SETUP AND CONNECTION

1. **Identify Ports:** Locate the USB-A port on your power adapter, computer, or power bank, and the USB-C port on your device (e.g., smartphone, tablet, laptop).

2. **Connect USB-A:** Insert the USB-A end of the Philco cable into the USB-A port of your power source.

3. **Connect USB-C:** Insert the USB-C end of the Philco cable into the USB-C port of your device.

4. **Verify Connection:** Ensure both ends are securely connected. Your device should indicate that it is charging or connected for data transfer.

OPERATING INSTRUCTIONS

Charging Your Device

Connect the Philco USB to USB C cable to a compatible power source (wall adapter, power bank, computer USB-A port) and your USB-C enabled device. The cable supports Power Delivery (PD) up to 20W for fast charging. Charging speed may vary depending on your power source and device's charging capabilities.

Data Transfer

To transfer data, connect the Philco USB to USB C cable between your computer's USB-A port and your USB-C enabled device. Ensure your device is set to "File Transfer" or "MTP" mode if prompted. The cable supports data transfer speeds of up to 480Mbps (USB 2.0 standard).

MAINTENANCE

- **Cleaning:** Wipe the cable with a soft, dry cloth to remove dust or dirt. Avoid using harsh chemicals or abrasive materials.

- **Storage:** Store the cable in a cool, dry place away from direct sunlight and extreme temperatures. Its tangle-free silicone design allows for easy coiling and storage.

- **Handling:** While durable, avoid excessive force when plugging or unplugging the cable. Do not bend the connectors at sharp angles.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging.	Loose connection, incompatible power source, or device issue.	Ensure both ends of the cable are securely plugged in. Try a different power adapter or USB-A port. Test with another device to rule out device-specific issues.
Slow charging speed.	Power source not providing sufficient wattage, or device not supporting fast charging.	Use a power adapter that supports 20W Power Delivery. Ensure your device is compatible with fast charging.
Data transfer not working.	Device not in data transfer mode, or driver issues on computer.	Check your device's notification panel and select "File Transfer" or "MTP" mode. Try connecting to a different USB port on your computer. Ensure necessary drivers are installed.
