## Lincisoonic A6-JH

# Lincisoonic Wireless Lavalier Microphone A6-JH User Manual

Model: A6-JH

## INTRODUCTION

---

Thank you for choosing the Lincisoonic Wireless Lavalier Microphone A6-JH. This 2.4GHz wireless microphone system is designed for clear audio recording with smartphones and tablets, offering features like noise cancellation, multiple audio modes, and a portable charging case. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance.

## PACKAGE CONTENTS

Please verify that all items are present in your package:

- 2 x Button-sized Microphones (Transmitters)
- 1 x Audio Receiver (USB Type-C)
- 2 x Mic Windshields
- 1 x Charging Case
- Other accessories (e.g., charging cable, user manual)

## SETUP INSTRUCTIONS

---

The Lincisoonic Wireless Lavalier Microphone system is designed for plug-and-play operation, requiring no applications or Bluetooth pairing.

1. **Charge the Microphones and Receiver:** Before first use, ensure both microphones and the receiver are fully charged using the provided charging case. The charging case itself can be charged via a USB-C cable.
2. **Connect the Receiver:** Insert the USB Type-C receiver directly into the USB-C port of your smartphone or tablet. The receiver will automatically power on.
3. **Power On Microphones:** Take the microphones out of the charging case. They will automatically power on and attempt to pair with the receiver. A successful connection is indicated by a steady light on both the microphone and receiver.
4. **Attach Windshields (Optional):** For outdoor use or in windy conditions, gently place the mic windshields over the microphone heads to reduce wind noise.
5. **Position the Microphone:** Clip the microphone to your clothing, ideally near your mouth, or use its magnetic attachment for hands-free recording.

## OPERATING INSTRUCTIONS

Once set up, the microphone system offers various modes to enhance your audio recording.

## Audio Modes

- **Noise Reduction:** This feature helps to minimize ambient background noise, ensuring clearer voice recordings. Activate or deactivate with a single button press on the microphone.
- **Reverb Mode:** Adds an echo effect to your audio, suitable for specific creative applications. Activate or deactivate with a single button press.
- **Mute Function:** Temporarily silence your microphone without disconnecting it. Activate or deactivate with a single button press.

## Battery Life and Charging

Each microphone provides approximately 14 hours of continuous use. The charging case extends the total usage time by an additional 42 hours, allowing for multiple recharges on the go. The charging case features an indicator to show its battery level.

## Wireless Range

The system operates on a 2.4GHz frequency, providing a stable wireless connection up to 300 feet (approximately 91 meters) in open environments.

environment.

## MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Lincisoonic Wireless Lavalier Microphone.

- **Cleaning:** Use a soft, dry cloth to wipe the microphones, receiver, and charging case. Avoid using liquid cleaners or solvents.
- **Storage:** When not in use, store the microphones and receiver in the charging case to protect them from dust and physical damage. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To maintain battery health, avoid fully discharging the devices frequently. Recharge them regularly, even if not in constant use.

## TROUBLESHOOTING

If you encounter any issues with your Lincisoonic Wireless Lavalier Microphone, please refer to the following common solutions:

| Problem                                         | Solution                                                                                                                                                                                                                                                                                                                                                                |
|-------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| No sound or low volume                          | <ul style="list-style-type: none"><li>◦ Ensure the receiver is fully inserted into your device's USB-C port.</li><li>◦ Check if the microphone is powered on and paired (indicated by a steady light).</li><li>◦ Verify your device's volume settings.</li><li>◦ Ensure the microphone is not in mute mode.</li></ul>                                                   |
| Poor sound quality / Excessive background noise | <ul style="list-style-type: none"><li>◦ Activate the noise reduction mode on the microphone.</li><li>◦ Ensure the microphone is positioned correctly, close to the sound source.</li><li>◦ Use the mic windshields in windy environments.</li><li>◦ Check for obstructions between the microphone and receiver that might interfere with the wireless signal.</li></ul> |
| Microphone not pairing                          | <ul style="list-style-type: none"><li>◦ Ensure both the microphone and receiver are sufficiently charged.</li><li>◦ Power off and then power on both the microphone and receiver to re-initiate pairing.</li><li>◦ Ensure no other 2.4GHz devices are causing interference nearby.</li></ul>                                                                            |
| Charging case not charging                      | <ul style="list-style-type: none"><li>◦ Verify the USB-C charging cable is securely connected to both the case and a power source.</li><li>◦ Try a different USB-C cable or power adapter.</li></ul>                                                                                                                                                                    |

## SPECIFICATIONS

Key technical specifications for the Lincisoonic Wireless Lavalier Microphone A6-JH:

- **Model Number:** A6-JH
- **Connectivity Technology:** 2.4GHz Wireless

- **Connector Type:** USB Type-C
- **Sound Quality:** 48kHz/24bit recording, 70dB SNR, 112dB SPL
- **Special Features:** 1-Touch Recording, Clip, Mute Function, Noise Reduction, Reverb Mode
- **Compatible Devices:** Samsung S24/S23/22/21/20/10, OnePlus, All Android Smartphones, Tablets, iPhone 16/15 series, and other compatible devices.
