Rollplay W348CH-AVD-F-WH

Rollplay BMW R1200 GS 12V Kids Ride-On Motorcycle User Manual

Model: W348CH-AVD-F-WH | Brand: Rollplay

INTRODUCTION

This manual provides essential information for the safe and proper operation, assembly, and maintenance of your Rollplay BMW R1200 GS 12V Kids Ride-On Motorcycle. Designed for young riders, this electric bike features a realistic design, twist accelerator, LED headlight, engine sounds, and rear support wheels for stability. Please read this manual thoroughly before initial use and retain it for future reference.

SAFETY INFORMATION

WARNING: To avoid serious injury, adult supervision is required at all times. Never leave children unattended while operating the ride-on toy.

- **Age and Weight Limits:** This product is suitable for children aged 3 years and up, with a maximum weight capacity of 77 lbs (35 kg). Do not exceed the maximum weight.
- **Protective Gear:** Always ensure the rider wears a helmet and appropriate safety gear (e.g., knee and elbow pads) when operating the motorcycle.
- **Operating Environment:** Use only on flat, dry surfaces such as pavement or concrete. Avoid slopes, uneven terrain, sand, gravel, or wet surfaces. Do not operate near streets, swimming pools, or other bodies of water.
- **Battery Safety:** Only use the charger supplied with the product. Do not short-circuit the battery terminals. Keep the battery away from heat sources and direct sunlight.
- **Passenger Limit:** This ride-on motorcycle is designed for one rider only.
- **Pre-Ride Check:** Before each use, inspect the vehicle for any loose parts, damaged components, or signs of wear. Ensure all screws and fasteners are tight.

SETUP

Initial assembly of the Rollplay BMW R1200 GS motorcycle is required. Please follow the detailed instructions provided in the separate assembly guide that came with your product. Ensure all components are securely attached before proceeding to charging and operation.

Battery Charging

1. Locate the charging port on the motorcycle.
2. Connect the charger to the charging port and then plug the charger into a standard wall outlet.
3. Allow the battery to charge for the recommended time as specified in the assembly guide (typically 8-12 hours for the first charge, and 8-10 hours for subsequent charges). Do not overcharge.
4. The battery life indicator on the dashboard will provide an approximate charge level.

Image: The multi-function dashboard includes a battery life indicator, integrated radio and MP3 player controls, and realistic throttle control. The image also highlights the authentic BMW design and the stable training wheels with high traction tires.

OPERATING INSTRUCTIONS

Once the battery is fully charged and the motorcycle is assembled, your child can begin to operate it under adult supervision.

Starting the Motorcycle

1. Ensure the motorcycle is on a flat, safe surface.

2. Have the child sit comfortably on the seat with both feet on the footrests.
3. Press the power button, typically located on the dashboard, to turn on the motorcycle. The LED headlight will illuminate.

Image: The motorcycle features a working LED headlight that brightens the path for the rider.

Driving the Motorcycle

- **Acceleration:** To move forward, the rider twists the accelerator on the handlebar. The motorcycle will move at a maximum speed of up to 3 mph.
- **Steering:** The handlebars control the direction of the front wheel.
- **Stopping:** Releasing the twist accelerator will cause the motorcycle to slow down and stop.
- **Engine Sounds:** The motorcycle is equipped with realistic engine-revving sound effects for an immersive experience.
- **Stability:** Rear support wheels are included to ensure stability for young riders. The rubber traction strips on the tires provide ultimate control.

MAINTENANCE

Battery Care

- Always recharge the battery after each use, regardless of how long it was used.
- If the product is not used for an extended period, charge the battery at least once a month to prolong its lifespan.
- Store the battery in a cool, dry place. Do not store in extreme temperatures.

Cleaning and Storage

- Clean the motorcycle with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Avoid spraying water directly onto electrical components.
- Store the motorcycle indoors in a dry area when not in use to protect it from weather elements.

Tire Maintenance

- Regularly inspect the rubber traction strips on the tires for wear or damage.
- Ensure no debris is lodged in the tire treads.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Motorcycle does not move.	Battery is low or dead. Loose wire connection. Overload protection activated.	Charge the battery fully. Check all electrical connections. Reduce weight on the motorcycle; allow it to cool down for a few minutes.
Motorcycle moves slowly.	Battery is undercharged. Overloaded. Operating on unsuitable surface.	Recharge the battery. Ensure rider weight is within limits. Use on flat, hard surfaces.
Headlight or sounds not working.	Loose wire connection. Battery low.	Check connections to the headlight/sound unit. Charge the battery.

If you encounter issues not listed here or if the problem persists after attempting the solutions, please contact Rollplay Customer Support.
