Anker B2692

Anker Nano Charger (45W) User Manual

Model: B2692

1. PRODUCT OVERVIEW

The Anker Nano Charger (45W) is a compact and powerful USB-C wall charger designed for rapid charging of a wide range of devices. It features a foldable plug for enhanced portability and includes a USB-C to USB-C cable, making it ready for immediate use with your USB-C compatible devices.

Key features include:

- **Maximum 45W Output:** Delivers high-speed charging for smartphones, tablets, and even some laptops.
- **Ultra-Compact Design:** Approximately 33% smaller than conventional 45W chargers, with a foldable plug for easy transport.
- **ActiveShield™ 3.0 Safety System:** Continuously monitors temperature to ensure safe and stable charging for your devices.
- **Wide Compatibility:** Supports fast charging for Apple devices (iPhone, iPad, MacBook Air) and various Android smartphones (Galaxy, etc.).

3. SETUP

Follow these steps to set up your Anker Nano Charger:

1. **Unfold the Plug:** Gently unfold the AC prongs from the charger body until they lock into place.
2. **Connect the Cable:** Insert one end of the included USB-C to USB-C cable into the USB-C port on the Anker Nano Charger.
3. **Connect to Device:** Insert the other end of the USB-C cable into the charging port of your compatible device (smartphone, tablet, laptop, etc.).
4. **Plug into Power Outlet:** Insert the charger's unfolded plug into a standard AC power outlet.

Your device should begin charging automatically. Ensure the power outlet is easily accessible.

4. OPERATING INSTRUCTIONS

The Anker Nano Charger is designed for simple plug-and-play operation. Once connected as described in the "Setup" section, it will automatically detect your device's charging requirements and deliver the optimal power output up to 45W.

- **Fast Charging:** For devices that support USB Power Delivery (PD), the charger will provide rapid charging. This includes many modern smartphones (e.g., iPhone 17 series, Galaxy S series), tablets, and USB-C laptops.
- **Device Compatibility:** Use the included USB-C to USB-C cable for devices with a USB-C charging port. For devices with other port types (e.g., Lightning), you will need a compatible cable (not included).
- **Safety Features:** The ActiveShield™ 3.0 system continuously monitors the charger's temperature to prevent overheating and ensure safe operation for both the charger and your connected devices.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Anker Nano Charger, please follow these maintenance guidelines:

- **Cleaning:** Disconnect the charger from the power outlet and all devices before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or aerosols.
- **Storage:** When not in use, store the charger in a cool, dry place. Fold the AC prongs to protect them and save space.
- **Handling:** Avoid dropping the charger or subjecting it to strong impacts. Do not expose it to extreme temperatures, humidity, or direct sunlight.
- **Cable Care:** Do not bend or pull the cable excessively. Store the cable neatly to prevent tangling and damage.

6. TROUBLESHOOTING

If you encounter issues with your Anker Nano Charger, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging.	<ul style="list-style-type: none">◦ Loose connection.◦ Faulty cable.◦ Power outlet issue.◦ Incompatible device.	<ul style="list-style-type: none">◦ Ensure all connections are secure.◦ Try a different USB-C cable.◦ Test the charger in a different power outlet.◦ Verify your device is compatible with USB-C charging.
Slow charging.	<ul style="list-style-type: none">◦ Device does not support fast charging.◦ Cable is not rated for high power.	<ul style="list-style-type: none">◦ Confirm your device supports USB PD fast charging.◦ Use the included Anker USB-C to USB-C cable or another high-quality, PD-compatible cable.
Charger feels warm.	<ul style="list-style-type: none">◦ Normal operation during high-power charging.◦ Poor ventilation.	<ul style="list-style-type: none">◦ This is normal. The ActiveShield™ 3.0 system manages temperature.◦ Ensure the charger is in a well-ventilated area. If it becomes excessively hot, disconnect it and contact customer support.

If the problem persists after trying these solutions, please contact Anker customer support.
