Reebok RB5100

Reebok Men's Lite Plus 4 Work Fire and Safety Shoe User Manual

Model: RB5100

1. INTRODUCTION

Welcome to the user manual for your new Reebok Men's Lite Plus 4 Work Fire and Safety Shoe. This manual provides essential information on the features, care, and specifications of your footwear. Designed for lightweight work, these shoes offer comfort and protection with a FuelFoam midsole and slip-resistant properties.

2. PRODUCT FEATURES

The Reebok Lite Plus 4 Work shoe is engineered with several key features to enhance comfort and safety:

- **FuelFoam Midsole:** Provides optimal cushioning and responsive comfort throughout the day.
- **Extra Wide Composite Toe:** Offers robust protection for your feet at work while ensuring ample toe room for comfort and natural movement.
- **Slip Resistant (ASTM F3445):** The outsole is specifically designed to provide a high coefficient of friction with walking surfaces, significantly improving slip resistance in various work environments.
- **Water Resistant and Breathable Microfiber Upper:** Ensures comfort and flexibility, keeping your feet dry and comfortable.
- **MemoryTech Removable Footbed:** Delivers memory foam comfort with every step and flex, adapting to your foot's contours.

3. SETUP

Your Reebok Lite Plus 4 Work shoes are ready for use right out of the box. No assembly or complex setup is required. Simply ensure they fit comfortably and securely before beginning your work day.

- **Initial Fit:** Try on both shoes with the type of socks you typically wear for work.
- **Lacing:** Lace the shoes securely, ensuring they are snug but not overly tight, to provide proper support.
- **Break-in Period:** While designed for immediate comfort, a short break-in period may further enhance the fit and feel.

4. OPERATING

These shoes are designed for daily wear in work environments requiring safety and comfort. They are suitable for various industrial and service settings where slip resistance and toe protection are essential.

- **Intended Use:** Wear these shoes for work activities that benefit from their safety features, such as construction, manufacturing, warehousing, and service industries.
- **Environment:** The water-resistant upper provides protection in damp conditions, while the slip-resistant sole performs well on various floor types.
- **Comfort:** The FuelFoam midsole and MemoryTech footbed are engineered to provide sustained comfort during long shifts.

5. CARE AND MAINTENANCE

Proper care will extend the life and maintain the performance of your Reebok Lite Plus 4 Work shoes. Given their 100% Synthetic

fabric type and Rubber sole, specific care instructions apply:

- **Cleaning:** Wipe the synthetic upper with a damp cloth to remove dirt and debris. For tougher stains, use a mild soap solution and a soft brush. Avoid harsh chemicals.
- **Drying:** Allow shoes to air dry naturally at room temperature. Do not expose them to direct heat sources like radiators or direct sunlight, as this can damage the materials.
- **Storage:** Store shoes in a cool, dry place away from direct sunlight when not in use.
- **Footbed Care:** The MemoryTech Removable Footbed can be removed and air-dried if it becomes damp or requires airing out.
- **Sole Inspection:** Regularly inspect the rubber sole for excessive wear, especially the slip-resistant tread, to ensure continued safety performance.

6. TROUBLESHOOTING

While your Reebok Lite Plus 4 Work shoes are built for durability and comfort, here are some common issues and their solutions:

Issue	Possible Cause	Solution
Discomfort or rubbing	Incorrect size, improper lacing, or new shoe break-in.	Ensure correct size and proper lacing. Allow for a break-in period. Consider different socks.
Reduced slip resistance	Worn out sole tread, accumulation of debris on sole.	Clean the sole thoroughly. If tread is significantly worn, consider replacing the shoes for safety.
Odor	Moisture buildup, lack of ventilation.	Remove and air out the MemoryTech footbed. Ensure shoes dry completely after use. Use shoe deodorizers if necessary.

7. SPECIFICATIONS
