2. WHAT'S IN THE BOX

- Hy C8 PRO Multifunctional AI Bluetooth Smart Glasses (Black)
- Charging Cable
- Protective Pouch/Case
- User Manual (this document)

3. SETUP

3.1 Charging the Glasses

Before first use, fully charge your Hy C8 PRO Smart Glasses. Locate the charging port on one of the temples (arms) of the glasses. Connect the provided charging cable to the glasses and the other end to a compatible USB power source (e.g., computer USB port, wall adapter). A charging indicator light will typically show the charging status.

The glasses offer an extended battery life of up to 9 hours of continuous playtime on a full charge.

3.2 Bluetooth Pairing

To connect your smart glasses to your smartphone or other Bluetooth-enabled device:

1. Ensure the smart glasses are charged and powered on.
2. Activate Bluetooth on your smartphone or device.
3. Search for available Bluetooth devices. The glasses should appear as "Hy C8 PRO" or a similar name.
4. Select the glasses from the list to initiate pairing.
5. Once paired, you will hear an audio confirmation, and the glasses will be ready for use.

The glasses feature seamless Bluetooth 5.4 connectivity for stable and efficient pairing.

4. OPERATING INSTRUCTIONS

4.1 Basic Controls (Touch Controls)

The Hy C8 PRO Smart Glasses feature intuitive touch controls located on the temples. Specific gestures allow you to manage various functions:

- **Music Playback:** Tap to play/pause, swipe forward/backward for next/previous track.
- **Volume Control:** Swipe up/down on the temple to adjust volume.
- **Call Management:** Tap to answer/end calls, long press to reject calls.
- **Voice Assistant Activation:** Specific gesture (e.g., double-tap or long press) to activate your device's AI voice assistant.

Refer to the quick start guide included in the box for detailed touch gesture commands.

4.2 AI Features and Voice Interaction

The glasses are equipped with advanced AI capabilities for enhanced interaction:

- **AI Voice Conversation:** Engage in natural language conversations with the integrated AI. The system uses advanced speech recognition and semantic understanding to provide accurate and natural responses.
