TIMEMOON TMN-CL-0

TIMEMOON 2026 Digital Clock Plug-in User Manual

Model: TMN-CL-0

Introduction

Thank you for choosing the TIMEMOON 2026 Digital Clock. This plug-in clock is designed for clear readability, featuring a large-font display suitable for the elderly and individuals with visual needs. It includes essential functions such as time, date, month, and year display, multiple alarm settings, and automatic Daylight Saving Time (DST) adjustment. This manual provides detailed instructions for setup, operation, and maintenance to ensure optimal performance.

Setup

1. **Unpacking:** Carefully remove the clock and all accessories from the packaging.
2. **Power Connection:** This clock requires a continuous power supply. Plug the provided power adapter into the clock's power input port and then into a standard electrical outlet. **Note:** The clock is not battery-powered for operation but has a memory function.
3. **Initial Power-On:** Once plugged in, the clock will power on automatically.
4. **Memory Function:** The clock features a power outage memory function. All settings (time, alarms, etc.) are retained even after a power interruption, eliminating the need for re-setting when power is restored.
5. **Automatic DST Adjustment:** The clock is equipped with automatic Daylight Saving Time (DST) adjustment. Ensure this feature is enabled in the settings for automatic time changes.

Operating Instructions

1. Time Display Modes

The clock offers three distinct time display modes to suit various preferences:

- **Classic Digital Clock:** Displays time in a traditional digital format, ideal for general use.
- **Colorful Clock:** Features a multi-color display to differentiate between the week, time, and date, enhancing visual appeal and readability.
- **Wall Clock (Imitation Pointer):** Presents time with an imitation analog pointer display, offering a classic aesthetic suitable for room decoration.

Your browser does not support the video tag.

2. Alarm Settings

The clock supports multiple alarms for daily reminders:

- **12 Daily Alarms:** Set up to 12 daily alarms for various activities such as meals, appointments, exercises, feeding pets, or drinking water.
- **3 Medication Reminders:** Dedicated settings for 3 groups of medication reminders. Each alarm can be set to repeat or be a one-time event.

Refer to the on-screen menu for detailed instructions on setting and managing alarms. Press any button on the clock to stop an active alarm.

3. Automatic Dimming and Brightness Settings

The screen brightness can be configured in two ways:

- **Automatic Dimming Mode:** The clock automatically adjusts screen brightness between day and night based on the time. Typically, it brightens from 7:00 AM to 6:59 PM and dims from 7:00 PM to 6:59 AM.
- **Fixed Brightness:** You can manually set a fixed brightness level (Low, Mid, High) to suit specific lighting conditions or

personal preference.

4. Language Settings

The clock supports 10 built-in system languages:

- English
- German
- Spanish
- Portuguese
- French
- Italian
- Dutch
- Czech

- Polish
- Swedish

Navigate through the settings menu to select your preferred language.

5. Font Color Options

In the classic digital clock mode, you can customize the font color for enhanced visibility. Available colors include:

- White (Default)
- Yellow
- Red
- Green

These options are particularly beneficial for users with specific visual needs.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the screen and casing. Avoid abrasive cleaners or solvents that may damage the surface.
- **Placement:** Place the clock on a stable, flat surface or mount it securely on a wall. Avoid direct sunlight or extreme temperatures.
- **Power Supply:** Ensure the clock is always connected to a stable power source.

Troubleshooting

Problem	Possible Cause	Solution
Clock does not power on.	No power supply or faulty adapter.	Ensure the power adapter is securely plugged into both the clock and a working electrical outlet. Test the outlet with another device.
Time is incorrect after a power outage.	Memory function failure (rare) or prolonged power loss.	The clock has a memory function. If the time is incorrect, manually adjust it through the settings menu.

Problem	Possible Cause	Solution
DST not adjusting automatically.	Automatic DST setting is disabled.	Access the settings menu and ensure the "Automatic DST Adjustment" feature is enabled.
Alarms are not sounding.	Alarm volume is too low or alarm is disabled.	Check the alarm settings to ensure they are enabled and the volume is set to an audible level.
Screen is too bright/dim.	Brightness settings need adjustment.	Adjust the brightness settings in the menu. Switch between automatic dimming mode and fixed brightness levels as needed.

Specifications

Feature	Detail
Brand	TIMEMOON
Model Number	TMN-CL-0
Display Type	Digital
