## AECOJOY 8x8 Gazebo

# AECOJOY 8' x 8' Wall-Mounted Lean-to Gazebo Instruction Manual

Model: 8x8 Gazebo (Gray)

## INTRODUCTION

---

Thank you for choosing the AECOJOY 8' x 8' Wall-Mounted Lean-to Gazebo. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your gazebo. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

### Important Safety Information

- Always assemble and disassemble the gazebo in an open area, away from power lines and other hazards.
- Keep the hard top clear of debris to prevent accidents.
- Do not leave the gazebo unattended during assembly or disassembly.
- Ensure the gazebo is properly anchored and secured according to instructions to withstand wind gusts and other weather conditions.

## SETUP AND ASSEMBLY

---

The AECOJOY gazebo is designed for straightforward assembly. All parts are clearly labeled, and comprehensive instructions are included to guide you through each step.

### Assembly Tips:

- **Two-Person Assembly:** It is highly recommended that two people assemble this gazebo for safety and ease.
- **Pre-Assembly:** Consider pre-assembling uprights and beams before final installation.
- **Alignment:** Adjust the angle of components before fully tightening screws to ensure proper alignment. This improves overall installation quality.
- **Tools:** A power screw gun can significantly reduce assembly time and effort.

- **Anchoring:** The gazebo is designed to be sturdy once anchored. Ensure it is securely fastened to a stable surface, such as a wall and ground, as per the detailed instructions. Do not fully anchor until all top components are in place.

# ENCLOSE YOUR YARD UNDER THIS GAZEBO

Fits all gazebos, curtain or not  
Each model is designed with a structure that allows unlimited expansion to cover your entire yard.

## OPERATING YOUR GAZEBO

### Roof Features:

- The gazebo roof features flexible panels designed to block UPF 70+ and 99% of UV rays during summer, providing excellent sun protection.
- In winter, the robust roof can support up to 7 inches of snow and withstand approximately 6 pounds per square foot, offering protection from elements.

### Curtains and Netting:

The gazebo includes 3-sided curtains and mosquito netting for comprehensive protection and privacy. Both the mosquito netting and curtains are equipped with smooth zippers for a complete seal, allowing you to enclose the space as needed.

## SUMMER

Heavily tinted roof blocks  
**UPF 70+ 99% UV**

Keeps mosquitoes  
and pests out.

Blocks angled sunlight.

## WINTER

High-quality roof holds  
up to **7"-thick snow**

Shelters from  
wind and rain.  
Provides warmth.

## MAINTENANCE

Regular maintenance will help prolong the life and appearance of your AECOJOY gazebo.

- **Roof Cleaning:** Periodically inspect and clear the hard top roof of any accumulated debris, leaves, or snow to maintain its integrity and prevent damage.
- **Frame Cleaning:** Clean the aluminum frame with a mild soap and water solution. Rinse thoroughly and dry to prevent water spots or corrosion.
- **Curtain and Netting Care:** The curtains and netting can be cleaned with a damp cloth. For deeper cleaning, follow the care instructions on the fabric tags. To prevent fading, consider removing curtains during prolonged periods of intense sunlight if not in use.
- **Hardware Check:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as necessary.

## TROUBLESHOOTING

---

- **Missing or Damaged Parts:** If you find any parts are missing or damaged upon unpacking, please contact our customer service team immediately for assistance.
- **Water Leaks:** In rare cases, minor leaks may occur during heavy rain. Applying a silicone sealant to seams or joints where water ingress is observed can resolve this issue.
- **Gazebo Feels Flimsy:** The gazebo's stability significantly increases once it is fully assembled and properly anchored to a wall and the ground. Ensure all anchoring steps are completed as per the assembly instructions.
- **Curtains Lack Attachment Points:** If your curtains appear to lack necessary holes for hanging, carefully review the assembly instructions for curtain installation. If still unresolved, contact customer service for guidance before attempting to drill new holes, which could void a warranty.

## SPECIFICATIONS

---

Feature	Detail
Brand	AECOJOY
Model	8x8 Gazebo
Material	Aluminum (Frame)
Style	Lean-to Gazebo
Product Dimensions (L x W x H)	95.64" x 87.34" x 96"
