including 1pcs Plug+1pcs charger

Image showing a power adapter and the magnetic USB charging cable, indicating that a power adapter is often used with the cable.

SETUP AND USAGE

1. Connecting the Charger

To charge your SOUYIE KC86 or KLOGIPOW KC86 Smart Watch, follow these steps:

1. Connect the USB-A end of the charging cable to a compatible USB power source. This can be a USB wall adapter (recommended 5V/1A), a computer's USB port, or a power bank.
2. Align the magnetic charging pins of the cable with the charging contacts on the back of your smart watch. The magnetic connection will securely attach the cable to the watch.
3. Ensure the watch display indicates that charging has begun.

2. Charging Time

The charging cable provides an original charging speed. A full charge typically takes approximately 2.5 hours.

Important:

- For optimal charging performance and safety, it is recommended to use a USB adapter with an output of 5V/1A.
- Avoid using adapters with higher voltage or current than recommended, as this may damage the watch or charger.

SAFETY FEATURES

The yiqungo Magnetic USB Charging Cable is designed with multiple safety protections to ensure stable and safe charging for your smart watch:

- **Over-voltage Protection:** Prevents damage from excessive voltage input.
- **Over-current Protection:** Safeguards against damage from excessive current flow.
- **Short-circuit Protection:** Protects the device and charger from short-circuit conditions.

MAINTENANCE

To ensure the longevity and proper functioning of your charging cable, please observe the following maintenance guidelines:

- Keep the magnetic charging pins clean and free from dust or debris. Use a soft, dry cloth to gently wipe them if necessary.
- Avoid bending or kinking the cable excessively, as this can damage the internal wires.
- Store the cable in a cool, dry place when not in use.
- Do not expose the cable to extreme temperatures or direct sunlight.
- Do not attempt to disassemble or repair the cable yourself.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Watch not charging	<ul style="list-style-type: none">• Loose connection• Dirty charging contacts• Faulty USB power source• Damaged cable	<ul style="list-style-type: none">• Ensure the magnetic pins are securely attached to the watch.• Clean the charging contacts on both the watch and the cable.• Try a different USB port or power adapter.• Inspect the cable for visible damage. If damaged, replace it.
Slow charging	<ul style="list-style-type: none">• Underpowered USB adapter• Background processes on watch	<ul style="list-style-type: none">• Use a 5V/1A USB adapter.• Close unnecessary applications on the smart watch during charging.

SPECIFICATIONS

Brand	yiqungo
Model Compatibility	SOUYIE KC86 Smart Watch, KLOGIPOW KC86 Smart Watch
Connector Type	Magnetic 2-Pin, USB-A
Recommended Input	5V/1A USB Adapter
Full Charge Time	Approximately 2.5 hours
Special Features	Over-voltage protection, Over-current protection, Short-circuit protection, High Speed Charging
Package Dimensions	4.72 x 2.95 x 0.59 inches
Item Weight	0.71 ounces
UPC	721545000255
