Razee R27-1

Razee Twin Bed Tent Instruction Manual

Model: R27-1

INTRODUCTION

Thank you for choosing the Razee Twin Bed Tent. This bed canopy is designed to provide a private, cozy, and comfortable space for children to sleep, read, and relax. Featuring a dual-door design, elegant bohemian tassels, and sturdy construction, it offers an enhanced sleep environment and versatile usage. This manual provides essential information for safe assembly, operation, and maintenance of your new bed tent.

SAFETY INFORMATION

WARNING: CHOKING HAZARD—Small parts. Not for children under 3 years. Do not place candles or other heat sources near the fabric to prevent fire hazards. Assembly must be performed by an adult.

- Always ensure the tent is assembled on a stable surface, such as a bed frame or flat floor.
- Keep all small parts, including pole connectors and caps, away from young children during assembly and use.
- Do not use the tent near open flames, heaters, or any other heat sources.
- Regularly inspect the tent for any damage to the fabric or poles. Discontinue use if damage is found.
- Ensure adequate ventilation, especially if the tent is fully enclosed, to prevent overheating.

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly:

- 1 x Razee Twin Bed Tent Fabric
- Set of Fiberglass Poles (quantity may vary based on design, typically 2-4 main poles)
- Pole Connectors/Joints
- Storage Bag

SETUP GUIDE

The Razee Twin Bed Tent is designed for easy, tool-free assembly. Follow these steps to set up your tent:

1. **Unpack Components:** Carefully remove all items from the storage bag and lay them out on a clean, flat surface.
2. **Assemble Poles:** Connect the fiberglass pole sections using the provided connectors to form the full-length poles. The poles are designed to be flexible yet sturdy.
3. **Insert Poles into Fabric Sleeves:** Locate the fabric sleeves on the bed tent. Gently slide the assembled fiberglass poles through these sleeves. Ensure the poles are fully inserted and seated correctly at the ends of the sleeves.
4. **Form the Arch:** Once all poles are in their sleeves, carefully bend the poles to form the arched shape of the tent. Secure the ends of the poles into the designated pockets or loops at the base of the tent fabric.
5. **Position the Tent:** Place the assembled bed tent over your twin-sized bed. Ensure it is centered and stable. The tent is designed to fit comfortably over a standard twin mattress.
6. **Secure the Base (Optional):** Some models may include straps or ties to secure the tent to the bed frame. If present, use these to enhance stability.

OPERATING INSTRUCTIONS

The Razee Twin Bed Tent offers several features for enhanced comfort and privacy:

- **Dual Door Design:** The tent features two doors, allowing convenient entry and exit from either side. These doors can be smoothly opened and closed from both the inside and outside.
- **Privacy and Comfort:** The tent provides a private space for sleeping, reading, or quiet play. The fabric offers a sense of enclosure while allowing for airflow.
- **Airflow:** The design includes windows and side openings that facilitate air circulation, helping to maintain a comfortable temperature inside the tent, especially during the night.
- **Versatile Usage:** While primarily designed as a bed tent, its structure allows for use as a play tent or even a travel tent in appropriate indoor settings.

The windows and both sides opening help with airflow to keep it comfortable throughout the night

MAINTENANCE

To ensure the longevity and cleanliness of your Razee Twin Bed Tent, follow these maintenance guidelines:

- **Cleaning:** The tent fabric is made of polyester-cotton. For minor spills or dirt, spot clean with a damp cloth and mild soap. Do not use harsh chemicals or abrasive cleaners.
- **Drying:** Allow the tent to air dry completely before folding and storing to prevent mildew.
- **Storage:** When not in use, disassemble the tent and store it in its compact fold storage bag in a cool, dry place away from direct sunlight.
- **Pole Care:** Keep the fiberglass poles clean and dry. If they become dirty, wipe them with a damp cloth.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Tent feels stuffy or hot inside.	Insufficient airflow when doors/windows are closed.	Ensure both doors are partially or fully open. Utilize the tent's windows for cross-ventilation. Consider placing the tent in a well-ventilated room.
Poles do not hold shape or tent sags.	Poles not fully connected or inserted into sleeves/pockets. Damaged poles.	Check all pole connections and ensure they are fully seated in the fabric sleeves and base pockets. Inspect poles for cracks or breaks; replace if damaged.
Tent does not fit the bed properly.	Incorrect bed size or tent not centered.	Ensure you have a twin-sized bed. Adjust the tent's position on the mattress to be centered.
