Operating Instructions

1. Adjustable Height Mechanism

The chair's height can be adjusted to suit various desk heights, including standing desks. To adjust, locate the lever beneath the seat and lift it while applying or releasing weight from the seat. The chair height ranges from 40.2 inches to 48 inches.

Resilient Mesh Fabric

With high-quality resilient mesh cloth, the chair backrest and seat allows you to sit without feeling hot or sweaty.

5. 360-Degree Swivel and Smooth-Rolling Casters

The chair is equipped with a 360-degree swivel base for easy rotation and smooth-rolling casters for effortless movement across various floor surfaces. The durable five-star base ensures even weight distribution and stability.

Maintenance

To ensure the longevity and optimal performance of your Primy Drafting Chair, regular maintenance is recommended:

- **Cleaning:** Wipe down the mesh and cushioned surfaces with a damp cloth and mild soap. Avoid harsh chemicals.
- **Caster Care:** Periodically check the casters for any accumulated debris (hair, dust) and clean them to maintain smooth rolling.
- **Mechanism Check:** Ensure all screws and adjustable mechanisms are securely tightened. Retighten if any looseness is detected.

Troubleshooting

If you encounter any issues with your chair, please refer to the following common solutions:

- **Chair not adjusting height:** Ensure the lever is fully engaged and that there is no obstruction in the gas lift cylinder.
- **Casters not rolling smoothly:** Check for debris wrapped around the wheels and clean them thoroughly.
- **Squeaking noises:** Apply a small amount of silicone lubricant to moving parts or tighten any loose screws.
