Swissklip SK-HaloUV-Parent

Swissklip Swissker HaloUV Light Sanitizer Instruction Manual

Model: SK-HaloUV-Parent | Brand: Swissklip

INTRODUCTION

The Swissklip Swissker HaloUV Light Sanitizer is an advanced device designed to enhance cleanliness and hygiene in your home or office. Utilizing powerful UV-C technology, it effectively sanitizes air, surfaces, and fabrics without the need for harsh chemicals. This manual provides essential information for safe and effective operation.

IMPORTANT SAFETY INFORMATION

WARNING: HaloUV emits Ozone.

- When this product is on, clear the room of all people, pets, and plants to avoid damage to skin, eyes, and respiratory system.
- Do not look directly at the UV-C bulb while it is lit. Direct exposure can cause severe eye and skin damage.
- After use, ventilate the room thoroughly for 10-20 minutes until it has returned to a neutral smell.
- Keep out of reach of children.
- This product is not a toy and should be kept out of the reach of children.

Always ensure the safety tag is placed on the door handle of the room where the device is in use to alert others.

PRODUCT OVERVIEW AND COMPONENTS

The Swissklip Swissker HaloUV Light Sanitizer comes with the following components:

- 1 HaloUV Light Unit (Base with power cord, Protective Frame, UV-C Bulb)
- 1 Remote Control
- 1 User Manual
- 1 Safety Tag ("Cleaning in Progress" door hanger)

Easy Assembly

Everything You Need

Protective Frame

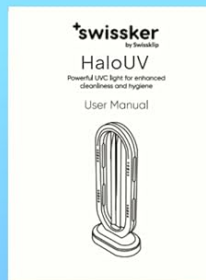

Replaceable Lamp

HaloUV Base

Remote Control

Manual

Safety Tag

SETUP INSTRUCTIONS

Follow these steps to assemble and prepare your HaloUV Light Sanitizer for use:

- Step 1: Remove Parts from Box.** Carefully unpack all components from the packaging. Inspect the UV-C bulb for any damage from shipping.
- Step 2: Insert Bulb into Protective Frame.** Gently slide the UV-C bulb into the protective frame, ensuring it aligns correctly with the slots.
- Step 3: Insert Bulb & Frame into Base.** Align the prongs of the bulb with the socket in the HaloUV base. Push down firmly until you hear a "CLICK," indicating it is securely in place.
- Step 4: Place and Plug In.** Position the HaloUV Light Sanitizer in the desired room for sanitization. Plug the power cord into a standard electrical outlet.
- Step 5: Prepare Remote Control.** Insert two AAA batteries (not included) into the remote control.

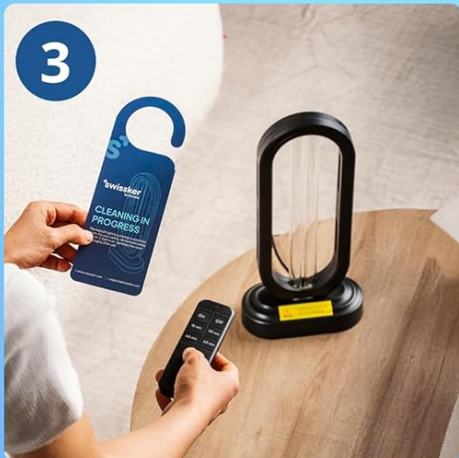

How to Use *in 4 easy steps*

1 Assemble & Set Up
Attach lamp and frame into base.

2 Place & Plug In
Remove all pets and plants.

3 Set Timer with Remote
Leave the room & hang safety tag

4 Wait Until Completion
Ventilate after use.

OPERATING INSTRUCTIONS

To operate your HaloUV Light Sanitizer, follow these guidelines:

- 1. Clear the Room:** Ensure the room is completely empty of all people, pets, and plants before activating the device.
- 2. Place Safety Tag:** Hang the "Cleaning in Progress" safety tag on the outside of the door to the room being sanitized.
- 3. Select Timer Setting:** Use the remote control to select the desired sanitization time: 15, 30, 45, or 60 minutes. The device will activate after a short delay, allowing you to exit the room safely.
- 4. Exit the Room:** Leave the room immediately after setting the timer.

5. **Ventilate After Use:** Once the selected time has elapsed and the device has turned off, wait 10-20 minutes before re-entering the room. Open windows or use a fan to ventilate the area until any residual odor dissipates.

Customizable Cleaning

Convenient Remote Control

+ With Customizable Timer

Long-Lasting Performance

+ With Replaceable Lamp

Image: The HaloUV remote control offers customizable cleaning times (15, 30, 45, 60 minutes). The device also features a replaceable UV-C lamp for long-lasting performance.

FEATURES AND BENEFITS

The Swissklip Swissker HaloUV Light Sanitizer offers several key features for a cleaner environment:

- **Comprehensive 360° Cleaning Power:** Effectively sanitizes spaces up to 200 square feet, reaching into mattresses, pillows, blankets, carpets, and couches.
- **High Effectiveness:** Uses advanced UV Sanitization technology, similar to that used in hospitals and the aviation industry, to eliminate up to 99.9% of germs, bacteria, and allergens.
- **Odor Elimination:** Neutralizes stubborn smells, including pet odors and household odors, that can hide deep in fabrics.
- **Supports Better Air Quality:** By reducing allergens and pollutants, it can contribute to improved air quality and potentially alleviate allergy symptoms.

- **Chemical-Free Cleaning:** Provides powerful sanitization without the need for disposable filters or chemical liquids.

Targets Deep Set Odors

May Improve Breathing

Damages Dust Mites

Chemical-Free Cleaning

Targets Germs & Harmful Viruses

MAINTENANCE

The HaloUV Light Sanitizer is designed for low maintenance. The primary maintenance task is replacing the UV-C bulb when its lifespan is reached.

- **Bulb Replacement:** The UV-C bulb is replaceable. When the bulb needs replacement, ensure the device is unplugged and cool before handling. Follow the reverse of the assembly instructions to remove the old bulb and insert a new one. Replacement bulbs can be purchased separately.
- **Cleaning:** Periodically wipe the exterior of the device with a dry, soft cloth. Do not use liquid cleaners directly on the device.

TROUBLESHOOTING

If you encounter issues with your HaloUV Light Sanitizer, consider the following:

- **Device Not Turning On:**

- Ensure the power cord is securely plugged into a working outlet.
- Check if the UV-C bulb is correctly seated in the base and protective frame.
- Verify that the remote control batteries are correctly inserted and have sufficient charge.

- **Persistent Odor After Use:**

- Ensure adequate ventilation of the room after each use. Open windows or use a fan for 10-20 minutes.
- For very strong odors, consider running the device for a longer cycle (e.g., 60 minutes) and ensuring thorough ventilation afterwards.
