Denash H Band Smart Watch User Manual

Model: Denash8i5ha2bkfx-11

INTRODUCTION

Thank you for choosing the Denash H Band Smart Watch. This manual provides comprehensive instructions on how to set up, operate, and maintain your new smart watch. Designed with a 2.01-inch high-resolution screen, long battery life, and multiple sports modes, this device is engineered to enhance your daily activities and keep you connected.

PACKAGE CONTENTS

Please verify that all items are present in your package:

- 1 x Denash H Band Smart Watch (Black)
- 1 x User Manual
- 1 x Charging Cable

SETUP GUIDE

1. Charging the Smart Watch

Before first use, fully charge your smart watch. Connect the provided charging cable to the magnetic charging points on the back of the watch and plug the USB end into a standard USB power adapter (not included).

Image: The Denash H Band Smart Watch displayed next to its magnetic charging cable, illustrating how to connect for power.

Image: A close-up view of the back of the smart watch, highlighting the two metallic charging contacts and the optical sensors for health monitoring.

A full charge typically takes approximately 2 hours. The 380mAh high-capacity battery ensures long-lasting use.

2. App Installation and Pairing

To unlock the full potential of your smart watch, download the **H Band** application on your smartphone. The app is available on both iOS and Android app stores.

1. Scan the QR code in the watch's quick start guide or search for "H Band" in your phone's app store.
2. Install the application and create an account if prompted.
3. Enable Bluetooth on your smartphone.
4. Open the H Band app, navigate to the device section, and search for your smart watch.
5. Select your watch from the list to pair. Follow any on-screen prompts to complete the pairing process.

Once paired, the watch will synchronize time and data with your phone.

OPERATING INSTRUCTIONS

Basic Navigation

The Denash H Band Smart Watch features a 2.01-inch full touch HD screen with a 240x296 resolution, providing a clear and responsive interface.

53mm/2.08in

41.5mm/1.63in

wrist strap size 270mm/10.62in

Image: Front view of the smart watch displaying its 2.01-inch screen and overall dimensions (53mm/2.08in height, 41.5mm/1.63in width).

- **Swipe Up/Down:** Navigate through menus and notifications.
- **Swipe Left/Right:** Access quick functions or widgets.
- **Tap:** Select an item or confirm an action.
- **Side Button:** Press to return to the home screen or wake the device.

Bluetooth Calling and Notifications

With Bluetooth 5.3, the smart watch allows you to stay connected directly from your wrist.

- **Answering Calls:** When a call comes in, you can answer or reject it directly on the watch.
- **Making Calls:** Access your phone's contacts or call records through the watch for one-touch dialing.
- **Message Notifications:** Receive notifications for messages (including WeChat) and other apps directly on your watch screen.

Always On Display

The Always On Display feature allows you to quickly view essential information without needing to activate the screen. Simply raise your wrist to see the date, time, message notifications, and fitness data.

Sports Modes and Fitness Tracking

The smart watch accurately records your daily steps, mileage, and calorie consumption using built-in sensors. Choose from multiple sports modes to track your specific activities.

FITNESS WATCH

Accurately record your daily steps, mileage, and calorie consumption through built in sensors, with multiple sports modes such as walking, running, and cycling to choose from.

Available sports modes include, but are not limited to, walking, running, and cycling. Refer to the H Band app for a complete list and detailed activity reports.

