Bealife CC51-EU

Bealife Potting Bench and Plant Table (Model CC51-EU) Instruction Manual

Introduction

Welcome to your new Bealife Potting Bench and Plant Table. This manual provides essential information for assembly, operation, maintenance, and troubleshooting to ensure safe and effective use of your product. Please read all instructions carefully before proceeding.

Safety Information

General Safety Guidelines

- Read all instructions carefully before assembly and use.
- Keep children and pets away from the assembly area.
- Wear appropriate safety gear, such as gloves, during assembly.
- Ensure the product is placed on a stable, level surface.
- Do not exceed the maximum load capacity of 100 kg.
- Regularly check all fasteners to ensure they remain tight.
- This product is designed for gardening activities and general storage. Avoid using it for purposes other than its intended use.

Package Contents

Before You Begin

Upon receiving your Bealife Potting Bench, please verify that all components are present and undamaged. Refer to the included assembly guide for a detailed list of parts.

It is recommended to prepare a clear, spacious work area and count all components before starting assembly.

A basic screwdriver is provided. For increased efficiency, an electric screwdriver with adjustable torque is recommended (not included).

Setup and Assembly

Assembly Steps

The assembly process typically takes approximately 1.5 hours for one person. For faster and more accurate alignment of components, assembly with two people is recommended.

Important Considerations:

- Some parts may not be pre-drilled. Careful alignment is crucial before tightening screws to ensure a straight and perpendicular structure.
- The wood material is relatively soft. If using an electric screwdriver, set the torque to a low setting (e.g., level 4) to prevent overtightening, stripping screws, or damaging the wood.
- Follow the step-by-step instructions provided in the included assembly manual. Ensure all screws are securely fastened but do not overtighten.

Operation

Using Your Potting Bench

Your Bealife Potting Bench is designed for various gardening tasks and storage needs.

- **Working Surface:** The metal-covered top surface is waterproof and easy to clean, ideal for potting plants, mixing soil, or performing other gardening tasks. Its ergonomic height of 86 cm reduces bending.
- **Storage:** Utilize the integrated drawer for small tools and the cabinet for larger items like soil bags or watering cans. The open shelf below provides additional space for potted plants or supplies.
- **Tool Hooks:** The side hooks are convenient for hanging frequently used gardening tools, keeping them within easy reach.
- **Versatile Use:** Beyond gardening, this bench can function as a display stand for bonsai or other decorative plants, or as a versatile outdoor cabinet. It can also be adapted for outdoor entertaining, such as a serving station.

Maintenance

Care and Cleaning

To ensure the longevity and appearance of your potting bench, follow these maintenance guidelines:

- **Cleaning:** Wipe the metal work surface with a damp cloth after each use to remove soil and debris. For the wooden parts, use a soft, dry or slightly damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Wood Care:** As the product is made of natural wood, it is recommended to periodically apply a wood sealant or protective oil, especially if used outdoors, to protect against weathering and moisture. This will help maintain its natural finish and prevent premature aging.
- **Inspection:** Periodically check all screws and connections for tightness. Retighten if necessary to maintain structural integrity.
- **Storage:** While designed for outdoor use, storing the bench under a covered area or using a protective cover during

harsh weather conditions (heavy rain, snow, extreme sun) will extend its lifespan.

TROUBLESHOOTING

Common Issues and Solutions

- **Difficulty during assembly:**
  - *Issue:* Parts do not align correctly or screws are difficult to insert.
  - *Solution:* Double-check the assembly instructions and diagrams. Ensure you are using the correct parts for each step. If parts are not pre-drilled, carefully align them before screwing. Consider assembling with a second person for better stability and alignment.
- **Wobbly structure after assembly:**
  - *Issue:* The bench feels unstable.
  - *Solution:* Ensure all screws are fully tightened. Check that the bench is placed on a flat, level surface. If the issue

persists, disassemble and reassemble, paying close attention to alignment.

- **Wood discoloration or damage:**
  - *Issue:* The wood appears to be weathering or showing signs of damage.
  - *Solution:* Apply a suitable outdoor wood sealant or stain to protect the wood from UV rays and moisture. For minor damage, light sanding and re-sealing may be effective. Avoid prolonged exposure to extreme weather without protection.

Specifications

Feature	Detail
Brand	Bealife
Model Number	CC51-EU
Product Dimensions (W x D x H)	111.5 cm x 46.5 cm x 125 cm
Working Height	86 cm
Color	Natural
Item Weight	18.5 kg
Finish Type	Raw
Frame Material	Wood
Maximum Load Capacity	100 kg
Assembly Required	Yes

Warranty and Support

For any questions regarding your Bealife Potting Bench, including missing parts, delivery delays, or assembly difficulties, please refer to the contact information provided with your purchase or visit the official Bealife website for customer support. Please retain your proof of purchase for warranty claims.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
