4. MAINTENANCE

4.1. Cleaning

To clean the remote control, gently wipe its surface with a soft, dry cloth. For stubborn dirt, slightly dampen

the cloth with water. Do not use abrasive cleaners, solvents, or chemical sprays, as these can damage the remote's finish or internal components.

4.2. Battery Replacement

Replace batteries when the remote's range decreases or buttons become unresponsive. Always replace both batteries at the same time with new ones of the same type (AAA). Dispose of used batteries responsibly according to local regulations.

4.3. Storage

Store the remote control in a cool, dry place away from direct sunlight, extreme temperatures, and high humidity. If the remote will not be used for an extended period, it is advisable to remove the batteries to prevent leakage.

5. TROUBLESHOOTING

- **Remote not responding:**
  - Check if the batteries are inserted correctly with the correct polarity.
  - Replace old batteries with new ones.
  - Ensure there are no obstructions between the remote control and the sound bar's infrared receiver.
  - Make sure you are within the effective operating range of the remote.

- **Certain functions do not work:**

  This remote is a replacement and may not support all functions of the original Samsung remote. Verify if the function you are trying to use is a basic control (e.g., volume, power, source). If it's an advanced feature, it might not be supported by this replacement unit.
