Setup

Charging the Headphones

Before first use, fully charge your ZORİYOR Z1 PRO headphones. Connect the provided USB-C charging cable to the charging port on the headphone and the other end to a compatible USB power source (e.g., wall adapter, computer USB port). The LED indicator will show charging status and turn off when fully charged.

Bluetooth Pairing

1. Ensure the headphones are powered off.
2. Press and hold the **Play/Power button** on the headphone for approximately 5 seconds until the LED indicator flashes blue and red, indicating pairing mode.
3. On your device (smartphone, tablet, laptop), enable Bluetooth and search for available devices.
4. Select "Z1 PRO" from the list of found devices.
5. Once connected, the LED indicator will turn solid blue or flash blue slowly.

Auxiliary Connection

For a wired connection, plug one end of the 3.5mm auxiliary audio cable into the headphone's audio input port and the other end into your audio device's 3.5mm jack. The headphones will automatically switch to wired mode.

Operating Instructions

Power On/Off

- **Power On:** Press and hold the **Play/Power button** for 2-3 seconds.
- **Power Off:** Press and hold the **Play/Power button** for 3-5 seconds.

Volume Control & Track Navigation

- **Volume Up:** Short press the **'+' button**.
- **Volume Down:** Short press the **'-' button**.
- **Next Track:** Long press the **'+' button**.
- **Previous Track:** Long press the **'-' button**.

Call Management

- **Answer/End Call:** Short press the **Play/Power button** once.
- **Reject Call:** Press and hold the **Play/Power button** for 2 seconds.

Active Noise Cancellation (ANC) Control

The ANC button is located on the side of the headphone. Press the **ANC button** to cycle through modes:

- **Normal Mode:** Default state without ANC.
- **ANC On:** Activates active noise cancellation.
- **Transparency Mode:** Allows ambient sounds to pass through for awareness (if supported by model).

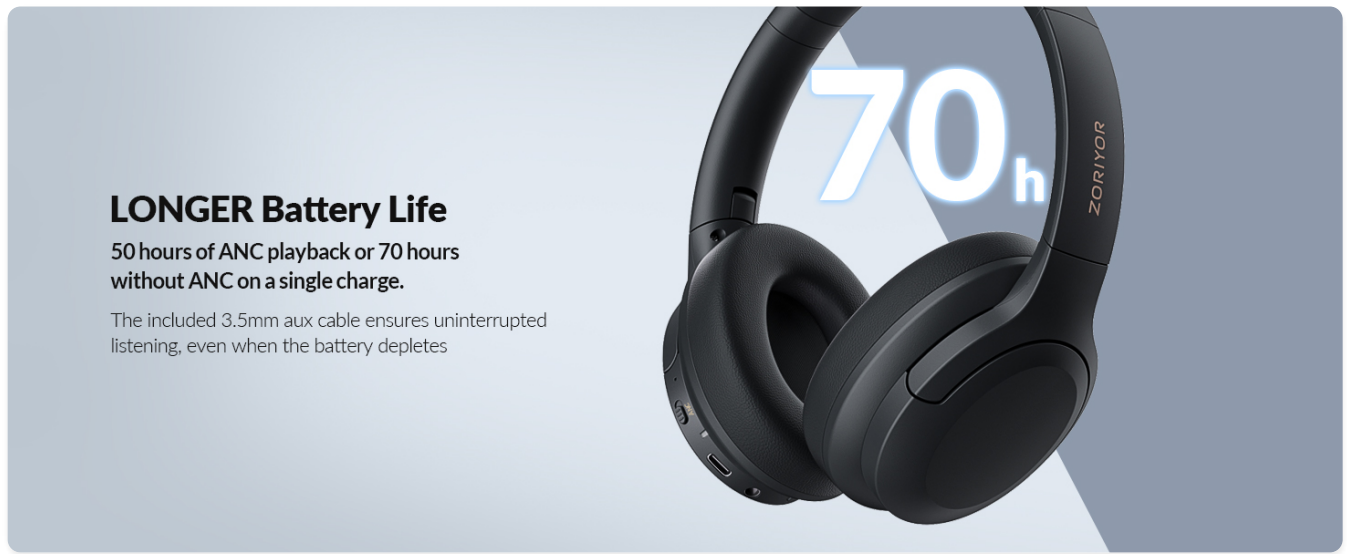

Image: Detailed view of the ANC button, used to adjust noise canceling modes.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the headphones. Do not use harsh chemicals or abrasive materials.
- **Storage:** Store the headphones in their carrying case when not in use to protect them from dust, scratches, and impacts.
- **Water Resistance:** The Z1 PRO headphones are IPX4 rated, meaning they are resistant to splashing water from any direction. Do not submerge them in water or expose them to heavy rain.
- **Battery Care:** To preserve battery life, avoid fully discharging the headphones frequently. Charge them regularly, even if not in constant use.

Troubleshooting

Problem	Possible Cause	Solution
Headphones won't turn on	Low battery	Charge the headphones fully.
Cannot pair with device	Headphones not in pairing mode / Device Bluetooth off / Interference	Ensure headphones are in pairing mode (flashing red/blue). Turn device Bluetooth off/on. Move closer to the device.
No sound / Low volume	Volume too low / Incorrect audio source / Not connected	Increase headphone and device volume. Check if connected via Bluetooth or Aux. Re-pair if necessary.

Problem	Possible Cause	Solution
Poor sound quality	Weak Bluetooth signal / Interference / Damaged audio file	Move closer to the device. Avoid obstacles. Try a different audio file.
ANC not working effectively	ANC not activated / Improper fit	Press the ANC button to activate. Adjust headphones for a snug fit.

Factory Reset

If you experience persistent issues, you can reset the headphones to their original factory settings:

- With the headphones powered on, press and hold both the '+' (**Volume Up**) and '-' (**Volume Down**) buttons simultaneously for approximately 5-7 seconds until the LED indicator flashes rapidly, then turns off.
- The headphones are now reset. You will need to re-pair them with your devices.
