SAFETY INFORMATION

Always observe basic safety precautions when using this product to reduce the risk of injury. Read all instructions before use.

- Ensure the pressure washer is turned off and depressurized before attaching or detaching the spray nozzle.
- Always wear appropriate personal protective equipment, including eye protection, when operating a pressure washer.
- Do not direct the spray at people, animals, or electrical equipment.
- Verify that the nozzle is securely attached before starting the pressure washer.
- Keep children and bystanders away from the operating area.

PACKAGE CONTENTS

Your package should contain the following item:

- 1 x Ingco Pressure Washer Spray Nozzle (46cm) with Quick Connect

SETUP

Follow these steps to attach the spray nozzle to your Ingco pressure washer:

1. Ensure your pressure washer is disconnected from the power source and water supply.
2. Locate the quick connect fitting on your pressure washer's spray gun.
3. Align the quick connect end of the Ingco spray nozzle with the fitting on the spray gun.
4. Push the nozzle firmly into the fitting until it clicks securely into place. Pull gently on the nozzle to confirm it is locked.
5. Once attached, you can reconnect your pressure washer to the water supply and power source.

TROUBLESHOOTING

If you encounter issues with your spray nozzle, refer to the following common problems and solutions:

- **No water spray or weak pressure:**
 - Check if the nozzle is securely attached to the spray gun.
 - Ensure the pressure washer is receiving adequate water supply and is operating correctly.
 - Inspect the nozzle opening for any blockages and clear if necessary.
- **Water leaking from connection:**
 - Ensure the quick connect is fully engaged and locked.
 - Check the O-rings or seals within the quick connect for damage or wear. Replace if needed.
