## 2. Power On/Off

- **Power On:** Press and hold the Power button located on the side of the tablet until the ATMPG logo appears.
- **Power Off:** Press and hold the Power button until the power options menu appears. Select 'Power off' and confirm.
- **Restart:** From the power options menu, select 'Restart'.

## 3. Initial Setup

Upon first power-on, the tablet will guide you through the initial setup process:

1. Select your preferred language.
2. Connect to a Wi-Fi network.
3. Sign in with your Google account or create a new one. This is necessary to download apps from the Google Play Store.
4. Follow the on-screen prompts to complete the setup, including setting up security (PIN, pattern, or password) and privacy settings.

## 4. Inserting a TF Card (MicroSD Card)

To expand storage, insert a TF card (MicroSD card) into the designated slot. The tablet supports up to 1TB of external storage.

1. Locate the TF card slot on the side of the tablet.
2. Gently insert the TF card into the slot with the gold contacts facing down until it clicks into place.
3. The tablet will detect the new storage. You may be prompted to format the card for optimal use with the device.

## MAINTENANCE

---

### Cleaning Your Tablet

- Use a soft, lint-free cloth to clean the screen and body of the tablet.
- For stubborn smudges, slightly dampen the cloth with water or a screen cleaner designed for electronics.
- Avoid using harsh chemicals, abrasive materials, or excessive moisture.

### Storage

- Store the tablet in a cool, dry place away from direct sunlight and extreme temperatures.
- If storing for an extended period, ensure the battery is charged to about 50% to prevent deep discharge.

### Software Updates

Regularly check for and install software updates to ensure your tablet has the latest features, security patches, and performance improvements. Go to Settings > System > System update.
