENANCE

To ensure the longevity and optimal performance of your LINCNOVA AIBOX CARPLAY Adapter, follow these simple maintenance guidelines:

- Keep the device clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- Avoid exposing the device to extreme temperatures, direct sunlight, or excessive moisture.
- Do not attempt to disassemble or repair the device yourself. This will void the warranty and may cause

damage.

- Ensure proper ventilation around the device when in use.

## 7. TROUBLESHOOTING

If you encounter issues with your AIBOX CARPLAY Adapter, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device does not power on / No display.	Incorrect USB port, insufficient power, or loose connection.	Ensure the adapter is plugged into the correct USB port that supports wired CarPlay. Try a different USB port if available. Check the cable connection.
Wireless CarPlay/Android Auto not connecting.	Bluetooth pairing issue, car not compatible, or phone settings.	Ensure Bluetooth is enabled on your phone and paired with the adapter. Verify your car has factory wired CarPlay. Restart both the adapter (by unplugging/replugging) and your phone.
Streaming apps (Netflix, YouTube) not working.	No mobile hotspot connection or weak signal.	Confirm the AIBOX adapter is connected to a stable mobile hotspot. Check the hotspot's data connection and signal strength.
Screen goes black or freezes intermittently.	Software glitch or temporary communication error.	Disconnect and reconnect the adapter. If the issue persists, check for firmware updates from the manufacturer's website (if available).
Call quality issues (static, low hearing).	Bluetooth interference or software optimization.	Ensure no other Bluetooth devices are causing interference. Check for any available software updates for the adapter that might address audio quality.

If the problem persists after attempting these solutions, please contact LINCNOVA customer support for further assistance.

## 8. SPECIFICATIONS