Multifunctional Features

Beyond communication and fitness, your smart watch offers several other convenient functions:
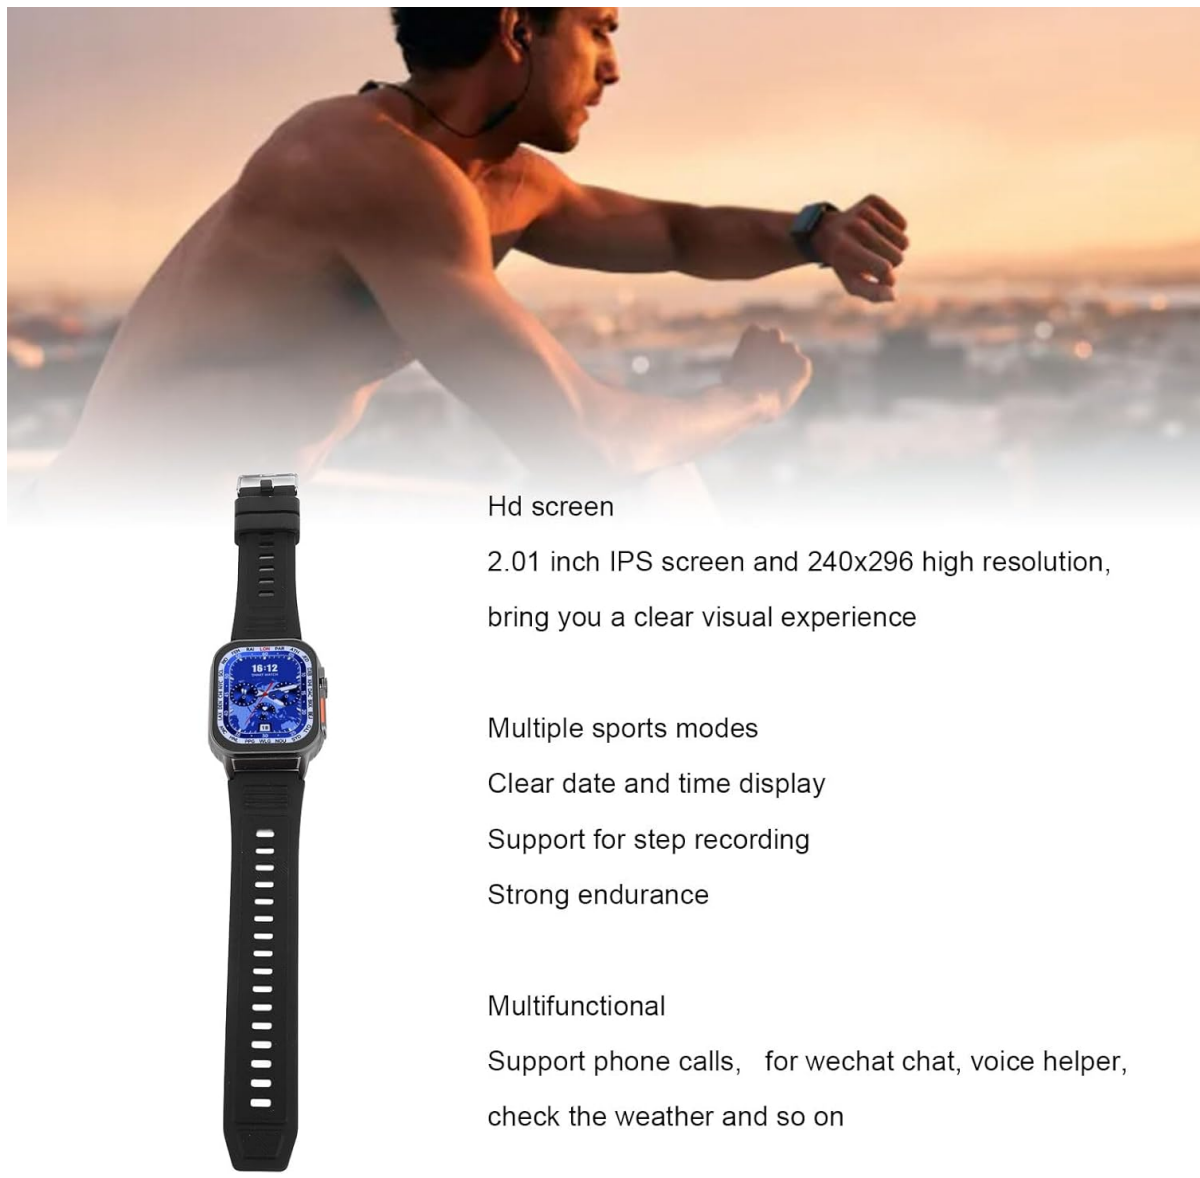

Hd screen

2.01 inch IPS screen and 240x296 high resolution, bring you a clear visual experience

Multiple sports modes

Clear date and time display

Support for step recording

Strong endurance

Multifunctional

Support phone calls,　for wechat chat, voice helper, check the weather and so on

Image: The smart watch displayed alongside a list of its key features, including HD screen, multiple sports modes, clear date/time, step recording, strong endurance, and multifunctional capabilities like calls, WeChat, voice helper, and weather.

- **Voice Assistant:** Utilize your phone's voice assistant directly from the watch.
- **Weather Forecast:** Check current weather conditions and forecasts.
- **Music Control:** Control music playback on your paired smartphone.
- **Remote Camera Control:** Use your watch as a remote shutter for your phone's camera.

MAINTENANCE

Water Resistance (IP67)

The Denash H Band Smart Watch is IP67 water resistant. This means it is protected from dust and can withstand immersion in water up to 1 meter for up to 30 minutes. It is suitable for daily use, such as hand washing or light rain exposure. However, it is **not recommended** for swimming, diving, hot showers, or saunas, as steam and hot water can damage the seals.

Cleaning and Care

To maintain your watch's appearance and functionality:

- Wipe the screen and body with a soft, lint-free cloth.
- Clean the charging contacts and sensors on the back regularly to ensure proper charging and accurate

readings.

- Avoid using harsh chemicals, abrasive cleaners, or solvents.
- Ensure the watch is dry before charging.

TROUBLESHOOTING

If you encounter issues with your smart watch, please refer to the following common solutions:

Problem	Possible Solution
Watch not turning on	Ensure the watch is fully charged. Connect to the charging cable and check for charging indicator.
Cannot pair with phone	Ensure Bluetooth is enabled on your phone. Make sure the watch is within range of your phone. Restart both the watch and your phone. Clear Bluetooth cache on your phone (if applicable). Try unpairing and re-pairing the device in the H Band app.
Notifications not appearing	Check notification permissions for the H Band app in your phone settings. Ensure the watch is connected via Bluetooth. Verify notification settings within the H Band app.
Inaccurate fitness data	Ensure the watch is worn snugly on your wrist. Calibrate steps/distance in the H Band app if available. Update the watch firmware via the app.

If the problem persists, please contact customer support for further assistance.
