Astronaut Rabbit Galaxy Projector Lamp User Manual

Model: 3256807357861001-83uE

Brand: GENERIC

INTRODUCTION

The Astronaut Rabbit Galaxy Projector Lamp is designed to transform any room into a captivating cosmic environment. This device projects stunning starry skies and dynamic nebula effects, creating a soothing and immersive atmosphere for relaxation, sleep, or entertainment.

PRODUCT FEATURES

- Projects a stunning array of stars and nebulae.
- Creates a mesmerizing galaxy effect.
- Rotating projection for dynamic display.
- Chemical-free design for safety.
- Charming Astronaut-themed design.
- Adjustable arms and magnetic absorption for flexible positioning.
- Timer function (45/90 minutes).

PACKAGE CONTENTS

- Astronaut Rabbit Galaxy Projector Lamp
- Remote Control
- USB Power Cable
- User Manual

PRODUCT OVERVIEW AND DIMENSIONS

Familiarize yourself with the components and size of your projector.
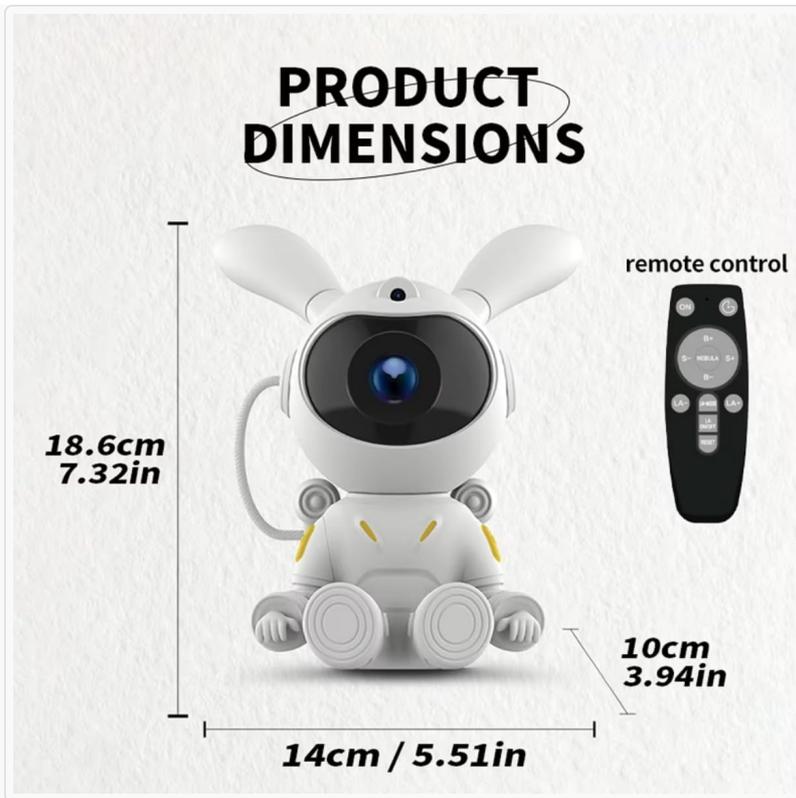

Image: Front and back view of the Astronaut Rabbit Projector, highlighting magnetic absorption for the head, adjustable arms, and easy assembly of the ears.

Image: Diagram showing the dimensions of the Astronaut Rabbit Projector: 18.6cm (7.32in) height, 14cm (5.51in) width, and 10cm (3.94in) depth. A remote control is also pictured.

SETUP

1. **Unpack:** Carefully remove all components from the packaging.

2. **Assemble Ears:** Gently attach the rabbit ears to the designated slots on the astronaut's head.

3. **Positioning:** Place the projector on a stable, flat surface. The head is magnetically attached and can be rotated 360 degrees to adjust the projection angle.

4. **Power Connection:** Connect the USB power cable to the projector's power input port and plug the other end into a compatible USB power adapter (not included) or a USB port.

OPERATING INSTRUCTIONS

The projector is controlled via the included remote control. Ensure the remote has working batteries.

Image: Close-up of the remote control, showing buttons for power, nebula brightness (B+, B-), nebula color/mode (S+, S-), star brightness (S+, S-), star mode (S+, S-), timer (45/90 min), and reset.

Basic Operation

- **Power On/Off:** Press the "ON/OFF" button on the remote control to turn the projector on or off.
- **Nebula Effect:** Use the "NEBULA S+" and "NEBULA S-" buttons to cycle through different nebula colors and patterns. The "B+" and "B-" buttons adjust the brightness of the nebula.
- **Star Effect:** Use the "STAR S+" and "STAR S-" buttons to adjust the brightness or mode of the stars.
- **Simultaneous/Separate Projection:** Nebulas and stars can be used simultaneously or separately.
- **Timer Function:** Press the timer button to set the projector to automatically turn off after 45 or 90 minutes.
- **Reset:** Press the "RESET" button to return settings to default.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the projector. Do not use abrasive cleaners or solvents.

- **Storage:** When not in use, store the projector in a cool, dry place away from direct sunlight.

- **Lens Care:** Avoid touching the projection lens directly. If cleaning is necessary, use a lens cleaning cloth.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Projector does not turn on	No power connection	Ensure USB cable is securely connected and power source is active.
Remote control not working	Batteries are dead or incorrectly inserted	Replace batteries or ensure they are inserted with correct polarity.
Projection is blurry	Lens is dirty or protective film not removed	Clean the lens with a soft cloth. Ensure any protective film on the lens is removed.
No stars/nebula	Feature turned off or brightness too low	Use remote to activate star/nebula mode and increase brightness.

If the issue persists, please contact customer support.
