### Caraway 16pc Set

# Caraway Deluxe 16-Piece Non-stick Ceramic Cookware Set User Manual

Model: 16pc Set (Navy)

## INTRODUCTION

Welcome to the Caraway Deluxe 16-Piece Non-stick Ceramic Cookware Set. This manual provides essential information for the proper setup, operation, care, and maintenance of your new cookware. Designed for healthier cooking, our ceramic-coated cookware is free from PTFE, PFOA, PFAS, lead, and cadmium, ensuring a safe and enjoyable culinary experience.

## PRODUCT OVERVIEW: COMPONENTS

Your Caraway Deluxe 16-Piece Cookware Set includes the following items:

- 10.5" Frying Pan
- 3 qt. Sauce Pan with Lid
- 6.5 qt. Dutch Oven with Lid
- 4.5 qt. Sauté Pan with Lid
- Mini 8" Fry Pan
- Mini 1.7 qt. Sauce Pan
- 4 Modular Magnetic Pan Racks
- Canvas Lid Holder with Hooks

Ceramic Coating Free of PTFE, PFAS, & PFOA

## Zero Forever Chemicals

Made with our signature non-toxic ceramic coating, so you don't have to worry about forever chemicals getting into your food.

*Image: A detailed diagram illustrating each piece of the Caraway cookware set, including their sizes and the accompanying storage accessories like the canvas lid holder and magnetic pan organizers.*

### SETUP AND STORAGE

Before first use, wash all cookware pieces with warm, soapy water and a soft sponge. Rinse thoroughly and dry completely.

#### Magnetic Pan Racks

The modular magnetic pan racks are designed to keep your pans organized and prevent scratching. Simply connect the individual racks magnetically to create a custom storage solution for your cabinets or drawers.

Place each pan vertically within the racks for easy access and protection.

## Canvas Lid Holder

The canvas lid holder with hooks can be hung over a cabinet door or mounted on a wall to store your lids efficiently, saving valuable kitchen space.

*Image: Caraway cookware and lids are neatly organized inside a wooden cabinet using the provided magnetic pan racks and a hanging canvas lid holder, demonstrating efficient storage.*

## OPERATING INSTRUCTIONS

## Stovetop and Oven Compatibility

Your Caraway cookware is compatible with all stovetops, including induction, gas, and electric ranges. All pieces are oven safe up to 550°F (288°C), allowing for seamless transitions from stovetop to oven cooking.

## Non-Stick

Super slick non-stick pans that require less oil or butter for cooking and minimal scrubbing for a spotless clean.

*Image: Two Caraway pots, one with a long handle and one with two side handles, are placed on an electric stovetop, highlighting their compatibility with various cooking surfaces.*

## Heat Settings

Due to the efficient heat distribution of ceramic, it is recommended to use low to medium heat settings for most cooking tasks. High heat should be avoided as it can damage the non-stick coating over time and is generally unnecessary.

## Utensil Use

To preserve the non-stick surface, always use silicone, wooden, or plastic utensils. Avoid metal utensils, as they can scratch and damage the coating.

## Cooking with Non-stick

The ceramic non-stick surface requires minimal oil or butter. Avoid aerosol cooking sprays, as they can leave a residue that may affect the non-stick performance. A small amount of butter or cooking oil is sufficient for most recipes.

# Cleaner Cookware

Caraway® Non-Stick	VS	PTFE Non-Stick (ex: Teflon®)

## CARE AND MAINTENANCE

Proper care will extend the life and performance of your Caraway cookware.

### Cleaning

- **Hand Wash Only:** Caraway cookware is not dishwasher safe. Always hand wash your pots and pans.
- **Cool Down:** Allow cookware to cool completely before washing to prevent warping and thermal shock to the ceramic coating.
- **Gentle Cleaning:** Use warm, soapy water and a non-abrasive sponge or cloth. For stubborn food residue, soak the pan in warm, soapy water for a few minutes before cleaning.
- **Avoid Abrasives:** Do not use steel wool, abrasive cleaners, or harsh detergents, as these can damage the non-stick surface.

### Storage

Utilize the provided magnetic pan racks and canvas lid holder to store your cookware. This prevents scratching and chipping that can occur when stacking pans directly on top of each other.

## TROUBLESHOOTING

### Food Sticking

- **Excessive Heat:** Using high heat can cause food to stick and may damage the non-stick coating. Always cook on low to medium heat.
- **Insufficient Fat:** While non-stick, a small amount of cooking oil or butter is still recommended to aid in food release and flavor.
- **Residue Buildup:** Over time, residue from cooking sprays or improper cleaning can build up, reducing non-stick performance. Ensure thorough cleaning after each use.

### Discoloration

Minor discoloration on the exterior or interior of the cookware can occur over time, especially with high heat use. This is normal and does not affect the performance or safety of the cookware. For light stains, a Caraway cleaning eraser (if provided) or a paste of baking soda and water can be used gently.

## SPECIFICATIONS

Feature	Detail
Material	Ceramic Coated (Aluminum core)
Color	Navy
