EDYELL C8 Max

EDYELL C8 Max Motorcycle Bluetooth Intercom Headset User Manual

Model: C8 Max

PRODUCT OVERVIEW

The EDYELL C8 Max is a versatile motorcycle Bluetooth intercom headset designed for enhanced communication and recording during rides. It integrates Bluetooth 5.3 technology for clear audio, a 1080P HD camera for video recording, and an intercom system for rider-to-rider communication. The device is built with durability in mind, featuring IPX5 waterproofing and a lightweight, robust construction.

Image: Overview of the EDYELL C8 Max Motorcycle Bluetooth Headset highlighting its key features such as 1080P camcorder, IPX6 waterproofing, fast charging, music sharing, 600m communication range, 40-hour battery life, TF card support, and AI voice assistant.

PACKAGE CONTENTS

Before installation, please verify that all items listed below are present in your package:

COMPATIBLE WITH DIFFERENT HELMETS

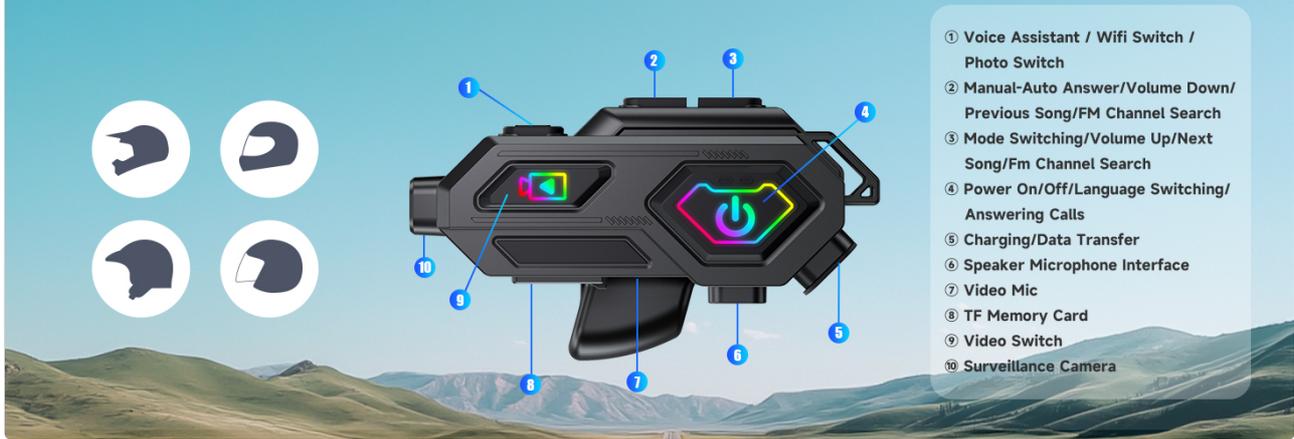

Image: Detailed diagram illustrating the various components included in the EDYELL C8 Max package, such as the main unit, speakers, microphone, mounting hardware, and accessories.

1. Motorcycle Bluetooth Headset C8 Max x1
2. Hard microphone speakers x1
3. 360 degree rotating clip x1
4. Clamping base x1
5. Microphone Velcro x2
6. Speaker Velcro x2
7. Double-sided adhesive paper for clip x3
8. Speaker Booster Pad x2
9. Data Cable x1
10. User Manual x1
11. 64G TF Card x1 (Note: Product specifications mention up to 256GB expandable storage, but package lists 64G TF Card)
12. Fastening screws x2
13. Mounting Wrench x1

SETUP AND INSTALLATION

The EDYELL C8 Max is designed for easy installation on various helmet types. Follow these steps to properly mount and connect your device:

1. Mounting the Headset

Choose between the 360-degree rotating clip or the clamping base for mounting. Ensure the chosen method provides a secure fit to your helmet. The device is compatible with most helmet designs.

Image: Illustration of the EDYELL C8 Max headset's compatibility with different helmet styles.

2. Speaker and Microphone Installation

Attach the hard microphone speakers inside your helmet using the provided Velcro pads. Position the speakers directly over your ears for optimal audio quality. Secure the microphone near your mouth, ensuring it is not obstructed.

3. Inserting the TF Card

Locate the TF memory card slot on the device. Insert the provided 64GB TF card (or your own up to 256GB) for video recording and storage. Ensure it is inserted correctly until it clicks into place.

OPERATING INSTRUCTIONS

Familiarize yourself with the device's controls and functions for a seamless experience.

- **Initiate Intercom:** After both devices are paired, a short press of the Intercom button (refer to diagram for specific button, usually a dedicated intercom button or a combination) will initiate communication.
- **Music Sharing:** Double-tap the WiFi button (labeled 1 in the diagram) to start sharing music with another paired C8 Max unit.

Phone Calls and Music Playback

- **Answer/End Call:** Short press the Power button (4) to answer or end a call.
- **Reject Call:** Press and hold the Power button (4) to reject an incoming call.
- **Volume Adjustment:** Use the Volume Up/Next Song (3) and Volume Down/Previous Song (2) buttons to adjust audio volume.
- **Music Control:** Short press Volume Up (3) for next track, short press Volume Down (2) for previous track.

Video Recording

The C8 Max features a 1080P HD camera with a 120-degree wide-angle lens.

Compatible Devices	Helmets (Universal compatibility)
Power Source	1500mAh Lithium Ion Battery (Rechargeable, Included)
Product Dimensions	14 x 9.5 x 6 cm
Country of Origin	China

TROUBLESHOOTING

If you encounter any issues with your EDYELL C8 Max headset, please refer to the following common solutions:

- **No Power:** Ensure the device is fully charged. Connect it to a power source using the provided Type-C cable.
- **Cannot Pair Bluetooth:** Make sure the headset is in pairing mode (rapidly flashing indicator light). Turn off and on your phone's Bluetooth, then try searching again. Ensure no other devices are actively connected to the headset.
- **Intercom Not Connecting:** Verify both headsets are within the 600-meter range and are not obstructed. Ensure both are in intercom mode.
- **Poor Audio Quality:** Check speaker placement inside the helmet. Ensure the microphone is positioned correctly and not blocked. Adjust volume levels.
- **Video Recording Issues:** Check if the TF card is inserted correctly and has sufficient free space. Format the TF card if necessary (refer to the full manual for formatting instructions).
- **Device Unresponsive:** Try performing a soft reset by pressing and holding the Power button for an extended period (e.g., 10-15 seconds) until the device powers off and then restart it.

MAINTENANCE

To ensure the longevity and optimal performance of your EDYELL C8 Max headset, follow these maintenance guidelines:

- **Cleaning:** Use a soft, damp cloth to clean the exterior of the device. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Charging:** Charge the device regularly, even if not in frequent use, to maintain battery health. Avoid overcharging.
- **Water Exposure:** While IPX5 waterproof, avoid prolonged submersion in water. Ensure all ports are properly sealed before exposure to moisture.
